**Strayed or Stolen.**  
Notice is hereby given that a large number of cattle branded with a quarter circle seven on the right ribs, have strayed away or been stolen from the herd. Any person informing the undersigned as to the whereabouts of any of these cattle will be suitably rewarded.  
WILD HORSE RANCH CO.  
Address: Parker, Idaho.

**It looks as if a man's back is the center of strength when he is straining to lift or haul a heavy weight. But the center of strength is not the back, but the stomach. There's no strength in the back of a giant if he's starving. All strength is made from food, and food can only be converted into strength when it is perfectly digested and assimilated. When the stomach is diseased, the nutrition of food is lost and physical weakness follows.**

**Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It makes men strong and muscular, by enabling the perfect digestion and assimilation of the food eaten.**

"I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Esq., of 13 Eastern Av., Toronto, Ontario. "I tried a number of remedies without success. It was so far gone that I could not bear any solid food on my stomach; felt melancholy and depressed. Could not sleep nor work. A friend recommended your 'Golden Medical Discovery.' I have taken three bottles and it has accomplished a permanent cure."

The Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

**REPORTED FAVORABLY.**

**C. C. Moore's Reform School Bill Will Pass the Senate.**

**Senator Heath Defends Measure.**

On Tuesday of this week the senate in committee of the whole reported favorable on house bill No. 29 by C. C. Moore, establishing a reform school in Fremont county.

A Statesman reporter says Senator Heath made the best speech of the session in support of the bill.

Wallis' editorial which appears elsewhere in this issue was read by Senator Caton and used as evidence that many in Fremont county were not in favor of the reform school being located within its borders.

Senator Heath promptly stated that Wallis had declared himself in favor of the reform bill. Senator Crum accused the editor of the Journal of insincerity.

No vote was taken by the committee but having reported favorable upon the measure there is but little doubt in regards to its passage by the senate. The enemies of the bill are working hard against it and using the Journal as a weapon with which to whip us.

**National Specialism In Medical Science.**

Almost every community has some one physician who has had remarkable success in the treatment of certain diseases. Other doctors envy him and sometimes malign him. But he doesn't give the other doctors the secret of his cures. He worked to win that secret. Its discovery demanded time, thought and brains. He keeps the secret he won, goes on curing these special diseases and presently develops into a specialist. People come at last thousands of miles to be treated by him and to take the medicine which has cured so many others of a similar disease.

But people to come thousands of miles must be rich, and the number of patients who can be personally treated must be limited. Let us suppose that he says: "If I treat only the few who are near me or can afford to come to me and pay large fees, I can reach but few people. There must be thousands of whom those other doctors can't cure because they haven't my secret and because they can't reach me, and in many cases don't know me. Why not go out to the people instead of their coming to me? Why not give my medicine to the many at a small cost rather than to the few at fat fees? Why not put up my successful preparations, place them in every drug store within reach of the sick, and tell the people through the newspapers what this medicine will do?"

That is the thought that came to Dr. R. V. Pierce, of Buffalo, N. Y. He had succeeded with two prescriptions in a remarkable way. He came to the place where the call for his services along the line of the cures he effected compelled him to become a specialist. He could not give time to the treatment of other forms of disease which many another physician could cure as well as he. He was compelled to specialize his work along the lines of his success. Now the question came, shall I be a narrow specialist or a broad one? Shall I be a local specialist or a national specialist? Shall I take the few fat fees and know that there are thousands who can't pay me or reach my treatment, or shall I put up this medicine, send it all over the country and sell it at a price within the reach of all?

Dr. Pierce decided to be a national specialist, to accept for his put-up prescriptions the odious title of "patent medicines" and trust to their successful cures to vindicate his action.

How thorough this vindication has been is witnessed by thousands and hundreds of thousands of healthy men and women who owe health and even life to Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and Dr. Pierce's Favorite Prescription, which cures womanly diseases.

Modern conditions demand that we do not class medicines like Dr. Pierce's with the "patents" of the past, but call them in proper terms, put-up prescriptions.

**A Most Fatal Gift.**

Would he the power of foreseeing events. This would destroy hope. A knowledge of the future would unmake happiness. There are, of course, some things about the future we do know. If for instance, a lack of energy, ambition and loss of appetite shows itself we know it will be followed by serious complaints if not checked. Often liver and kidney trouble follow quickly. In any event Electric Bitters will restore you to health. It strengthens, builds up and invigorates rundown systems. Only 50c. Satisfaction guaranteed by Watson & Moore, Druggists.

**"A Picture No Artist Can Paint."**

Among the many scenic attractions along the line of the Rio Grande Railroad, which is the World's Scenic Route, is the Canyon of the Grand—which is as beautiful in winter as in summer, and of which Nature's most ardent admirer, Cy Warman, has said: "God was good to make the mountains, the valleys and the hills. Put the rose upon the cactus, the ripple on the rills; But if I had all the words of all the worlds at my command, I couldn't paint a picture of the Canyon of the Grand."

You can get tickets via this line as cheap as via any line. Write for rates, folders, etc. G. W. FITZGERALD, General Agent, Butte, Mont.

**Parker.**

L. B. Rice & Sons' store with its entire contents were burned down Monday night. The theory is that the fire was caused by an explosion of the stove. Mr. Rice, just previous to leaving the store, put in some fine coal or slack to keep the room as warm as he could, so his eggs and fruit would not freeze, and it is thought that this slack exploded and forced the stove door open. The loss is between \$5,000 and \$6,000, insurance \$3,000. The store will be greatly missed, for this firm was always very accommodating.

Mr. W. M. Northrup of the Wild Rose Stock Company, has gone east for an indefinite time. He expects to sell his stock but retain his ranch property. Mr. F. W. Carter of Springville, Utah, has purchased the old school house property and is going to move his family here in the spring. Mr. Carter is a first class carpenter and builder.

Thomas Winegar, the six-year-old son of Gideon Winegar, died February 1st, of typhoid fever. Funeral services were held at the residence on the 3d and the remains were interred in the Parker cemetery.

Miss Lela Marler's two months' term of school closes on Friday, when she will leave for her home in Lewisville. Miss Marler leaves with the love and good wishes of her pupils and the people.

**Lorenzo.**

January 28, 1903.

The quarantine flag was taken down at Alma Olson's last week. On Sunday it was removed from Mr. Hillobrant's, and on Tuesday from E. N. Gilson's, leaving only George Johnson's family quarantined for small pox at the present time. If no new cases make their appearance we have good prospects of being entirely free from the disease in the near future.

School opened on Monday, having been closed since the middle of December on account of small pox.

The school trustees are negotiating for the land upon which to build our new school house.

Sheriff Harrop is at home from the county seat for a few days. He says business in his department of the county government is not very rushing.

Quite a number of people from here went up on the special to attend the theatre at Rexburg last Saturday evening. They say they could touch bottom in quite a few places up there.

Mayor John Anderson keeps several men at work on his ranch during the winter cutting cord wood.

John Krupp has built a new house on a piece of land recently purchased from John Morgan.

It is seldom that the large wind mill at the depot fails to keep up the supply of water in the tank, but such was the case recently, when the section foreman was obliged to put on an extra force of men to pump water for about a week. The rumors about the wind blowing all the time in this country are not true.

Andrew Christensen is building a new house on land purchased from John Anderson.

Sheriff Sam Harrop recently had the misfortune to lose eight or ten head of cattle, by reason of their going to drink

at a place where a hole had been cut in the ice by parties putting up ice. In crowding to get to the water a number were forced in and drowned before they could be gotten out. The loss was about \$300.

Mr. Wm. Brown who recently joined the U. S. Navy from here, has received two promotions since his enlistment. He is now a gunner on the flag ship New York at San Francisco and expects soon to go to Honolulu. He is making a record in marksmanship having scored seven bull's eyes in ten shots at two thousand yards in a recent practice.

**Honor Roll.**

Those who were neither absent nor tardy in room No. 3, for the month of January are as follows: Leda Winkler, Maren Harder, Given Williams, Alfred Brown, Chas. Heller, Mary Shelton, Ross Lewis, Morace Koon, Justice Williams, May Roche, Wm. Moore, Beatrice Paxson, Lola Lewis and Henry Ripplinger. Miss Kate Houghton, Teacher.

**Annual Rabbit Drive.**

The citizens of Market Lake will have their Annual Rabbit Drive on Saturday, February 14th, 1903. The Short Line has given reduced rates and there will be a free lunch and a ball in the evening. Everybody is invited. Take the little folks. Plenty of rabbits and a good time guaranteed—guns and dogs prohibited.

**Struck Water.**

Since the early location of settlers in and around Teton City, they have been unable to secure water by digging wells, and in winter time when the canals are frozen solid the people have been placed at a great disadvantage for water for culinary purposes. Monday morning John Thompson who has been drilling a well, struck a good strong vein of water at a depth of 109 feet. The water stands 10 feet deep in the well, and all Teton is rejoicing over the "strike."

**Under Quarantine.**

Quarantine Physician Blevins was down on Egin bench yesterday attending to some cases which he pronounced scarlet fever. Two families were placed under quarantine, those of Gideon Winegar and Mr. Mason.

**Notice of Teachers' Examination.**

The next quarterly examination of teachers for first, second and third grade certificates will be held in the court house, beginning at 9 a. m., Thursday, February 26, 1903, and continuing three days. Applicants not admitted after the opening session except by special permission of the examiner. Questions in school law will be taken from Chapter 31 and in state constitution from Article 18.

GRACE M. TAYLOR,  
Supt. of Public Instruction,  
Fremont County.

A big reduction on all our ladies' silk and wool waists.  
The Ternes Furnishing Store.

**Forged Checks.**

Henry Miller, a young man who has been learning the harness maker's trade at the St. Anthony Harness company, left last Sunday for Idaho Falls. Since his departure it has been discovered that he forged the name of the St. Anthony Harness company to four checks, one for \$5.15 and the other three for \$5 each. The actions of the young man cannot be explained from the fact that he comes from a good family and has had the esteem and respect of those who knew him.

**Leave for Mexico.**

Geo. Youmans, wife and baby will leave Monday for Ocotlan, Jal. Mexico, where he will engage in the railroad business. The many friends of Mr. and Mrs. Youmans will regret their departure and the St. Anthony band will lose one of its best members. We hope that they will meet with good fortune in their new home in Old Mexico.

**Has Smallpox.**

Mr. Salusberry, who drives the Marysville stage, is confined at his home in Marysville with a severe case of smallpox. He called on Dr. Blevins the first of the week to ascertain what was the matter with him, and the doctor was somewhat alarmed upon finding Mr. Salusberry broken out in good shape with smallpox. The doctor ordered him home to bed, and notified Quarantine Physician Hyde, whose district Mr. Salusberry lives in.

**Tragedy Averted.**

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a bad cough had set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for consumption and our darling was saved. He's now sound, and well. Everybody ought to know it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Watson & Moore, Druggists. Price 50c and \$1.00. Trial bottles free.

**A Mother's Recommendation.**

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have used in my family. I have no words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and quick healing liniment for cuts, bruises and burns. For sale by all druggists.

**For Sale.**

169 acres desert claim near Black Springs with 32 shares water stock in farmers ditch. Ditches are made so land can be proved upon. Price for one week \$150. Inquire C. Hoagland, South St. Anthony.
