REVELATIONS OF A WIFE

WHY MR. GORDON SAID TO DICKY, "I CANNOT TELL YOU WHAT THIS MEANS TO ME." "Do not be alarmed—I am all right—only a momentary faintness. I assure you."

I knew that Dicky was as much relieved as I at our guest's return to self-command. That he was resentful as well as mystified at the singular behavior of Mr. Gordon I also gleaned from his darkened face and a little steely glint in his eyes.

"Your Mother's Name." He looked at me directly as if expecting an answer. "I am not easily alarmed," I returned, trying hard to keep out of my voice anything same an indifferently courteous which one would bestow upon a stranger...

"My Other Self." One of Mr. Gordon's hands was beneath the table; as he was sitting next to me I saw what no one else did—that the long, slender, sensitive fingers pressed themselves deeply, quivering into the palm at the affirmation of his question. But except for that momentary grip there was no evidence of excitement in his demeanor as he turned to me.

"Oh, yes," he said, "your mother as I have told you, was the dearest friend I ever had. And your father was my other self."

"No Family Ties." But if Mr. Gordon's infection meant anything it meant that even if he had been my father's "other self" my mother's desertion had aroused in him the same contempt.

GERMANS HAVE GREAT RESPECT FOR AMERICANS

Confidential Document Found Discloses Real Feeling Enemy Entertains for American Fighters They Opposed.

WITH THE BRITISH ARMY IN FRANCE, Oct. 21.—Just what the Germans think of American soldiers regarding the St. Mihiel operation is disclosed in a confidential document signed by the chief intelligence officer of the 19th German army which has been captured by Americans fighting on the British front.

The 25th, 35th and 15th are described as divisions never identified in battle but with some good experience in the line and the 35th as in reserve.

Discusses Details. The document then discusses the details of the operations, admitting that when the Americans reached Thiaucourt, the entire St. Mihiel salient was rendered untenable and therefore the evacuation was ordered and the retreat carried out accordingly.

A little further on the order, which was distributed generally throughout the German army and was considered of a confidential nature, has this to say of the American soldiers: "He obviously is very much afraid of being taken prisoner. He defends himself violently to the last against this danger and does not surrender. This seems to be the result of propaganda, picturing cruel treatment if he falls into German hands."

American is Expert. "The American is expert in handling machine guns, is firm on the defensive, and develops a strong power of resistance from his very numerous machine guns. The bearing of the infantry indicates slight military training. The artillery was at best as long as it remained at its original positions during preparation of the attack. The methods of fire were good. It was very quick in getting on opportune targets, this apparently being due to the lavish employment of technical devices. Within a minimum period the Americans were able to furnish a well directed fire."

Why Acid-Stomach Causes So Much Bad Health. Many people seem to think that acid-stomach—or superacidity—is of little importance; that it merely causes some slight trouble such as belching, heartburn, sour, gassy stomach, food-repeating, bloating, etc.

Try EATONIC and see how quickly it banishes the immediate effects of acid-stomach—bloating, heartburn, belching, food-repeating, indigestion, etc. Eat, too, how quickly your general health improves—how much more relish you take in eating—how much more easily your food is digested—how soundly you sleep—how nervousness and irritability disappear.
