Dr. Flodquist:—

Dear Friend:

After looking over the calendar, I find it has been something over a year since you gave me treatments for appendicitis, and I can truthfully say I have never had the slightest attack of it since, and thanking you a thousand times for what you did for me.

I remain as ever,

(Signed)

The farmers of Lower Presto say

You'll enjoy the sport of rolling 'em with P. A.!

FIRST thing you do next—go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

Prince Albert is sold in tippy red bags, tidy red tins, hand-some pound and half pound tin humidors and in the pound crystal glass humidor with sponge moistener top.
