INFLUENZA CASES SHOW DECREASE

Twenty-Six Reported to the Health Authorities Sunday—Abatement in Sight.

Twenty-six new cases of influenza were reported to the secretary of the health board Sunday. This number is considerably less than those reported the previous day, and it is thought by physicians that if proper precautions are taken against the disease the end of the present week should see it well eliminated. They state that the people themselves have the remedy in their own hands and should use every means available to carry out the

suggestions made by the medical men throughout the country. It was pointed to The News-Times Sunday that the eminent surgeon, Dr. Osler, formerly of the John Hopkins hospital, in an article on the subject in one of his medical books, states that it requires six weeks for the disease to run its course. However, this may be, local physicians are hopeful that the worst is over that from now on there should be an abatement of the disease.

NEWS-TIMES ADVT MORE THAN PULLS

Manager of Eberhart Farm Overwhelmed With Results—1,000 Respond.

If anyone has any doubt whatever of the pulling power of News-Times advertisements he should consult with H. N. Kemp, manager of the Eberhart farm, four miles east of Mishawaka, on Lincoln highway. In Sunday's Mishawaka pages Mr. Kemp inserted five "locals" which were distributed among the news. These set forth that help was wanted to pick 40 acres of potatoes. The wages offered were \$3 and a bushel of potatoes per day. In order to ascertain whether he had many inquiries the Mishawaka management of the News-Times called Mr. Kemp by telephone last evening. When asked for the number "Central" said the telephone was out of order, which she later qualified by stating Mr. Kemp had given instructions to give no further connections for the present. However, the operator was prevailed upon to connect up with the promise that this paper would stand for any scolding that was coming.

"Hello, Mr. Kemp, did your advertisement bring any results?" "Rush of Applicants." "Is this The News-Times man? Say, if I had one out to see me in reference to that advertisement I had 1,000! That's the God's truth! I had no idea so many people read your paper. They started coming before breakfast and the house is filled with them now. Every inter-urban car that passed this way today brought dozens or more, and the telephone—it rang incessantly from before breakfast until I was forced to tell 'Central' at four o'clock this afternoon to cut it out. Yes, I am certainly pleased and surprised at the results I got from that advertisement. I expect they nearly overwhelmed the entire Kemp household. A large number came out by automobile, while about a couple of hundred rode out on bicycles. Yes, I have all the men I need to pick my spuds for this year."

REWARD. I will pay \$300 for evidence leading to the arrest and conviction of party or parties who entered my residence on night of Oct. 18, and stole certain articles, and I will pay an additional \$200 for the recovery of the stolen articles. D. L. Davis, 1123 W. Second st. Adv.

YOUNGSTERS IN NUMEROUS THEFTS

Ages Range from Seven to 10—Arrested Late Sunday Night.

Wilbur Van Gunday, Lawrence Kanouse and John Van Gunday, aged seven, nine and 10 years respectively, were caught in the act of breaking into the Nile J. Lowman grocery, 548 N. Cedar st., by Chief Pfender and Officer Montine, Sunday night after 11 o'clock. The youngsters were brought to the station where it was found that they had broken into the Battell school and into the Schroeder's coal office before attempting to enter the Lowman store.

Lata Sunday evening a lady passing the Schroeder office noticed someone strike a match. She immediately notified Wm. Schroeder who reached the place in about five minutes, but the intruders had gone. The glass was found broken and one of the boys had evidently cut his hand there being blood on the door and floor. It was discovered that a Colt automatic revolver, a large knife and letter opener had been taken. A number of small buttons of the children's health crusade and junior red cross were found on the floor.

The youngsters entered the Battell school and stole a number of articles consisting of knives, paper weights, several boxes of penpoints; rubber bands, small mirrors and numerous other things. When searched at the police station they had a ladies' set ring in their possession.

MY! BUT HOW HE LOVES OYSTERS

(CONTINUED FROM PAGE ONE)

need a tonic to help me eat. It just sort of comes natural. Nose Like Rubber. "I used to box a lot in the ring and on the stage and I was a buck and wing dancer and baritone singer in vaudeville, too. "I fought at 152 pounds. Had the bones in both hands pretty well broken and haven't got any bones in my nose, either."

Hereupon the buster gave ocular evidence by twisting his nose about as though it were rubber. He went on: "Been wounded twice and gassed, but I'm still on deck. Our fellows have been giving Fritz hell back there. It's nothing to what we are going to give them. Would Give Knockout. "When the fellows saw Germany's peace offer they sure did knock. Every damned one of them is eager to give Fritz a knockout before peace comes."

"Thought I was done for in the last scrimmage we were in. My but those machine gun pills certainly did whistle close to my head."

Someone asked Smith if he was going to settle down in France after the war. "Nothing doing," he replied. "I want to stick as long as there is any fighting. And then, as the darkey said, 'The only cross I want is the one with letter A in front of it.' I got the Atlantic ocean tagged."

Hinton was a demonstrator for his father before he enlisted in the regulars. "I drove officers' cars and was a motorcycle dispatch rider," said Hinton. "Believe me, there is plenty of excitement at times. I like the artillery best. It certainly makes one's heart feel good to see the Yankee gunners work. They have opened the eyes of the French. Every body peels off his shirt and they go at it laughing and joshing and cussing. They don't fear anything and their one wish is to knock hell out of the boche. They never have time to think of anything else."

"When you see the doughboys shove out it makes you glad you are an American with two eyes and two arms to help."

Let Your Business be NOTED For Something!

No matter WHAT your line, make your place STAND OUT and be seen of men!

Set a shrub in the ground, in a perfunctory way, and leave it there to live or die, and it may grow—but it will grow faster if you feed it.

Start up in business, indifferently attend to the wants and needs of your customers, and if you rise in the scale at all you will surely rise faster if you set out to make yourself SHINE by the pleasing quality of your service.

Let a number of bands be playing in the park on a field day—each band will attract listeners, but if there's an extra good band in the park, gradually the extra good band will get the crowd.

Most average humans—the rank and file of the community—by nature are tractable as a pet colt. Sugar them up now and then, deal with them justly and pleasantly, and they'll follow you all over the lot.

Give all comers FULL MEASURE and the SQUARE DEAL—beam benevolently upon all—high or low, rich or poor—and you'll do a growing business, no matter WHERE you happen to be located.

The honest hustler—who SERVES—can nail up his SIGN in an arid WASTE and an appreciative public will pass up nearer and showier places and make pilgrimages to his DOOR!

Advertise your business in The News-Times and let the soul of kindly SERVICE show through! You will wax strong with the years!
