

RED BLOODED MEN FIGHTERS

THEY RULE THE WORLD

Red blooded men are born leaders in every way of life and fight intelligently with both brain and muscles. They are always live wires, smiling and full of vigor; keen, alert on their toes and ready for anything that comes their way. Work is a pleasure and they land on top every time.

You will not find a strong successful man or woman trying to plug along with poor health or weak nerves. They know better, they are wise and see it that their blood has plenty of good fresh iron and their nerves at all times loaded with Phosphated Iron.

A leading doctor says, "Show me a strong, healthy successful man or woman and you can bank on it every time, their bodies are just loaded with Iron and Phosphates." Another prominent physician says, "There is no need of anyone going through life sickly, miserable, played out, fagged and nervous when Phosphated Iron will always put energy and vigor in the body, mind and nerves." This same doctor also said, "With the system loaded with Phosphated Iron you can fight life's battle at any stage of the game and be a winner at every turn."

Mr. Run Down man or woman in any stage of life, if you feel all in, your nerves are all shot, and life seems like one continual drag and draggery from day to day, get next to yourself, wake up, take a brace, lay in a supply of Phosphated Iron and take a new lease on life. You will once again feel like a live one and face the world with the smile that wins. Are you game?

To insure physicians and their patients receiving the genuine Phosphated Iron, it has been put up in capsules only, so do not allow dealers to give you tablets or pills. Insist on capsules.

BOLSHEVIK LET JOURNALISTS DIE

Fines, Imprisonment Along With Suppression Kill Russian Press.

LONDON, Nov. 7.—Newspaper men have suffered more than any other class of Russians from the bolshevik regime. They are the only ones absolutely unable to find employment and who are condemned by the bolsheviki to literal starvation.

From the very first day the bolsheviki assumed control of the country fines, imprisonment, and suppression of papers were more frequent than even in the worst periods of the emperor's rule. The fines imposed by the bolsheviki commissars were incomparably heavier than in the old days, when 2,000 rubles was the maximum amount. They fined papers 20,000 rubles for publishing war news without permission, and one Moscow paper was fined 30,000 rubles for the same offense. For spreading "provocative rumors," in Moscow alone, in one day, four newspapers were suppressed, five were heavily fined and ten were indicted for "reports tending to discredit the government."

The publishers could not stand the heavy drain of constant fines, the editors dreaded the prospect of a more or less protracted stay in prison, and the reporters were afraid to write anything reflecting upon bolshevik methods, as that might be construed in attempt to discredit the government. A newspaper acquaintance of the writer, a member of the staff of a most progressive daily, after having been twice imprisoned and his paper made to pay a fine of 10,000 rubles for an offensive article, confessed that he was at a loss what to do, how to write.

Whenever public dissatisfaction became pronounced the government suppressed all non-bolshevik "bourgeois" publications. This example of bolshevik statemanship was emulated by the Petrograd and other sovietists that the Russian press entirely ceased to exist.

Starting the official Izvestia the Police Gazette, as some workmen call it—published by every local soviet, and the organs of the bolshevik and left social-revolutionary parties, not a single newspaper is published in soviet Russia at present. All those who made a living by writing for the press now find themselves in dire straits and face poverty and starvation if unwilling to change their political faith and join the ranks of bolshevik journalism.

THE SORE THROAT OF SPANISH INFLUENZA

One of the frequent complications of Spanish influenza is sore throat. It is important the sore throat be given prompt attention and relieved.

The throat is the gateway to the body. The air we breathe, the food we eat and the water we drink all pass through it. It is the great breeding ground for germs and this is especially true when it is sore or inflamed. If it is kept clean, disease germs have small chance to propagate and do their deadly work.

Authorities agree Spanish influenza is a germ disease and that preventive measures should be taken. They advise the use of an effective gargle to keep the throat clean and healthy. For this purpose, Tonsiline, The National Sore Throat Remedy, is ideal. It is also used as a spray when taken pure.

The wonderful increase in the sale of Tonsiline during the last few weeks shows that many thousands of families are making extra use of Tonsiline during this epidemic to quickly relieve the often accompanying sore throat and as a preventive measure.

Don't wait until you have influenza and sore throats in the house but get your bottle of Tonsiline from your druggist now for use as a preventive gargle and also to be ready to relieve sore throat upon its first appearance.

For more than 25 years the sale of Tonsiline has steadily and rapidly increased. The favor shown it by American people gives it the right to the title, The National Sore Throat Remedy.

GUN DUEL CONTINUES FOR SEVERAL DAYS

WITH THE AMERICAN ARMY ON THE SEDAN FRONT, NOV. 7.—American and German big caliber guns recently had a duel on this sector and the Americans apparently came out on top.

About the time the American big guns began operations against the enemy communication lines, the Germans started shelling Verdun and the region north and northwest with a naval weapon of large caliber. The Americans immediately began calculations to determine the position of the enemy gun and finally decided they had found its location. The battle of the big guns began. It continued day and night for several days.

Suddenly one afternoon the German big gun ceased firing and nothing has been heard from it since. The American gunners do not claim a direct hit, but they do claim that the German battery was compelled to withdraw even if the heavy gun was not damaged.

INDIANA COAL MINES SET PRODUCTION RECORD

TERRE HAUTE, Ind., Nov. 7.—Indiana coal mines set a record for production in October by hoisting 3,037,751 tons. According to reports today of the district fuel administration this is the first month that has shown a production in excess of 3,000,000 tons. October deliveries were more than 200,000 tons in excess of any previous month. If the fate is continued the production for the year will exceed 36,000,000 or 6,000,000 tons more than the operators predicted last March.

IOWA GOVERNOR IS REELECTED BY 12,000

DES MOINES, Nov. 7.—Gov. Will Harding, republican, was reelected yesterday in one of the closest gubernatorial contests in Iowa in recent years. He defeated Claude R. Porter, democrat, by approximately 12,000 votes. Republicans triumphed in all important contests, retaining U. S. Sen. Kenyon and choosing all 11 congressmen, a net gain of one.

SNUBBING THE MEN FROM YOUR HUSBAND'S OFFICE.

The way some wives treat the men and women associated with their husbands in a business way makes that husband's workaday life far from pleasant.

Without a direct intention to punish the man the snobby uprightness of these particular wives starts a feeling against him, and wife is responsible.

But why be discourteous to those engaged in the same line of work as the head of the house?

"Head of the house"—you resent that for all women, do you, Mrs. Reader? You resent your husband being called head, yet you conduct yourself in such a way that if you have been considered equally the head of the house, your husband needs another partner.

That is what you were supposed to be—a partner—when you two were married—equal partners, both. Then don't handicap the truest partner you will ever have.

Look at the matter from George's standpoint.

He is working for your support and comfort as well as his own. Keep him in condition to work; do all you can to keep him popular with those with whom he works.

If the truth were known, the one you snubbed may be more valuable to the firm than your husband.

DANGER AFTER SPANISH INFLUENZA OR GRIPPE

How it Can Be Avoided and Treated. Simple Rules to Be Followed. No Occasion for Panic

No need of anyone being afraid of the after effects and slow recovery from Spanish influenza, hard colds or Grippe, if they will use common sense and start in building up their health and strength the right way.

The main thing is to get the blood rich, red, and pure, so it can carry life-giving oxygen and strength to every part of the body. Impure blood is the cause of so many slow recoveries and set-backs.

Doctors say: "Get the blood right and the rest is easy, that nine-tenths of all sickness is due to lack of iron and phosphates; the healthy strong, vigorous man or woman's blood is always loaded with these two life-giving elements."

Physicians also claim with fresh air and nourishing food nothing equals Phosphated Iron as a blood tonic and health builder. Phosphated

Goshen News

GOSHEN, Nov. 7.—Pvt. William A. Reed, 30 of Post, United States Infantry, was killed in action in France October 4th, according to a war department message received Wednesday morning by Mrs. Vera Reed, wife of the deceased, who is residing at the home of her sister, Mrs. Walter Oster, four and one-fourth miles southwest of Wakarusa.

The new bungalow belonging to Alpha Culp of New Paris and located on East Main street, burned to the ground Thursday evening at 7 o'clock causing a heavy loss, as only a few household articles were saved. It is thought that the fire was caused by defective wiring.

Martin Fisher who had only recently recovered from an attack of influenza, fell over a board enroute to the fire and broke his ankle.

Gerald Bessemer, 26, died at 11 o'clock this morning at the home of his parents, Mr. and Mrs. Clifford Bessemer, 203 Wilkinson street, after an illness of one week of influenza and pneumonia. Mr. Bessemer had been employed on the New York Central railroad telegraph construction force at Ashabula and upon becoming ill returned to Goshen. Surviving are his parents and one sister, Gladys.

REMEMBER FIRST U. S. TROOPS TO FALL WHILE FIGHTING FOR LIBERTY

NANCY, Nov. 7.—The memory of the three first American soldiers to fall in France under the American flag was honored today.

The towns in the department of Meurthe-Moselle, erected a monument in the village of Balemont, but the heavy bombardment the village still is undergoing leaves it still evacuated. The military authorities were unwilling to allow any procession or gathering at the monument so it was a small party, consisting of Leon Mirman, prefect of the department, William G. Sharp, the American ambassador, M. Le Brun, minister of blockade, Gen. LeRoy Elling, representing Gen. Pershing and the mayor of Nancy, who inaugurated the shaft by placing flowers on it this morning.

A ceremony took place this afternoon in the city hall at Nancy at which speeches were made. This ceremony would have been held before the monument if the public had been allowed to visit Balemont.

IDAHO IS DEMOCRATIC.

BOISE, Idaho, Nov. 7.—With 71,000 votes counted of an estimated total of 95,000, Sen. John F. Nugent, democrat, leads Frank R. Gooding by 332 votes.
