Harvest is beginning in the surrounding country haying is in full blast in many places and there is much winter wheat that is ripe and being cut as fast as machines and men can handle it. There is a fine prospect for the largest crop the Potlatch has yet produced and everywhere there is an air of prosperity that we have not seen before, prosperous as this section has been. The warehouses are all getting ready for a big seasons business and they will all get it. Just watch the Potlatch the next few months.
