CLEAN-UP DAY IS BEING URGED

Recommending that all cities, towns, and villages in Idaho designate a day during clean-up week—April 12 to 17 as proclaimed by Governor Alexander—to clean up their respective communities and especially appealing to city councils to so designate a day, J. K. White, pure food commissioner, today issued a communication addressed to mayors and city councils of all communities in the state. At the same time he submitted to them also, a list of clean-up pointers. The communications follow:

Asks Day to Be Designated.

Honorable Mayor and City Council.

Gentlemen:—I would call your attention to the proclamation issued by Governor Alexander designating the week of April 12 to 17, as "Annual Clean-Up Week" in this state.

In every community attention should be called to this proclamation in order that civic pride may be aroused and attention directed to the necessity of carefully cleaning our homes, our yards and premises, our streets and alleys and our water supplies.

Perhaps no better system of obtaining sanitary reform has yet been devised than the "clean-up day" inaugurated in this state. It was wonderfully successful last year as nearly every city, town and village proclaimed a general "clean-up day" when all business was suspended and every man woman and child joined in the clean-up crusade.

This department recommends that all cities, towns and villages in Idaho designate a day during "clean-up week" and ask the co-operation of the citizens, schools, clubs, etc., in making your town the cleanest in the state.

I am making a special appeal to city councils to take this matter up and officially announce a "clean-up day" during the week designated by the governor. If our city officials will but cooperate with us in this work we are assured of success in our endeavor to improve sanitary conditions.

This department will ask that you advise us of your contemplated action in this connection and we will render you every possible assistance.

Yours very truly,
J. K. WHITE,
Inspector.

Clean-up Pointers.

1. The "Clean-up" and "Paint-up" campaign is on.
2. Cleanliness and patriotism should go together.
3. Where there is life there should be soap.
4. It costs less to have a sanitary toilet than to have a funeral.
5. There is no greater nuisance in any city than a poorly kept stable or open privy.
6. A city is as clean as its people.
7. Well kept alleys and back yards pay bigger dividends than well kept cemeteries.
8. A man is known by the company he keeps. A city is known by the streets it sweeps.
9. Dirty towns will disappear when clean people predominate.
10. Every outside toilet is a menace to public health, unless made fly proof.
11. Cleanliness is next to Godliness, but it takes many godly people some time to get "next."
12. Build your reputation for civic pride in your back yard.
13. Civic cleanliness has its own reward—community health.
14. The reason we have so many dirty towns is because there are so many dirty people. No town is in itself dirty; it is the people who are dirty. The town is the mirror. It reflects the people. The man who is clean in mind will be clean in person; he will have a clean front yard and a clean back yard.
15. "By their works ye shall know them."
16. "No rogue e'er felt the halter draw, with good opinion of the law."—Shakespeare.

ENLARGED HOMESTEAD ACT.

BOISE, March 27.—While no instructions have as yet been issued, copies of the enlarged homestead act as introduced in the house of representatives by Congressman Addison T. Smith passed and approved March 4, have been received.

In full the new act follows:

"That where any person qualifies to make entry under the provisions of the act of February 19, 1909, and acts amendatory thereof and supplemental thereto, shall make application to enter under the provisions of said acts any unappropriated public land in any state affected thereby which has not been designated as subject to entry under the act (provided said application is accompanied and supported by properly corroborated affidavit of the applicant in duplicate showing prima facie that the land applied for is of the character contemplated by said acts, such application, together with the regular fees and commissions, shall be received by the register and receiver of the land district in which said land is located, and suspended until it shall have been determined by the secretary of the interior whether said land is actually of that character; that during such suspension the land described in said application shall be segregated by the said register and receiver and not subject to entry until the case is disposed of; and if it shall be determined that such land is of the character contemplated by the said acts then such application shall be allowed; otherwise it shall be rejected subject to appeal; provided, that the provisions of this act shall apply to the application of a qualified entryman to make additional entry of unappropriated land adjoining his unperfected homestead entry, the area of which together with his original entry, shall not exceed 320 acres."

TYPHOID is no more necessary than Smallpox. Army experience has demonstrated the almost miraculous efficacy, and harmlessness, of Antityphoid Vaccination.

Be vaccinated NOW by your physician, you and your family. It is more vital than house insurance.

Ask your physician, druggist, or send for "Have you had Typhoid?" telling of Typhoid Vaccine, results from use, and danger from Typhoid Carriers.

THE CUTTER LABORATORY, BERKELEY, CAL.
PRODUCING VACCINES & SERUMS UNDER U. S. GOV. LICENSE

A Recent U. S. Government Report makes plain your need of a

UNITED STATES CREAM SEPARATOR

With Guaranteed Non-rusting Skimming Device

The Scientific Staff of the Dairy Division in the United States Department of Agriculture recently conducted a series of experiments to learn what effect, if any, iron (rust) has on cream and butter.

The tests **definitely established the fact** that even **minute particles** of iron (rust) caused certain undesirable flavors and that in every instance when butter was scored a few days after the making, the samples in which iron (rust) was present **scored lower** than the butter made from cream which contained no iron (rust).

In using the **United States Cream Separator** with **non-rusting skimming sections of solid nickel silver** you avoid all risk of cream and butter with an "off" flavor.

The **U. S.** skimming sections are **positively guaranteed never to rust.** No other separator manufacturer gives you a printed non-rusting guarantee.

A demonstration gladly given right at your home, without obligation.

Hendrie Implement Co., Blackfoot, Idaho

STATE AUDITOR RELIEVED OF TWO CHARGES.

Two grand jury indictments against James H. Wallis and Fred L. Huston, jointly were dismissed in district court Saturday on motion of the prosecuting attorney. The action was taken because of the issuance of the writ of habeas corpus for the release of Mr. Huston.

The two cases are similar. They charge of misappropriation of funds in the payment of $90 to Robert Wallis from the traveling expense fund in payment for services as helper in the bacterioligical laboratory, and the payment of $37.50 to G. H. Harrison from the same fund for salary as deputy dairy, food and sanitary inspector.

Mr. Wallis is a former dairy, food and sanitary inspector, under indictment on several other charges; Mr Huston, the present state auditor, is also charged with his brother, in a suit charging the embezzlement of a book of scrip belonging to the state. The case was tried once and the jury disagreed.

Here is where the Farmers get their Christmas Money

USE THE FLEMING EGG PRESERVER

The Greatest Egg Preserver in the World

BAR NONE

By annointing the egg with the preserver, you can lay the eggs away in a common egg case, in a dry cellar, where they will keep for twelve months, as fresh as the day they were layed. You can poach, fry, boil or beat up the whites, just like a fresh layed egg. Do not sell your eggs for fifteen cents a dozen, but buy a jar of the egg preserver for ONE DOLLAR, containing four ounces which will preserve one hundred dozen eggs. You will get forty to fifty cents a dozen for them at Christmas time, just when you need Christmas money.

I guarantee it to keep the eggs and I also guarantee that the preserver contains no poison. A child can eat a 4-ounce jar of it and it will do no harm.

For sale by all Drug Stores.
