### MAY POINT WITH PRIDE.

President Roosevelt's reply to the notification committee was a plea to "stand pat." It was a moderate, sensible talk, pointing out what the Republican party has done in the past seven years and asking for its continuance in power on the ground of its record. The party's strong hold on the nation is due to the fact that it does things; and the President is able to urge what it has accomplished on the currency, the Tariff, the trusts, Cuba, the Isthmian canal and the Philippines as a reason why it should retain the confidence of the country. This record is one to which the party may properly point with pride, as the President does, and to offset it in the minds of the people is the difficult task before the Democratic party. That this may be done is the hope of some of its members, but even the most enthusiastic must admit that it is an arduous undertaking.—Ex.

### WONT HAVE NOMINATION.

W. H. Stufflebeam who was nominated by the Democrats at their Lewiston convention for State Auditor, has declined to accept the nomination and has notified Chairman Jackson of the Democratic State Central Committee of his declination. When the rest of the nominees get through declining there won't be a corporals guard left on the Democratic State ticket.

The course of study offered by the Ricks Academy of Rexburg has been published a copy of which is on our editorial desk. Aside from the regular college courses the Academy teaches many of the trades arts, and sciences are ably taught by some of the most learned professors of the west. This is one of the institutions the state and county should be proud of, as it is without doubt one of the best schools in the state.

The principle of Protection is so well established that the Democrats themselves are not likely to assail it openly. They will doubtless declare merely for Tariff revision. The Republicans may well meet this by pointing out the mischief of dragging back into politics a business question merely to serve as a convenient rallying cry for an office-hungry crowd of politicians.—Buffalo "Express."

The Moscow Mirror says: Since the adjournment of the recent state convention we have heard it remarked several times by Democrats and sometimes by Republicans that South Idaho did not "deal fairly by North Idaho;" that the delegates came here with a slate fixed practically ignoring the northern five counties and, furthermore, that they have always done the same thing. There always has been and always will be political agitators and dissenters and it must be reasonable to expect that our Democratic opponents will say and do all they can to prejudice the public mind against the action of both state and national Republican conventions, thereby hoping to recruit the depleted ranks of their party. But those who are Republicans, those who believe in the principles of the Republican party, who believe that the state of Idaho can be better and more wisely served by a Republican administration, believe that our nominees for President and Vice President should be elected, would do well to pause and consider whether their statements are true. In the moment of passion or disappointment any of us might say or do things we would afterwards regret. The more injury our thoughtless words have caused the more deeply we would be pained, and, judging the future by the past, what greater injury could we do the state of Idaho than by turning it over to Democratic management, provided such a thing were possible.

We must be fair and honorable toward our neighbors in the south, as well as in the north, if we would be successful in the future as we have been in the past. The northern, or panhandle, counties consist of Shoshone, Kootenai, Latah, Nez Perce and Idaho counties—five in all. While in the entire state there are twenty-one counties, therefore what is called "South Idaho" has one more than three times as many counties as we in the north. The recent state convention was called to nominate the following: One member of the Supreme Court, one Congressman, one Governor, one Lieutenant-Governor, one Secretary of State, one Treasurer, one Auditor, one Superintendent of Schools, one State Mine Inspector and three Presidential Electors, or thirteen in all, to be appointed among twenty-one counties. Our proportion, therefore, would be as follows: As twenty-one is to five so is thirteen to the number we would be mathematically entitled to, being 32-21, for which were nominated one candidate for Congress, one Elector and one member of the State Board of Equalization, or State Auditor, besides we have from Shoshone county a United States Senator, W. B. Heyburn, and from Idaho county, a member of the Supreme court, Judge Ailshie.

Of the state institutions created since our admission, the University, with its School of Agriculture and Science, School of Mines and Experiment Farm, is the most important of all. Next in importance is the Lewiston Normal School, all of which have been conceded us by our Southern brethren. The U. S. Court is also a concession to us, coming as it did through the efforts of a Latah Senator and Congressman who could not have been elected without the loyal support of South Idaho.

The convention of representative men, which recently assembled here to nominate a Republican ticket, and the other convention in Lewiston, assembled to nominate a Democratic ticket, both prove to the world that Idaho is a great state peopled by a progressive people knowing no North or no South, no dividing line in either state or nation, but all pulling together for the common good. Therefore, believing as we do that our people in North Idaho are a fair-minded and just people, we beg leave to suggest that nothing more be said about the mythical unfairness of the South. The nominating convention completed its labors and adjourned. Some were disappointed as must always be the case, but

the convention did its duty as God gave it light and under His guidance we feel assured of the election of the entire ticket.

A victory for Parker in 1904 would bring calamity quicker than it came in the Cleveland case, for Parker lacks Cleveland's ability, independence and sanity on the money issue, and he shares Cleveland's errors on the Tariff.—St. Louis "Globe-Democrat."

### LOVE DIES.

Mrs. Ella Wheeler Wilcox says there comes a time in the course of married love when "the thrill goes out of the hand-clasp and the kiss at times, and it is then that husband and wife may be susceptible to other magnetic personalities." The reason for this condition of affairs is often the fault of the husband, but how often is it not due to the wife's nervousness and irritability due to some trouble with the organs peculiarly feminine—the wife under such circumstances feels languid and spiritless—she suffers perhaps from headache and sleeplessness.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Protrusion or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

A great deal of sickness may be saved by keeping on hand a copy of Dr. Pierce's thousand-page illustrated book, "The Common Sense Medical Adviser." Sent free, paper-bound, for twenty-one one-cent stamps, to pay cost of mailing only; or cloth-bound for thirty-one stamps. Address: World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

Constipation and a bilious attack go hand-in-hand. Dr. Pierce's Pleasant Pellets are a sure and speedy cure for both. They are sugar-coated granules. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe. Nothing else is "just as good."

### Republican County Convention.
