"The Store That Always Makes Good"

HIGH SCHOOL NOTES

Who was it that said Chaucer lived about 1388 on the last exam?

The Junior English classes have begun the study of Shakespeare's "Julius Caesar."

Joseph Holzbauer has returned to his school studies after an illness of about a week.

Freshmen are reading some of Dickens' shorter works in their English classes.

The Juniors are still complaining about the three day English "exam" they had this week.

With the first snows of the season come the usual snow ball lectures by the Superintendent.

The Juniors have received their class pins and rings and are proudly showing them to their friends.

The school board has recently purchased some excellent History reference books for the H. S. study hall library.

Prof. C.E.Harris was absent from school during the first part of the week, but his classes are now reciting as usual.

Physics students are busily engaged in getting their laboratory manuals ready for inspection next week.

A number of us have received letters from the Faculty during the past week reminding us that school is not as much of a joke as we would make it.

Those much dreaded book reviews will be due before long. No one looks forward to the day with very much enthusiasm, but we will be rejoiced when this bugbear is out of the way.

Schnyler Nolan has been out of school the past week on account of a "black eye" he received in a recent basket ball game. The injury has proven very painful to him, but Schnyler expects to be with us again this week.

The girls' class basket ball teams are now practicing nearly every day, they taking turns in using the Armory. The various coaches were announced in our issue of about a week ago. The work is going along very finely and the girls are getting a great deal of pleasure out of it, to say nothing of the splendid exercise the game affords them.

United Brethren Church at Tynar.

Everyone is eagerly and expectantly looking forward to the short Thanksgiving vacation and especially to the game with Bremen scheduled for next Wednesday night. There may be an informal dance after the game as there was when Culver played here.

James Bowlby of Warsaw, formerly manager of Bosworth's Shoe Department was in the city Thursday and visited the High school. He is now traveling for the Quayle Co.

of Chicago, and showed a fine line of samples of commencement invitations, class pins, etc. The Seniors are interested in the subject of invitations and will probably place their order with Mr. Bowlby upon his return to Plymouth next Tuesday.

The American history class is still holding almost daily rehearsals for Miss Grant's Senior vanderbilt. Knight Houghton, the leader of the would-be "clowns" has recently

brought a very large, red bandanna to class which he delights in flourishing around, much to the merriment of the rest of the class, with the exception of "Montana Dick" Cressner, who is generally too tired and sleepy to notice such trivial affairs.

A Burglar's Awful Deed.

may not paralyze a home so completely as a mother's long illness. But Dr. King's New Life Pills are a splendid remedy for women. "They gave me wonderful benefit in constipation and female trouble," wrote Mrs. M. C. Dunlap of Leadhill, Tenn. If ailing, try them. 25c at Fred Wenzler.

FRIDAY LOCALS.

James Beatty who formerly run the Monarch Iron Works, was in Plymouth today, and returned to his work in Warsaw, where he has charge of a large foundry.

The north Center street sewer is finished and this afternoon was flushed, and pronounced all right, and the report will be made for acceptance at the next meeting of the City Council. Contractor Ness has had bad weather to contend with, and is now very thankful he is through

all but getting his pay for the work. Mr. and Mrs. Erwin, living south of town, were Chicago visitors last evening.

Miss Marie Klupp of Cincinnati, Ohio, who attended the funeral of Louis Emenaker, returned home today.

Mr. and Mrs. A. P. Johnson and children returned from a trip to South Bend, and went to their home in Donaldson.

Rudolph Shakes is equipping his office well. He has purchased a fine library of books that belonged to the late Judge Beeman of Knox, and will be at home to his friends in his new office over Wenzler's drug store.

L. J. Girton has purchased two lots adjacent to his other possession, and seem to want it understood that he is about to become a regular buyer of real estate. After he gets all that lays next to him, wonder what else he will want.

Rev. L. W. Love and wife of Tynar are in Plymouth today. The Reverend gentleman is doing a great work in Tynar with the United Brethren church. He has lifted it out of the circuit with other churches, into an independent charge, and

has a large Sunday school in connection that is only second to the Methodist school in Plymouth.

Peter Disher left Thursday evening for Williams, Minn., where he will stay till next June. He has large lumber interests there, and the cutting of timber will begin soon. No sawing will be done till spring, as the logs must be got out first, while the weather is cold and the ground hard.

Mrs. Julia E. Work of the Children's Home north of town, has a new Waverly Electric car. This car is said to be more easily managed and cared for than the car she has been running, and certainly it does glide along the ground with an ease and grace that speak well for it. Mrs. Work can run this car herself, as can her faithful companion, Miss Ruth Chadwick.

"I am pleased to recommend Chamberlain's Cough Remedy as the best thing I know of and safest remedy for coughs, colds, and bronchial trouble," writes Mrs. L. B. Arnold of Denver, Colo. "We have used it repeatedly and it has never failed to give relief." For sale by all dealers.

O'KEEFE'S COAL IS O.K.
