FORMER RECTOR DIES IN BATTLE

John Addams Linn, at One Time in Charge of Local Church, is Killed.

John Addams Linn, son of Rev. John M. Linn, 7781 Marshfield av., Chicago, brother of Prof. Weber Linn of the University of Chicago and nephew of Jane Addams of Hull house, was killed in action in France on Oct. 8. Mr. Linn is well known in Mishawaka, having at one time been pastor of St. Paul's Episcopal church. He left here a little over 10 years ago, being succeeded by Rev. L. C. Rogers, the present incumbent. From Mishawaka, where he spent six years, he went to the Episcopal school at Howe, Ind., and from there to Trinity school, New York.

At the age of 46 he enlisted as a Y. M. C. A. secretary. Work behind the lines in the butments, though exciting enough at times, was not the kind suited to him, as testified by Rev. C. W. Titus of Mishawaka, who worked alongside of him at the front in France. Mr. Titus told the News-Times Thursday that Mr. Linn and he were good friends and had taken many horseback rides together. He took many chances and was game to the limit, says the Mishawaka pastor. He was reported as missing at the battle of Soissons, July 18, but eventually

turned up. He was well liked by the soldiers. He was one of the few red triangle workers attached to a regiment and permitted to accompany the doughboys over the top and into No Man's land. It was on such an excursion that he met his death by shell fire. He had been in France for six months. While other "Y" men have been killed in France Mr. Linn is the first of the "fighting chaplains" to meet death.

His many friends in Mishawaka are shocked to hear of his death.

WRITES INTERESTING LETTER FROM FRANCE

Glen R. Jarrett, with the third balloon company in France, has written an interesting letter to his father, J. R. Jarrett. At the time of writing, Sept. 16, Pvt. Jarrett stated that he was sitting on the edge of a shell hole in a section which the Germans had held for four years.

There isn't a mountain which the enemy did not have well fortified. He also states that the French held the place for seven hours and lost 30,000 men; the British held it for five hours. Pershing's men blew the tops off of the hills and kept the sector. There are two towns close by which are nothing but heaps of rocks now. German dugouts are very common.

He says they had been working very hard and that was the first few days of rest they have had in over a month.

John Horvoth died at St. Joseph's hospital Thursday morning at 7:45 o'clock as the result of injuries sustained when struck by a westbound Grand Trunk passenger train Wednesday morning at 6:25 o'clock.

Mr. Horvoth resided with his daughter, Mrs. Frank Nemith, N. Merrifield rd. He left her home Wednesday morning at 6:10 o'clock for the Dodge Manufacturing Co., where he was employed. CAPTAIN CUTTLE FISH.

By Clinton Scollard of the Vigilantes. It was Captain Cuttle Fish sailed out From a port on the German shore, A brutal lout, with a swinish snout, And a heart of helibore "Mein Gott," said he, "now be with me!" This modern Captain Kidd: 'Twas the Devil he meant, and he planned, you see, To do as the Devil bid. "These fittle Yankee fools," he cried, "I will wreak on them grievous loss, Then I'll hit me back at the turn of the tide." For a waiting Iron Cross. So he slunk away from his base in the bay With his subtle, sneaking craft, And he found his prey on a summer day, And he battered it fore and aft. But, Captain Cuttle Fish, beware! Have a care for your precious bones, For the hour may come when you will share The locker of Davy Jones!

MILITARY POLICE BEHIND TRENCHES

This Officer Has Similar Duties to Those at Ordinary Street Corners.

WITH THE AMERICANS ON BRITISH FRONT IN FRANCE.

Sept. 12.—(Correspondence).—One of the interesting characters seen on the roads behind the line is the military policeman. He is stationed at every crossroads, regulating traffic with all the gestures of a professional traffic policeman in New York or Chicago, but in a khaki uniform and with a red brassard on his arm as the badge of his authority.

Everything from a gigantic motor truck to a sputtering motorcycle comes within his jurisdiction. The haughty staff car, with its proud staff flags and its red-capped passengers, is subject to the law as laid down by that firm arm in khaki.

It is a motley pageant that he marshals. There are big closed cars containing generals; there are great open cars filled with young staff officers of lesser rank, but alert, energetic and keen. There are evenly moving ambulances with the

doctor sitting calm beside the driver. There are huge lorries, long columns of them. All day long the rush of traffic on these great main roads continues. Towards night the roads are some times quieter, but there is still activity. All through the night the lorries plod on their way backward and forward, the cars dash by, the dispatch riders come and go. There is no rest. Layer after layer of white dust settles on the houses and the fences. Day after day the machinery behind the war goes whirring on, growing constantly more complex and more powerful.

HOLD IMPRESSIVE MILITARY REVIEW

WITH THE FRENCH ARMIES, Sept. 12.—(Correspondence).—One of the most impressive military reviews of the war took place recently when the various units of the French army, which swept the Germans back in the Champagne last July, presented forty-eight battle-flags to their commander, Gen. Gouraud, the one-armed hero of Gallipoli.

At a luncheon which followed 2300 officers and men, each wearing one or more of France's decorations for distinguished services were in attendance.

LONG BY NAME AND LONG BY NATURE

WIGGINS, Miss., Oct. 15.—"Longest" is no misnomer in the case of Prof. H. P. Longest, principal of the Magnolia consolidated school near here. Examining medical officers at Camp Shelby, where Prof. Longest arrived recently, found him to be six feet eight inches tall, the tallest man yet received at the camp.
