## Sunday Fire.

Sunday about noon fire destroyed the Taxidermy building on the South side belonging to Fred W. Rising. The building was occupied by Mr. H. H. Mowray, who conducted a second-hand store. His loss is total having no insurance, and will aggregate about \$1,200. The rear of the building was occupied by Jas. Elliott and family as living rooms. They lost all their household goods and personal effects, escaping with only the clothing upon their backs. The volunteer fire department responded promptly, but the fire was almost beyond control before it was discovered. However, the department saved the adjoining building which is a frame livery stable belonging to Mr. Jas. Elliott. We are informed that Mr. Rising has \$500 insurance on his building. He is in Jackson's Hole with a hunting party and probably does not yet know of his loss, which will be about \$600 as the insurance is a little less than half the value of the building.

The fire is supposed to have originated through some careless person throwing down a match or cigarette while amusing themselves watching a tame bear, which was chained by the side of the building. This seems to be the most probable theory as the fire broke out under the living apartments of Mr. Elliott. The wind was blowing very strong from the south or it would have taken the livery stable in spite of all that could have been done.

## Emergency Medicines.

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity is Chamberlain's Pain Balm.

By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by all druggists.

## FOR SALE.

240 acres, 75 in cultivation, good water right, proved up on, 200 acres of tillable land. 9 head of cattle, 3 head horses, hogs and all farming machinery, fair building. Enquire at the Peak office.

## Burton L. French Opens Campaign.

Hon. Burton L. French opened the campaign in Fremont county last Monday evening. The attendance was not large owing to the fact that sufficient time was not allowed for advertising. Those who were present speak in highest praise of Mr. French's talk. He is one of the ablest speakers in the state and puts his arguments before the people in an impressive and honest way that interests the hearer from the beginning to the end. Mr. French's speech brought the Cleveland times before the audience in an easy way that renewed the picture of men out of employment, through the free trade policy of the Democratic party.

## How?

How could our government have paid \$50,000,000 out of its current cash for the Panama Canal if it had not been for the revenue producing power of the Dingley Protective Tariff?

How would we have been able to donate \$5,000,000 to the Louisiana Purchase Exposition if it had not been for the revenue producing of the Dingley Protective Tariff?

How could we add nearly \$3,400,000 more to the pensions we pay the brave defenders of our Union and our country this fiscal year without the increased revenue which the Dingley Protective Tariff is affording us?

How could we give out contract after contract for the battleships we need to protect our commerce if we were not sure that the Dingley Protective Tariff can be relied on for the money to protect those contracts as they mature?

How could our Government have undertaken, as it has, the vast schemes of Southwestern irrigation, by which millions of waste acres will be made productive, unless it was backed by the cash productive power of the Dingley Protective Tariff?

How could we meet the properly increased expense of conducting our national business without selling bonds (as in Democratic days) if we abolished or seriously mutilated the Dingley Protective Tariff?

How could our 81,000,000 people pay for their yearly per capita consumption of 6.33 bushels of wheat and wheat flour (against 3.95 bushels per capita by 62,000,000 people in 1890) if they were not earning larger wages under the Dingley Protective Tariff?

How could we have spent \$360,000,000 on our Philippines investment without adding more than \$480,000,000 to our interest-bearing debt unless our people had been able to so easily pay the now cancelled war tax by their prosperity under the Dingley Protective Tariff?

How could our national financial position have been bettered, as it has, by \$1,061,000,000 since July 1, 1897, compared with the Democratic fiscal year, July 1, 1893, to July 1, 1897, had it not been for the revenue producing and business energizing influence of the Dingley Protective Tariff?

How could we protect our wage-earners against the pauper-paid labor of Europe and Asia without the protecting power of the Dingley Protective Tariff?

How can we in November next except by voting for Roosevelt and Fairbanks and the entire Republican ticket in every city, town, and hamlet in our country protect the Dingley Protective Tariff, which is so completely protecting us?

Walter J. Ballard.

## Lewis and Clark Exposition Coins.

The first \$25,000 in gold souvenir dollars for the Lewis & Clark exposition has been received by the First National bank of Portland from the government mint at Philadelphia. The coins are a trifle smaller than a dime. Each coin is inscribed on one side with the legend, "Lewis & Clark Exposition," while on the other side appears the words, "United States—One Dollar." The installment just received is the first issuance of the \$250,000 gold coin appropriation allowed by the government in accordance with the terms of the Lewis and Clark exposition bill. Each coin will be sold for \$2 and to the purchaser of five an additional one will be given. The exposition management is confident of a large sale of the unusual souvenirs.

Just arrived a large stock of fine shoes for men and boys. Special sale on shoes for one week only. St. Anthony Shoe Store.

Jesse Secrist of St. Anthony has purchased Frank Oviatt's place for a saloon. The people are very much opposed to having a saloon here, and Mr. Secrist understands it but is determined to make the start. The people of Parker will use every legitimate means in their power to prevent it.

## PLANO.

Plano is flourishing. The farmers have fine crops this year, the grain is turning out splendid, also the second crop of lucern. The frost has not hurt the grain to speak of and lots of the people are enjoying their own raising of melons and tomatoes. Our population is increasing also.

Born to Mr. and Mrs. Clark Jackson, Sept. 18, a fine baby girl, Dr. Rich from Rexburg attending the case. Mother and baby are getting along fine.

Born—To Mr. and Mrs. Harry Roson on Sept. 19, a fine girl, Mrs. Waltz of Rexburg attending. Mother and baby are doing fine.

Plano is patronizing the Ricks academy in dead earnest this year. There are five young ladies who are attending already and the prospects are that four or five more will go soon.
