

LEGISLATIVE NOTES.

Healthy Sentiment in Favor of Woman's Suffrage Indicated in the House.

Complimentary Resolutions Regarding General M. D. Manson—The Senate Reconsiders its Resolution to Adjourn.

Representatives McClellan, of Porter, and Ely, of Adams, are both to bill to be presented at the sessions of the House.

Mr. Best yesterday introduced a joint resolution for an amendment to the Constitution, striking out the word "male," thus giving to women the right of suffrage.

The Senate yesterday reconsidered its action of the day before regarding the adjournment sine die on Monday next.

The House yesterday concurred in the Senate amendments to the bill prohibiting base ball playing on Sunday, and the bill only wants the Governor's signature to become law.

The Fee and Salary bill, substituted for the Meier bill by the committee, was called up in the House yesterday, and, after some discussion, was referred to a special committee with instructions to report on Monday.

A Representative stated yesterday that the House would have adopted the Senate resolution to adjourn sine die on Monday next, and as soon as that body discovered that the sentiment in favor of adjournment was so strong, the Senate's action was reconsidered.

The Governor has approved of the following bills: An act authorizing Boards of County Commissioners to make suitable appropriations from the County Treasury for the education of pauper children.

A committee was appointed to draft a plan for raising rates from interior points in the Middle States to the seaboard for the purpose of giving the lines in the middle pool territory an increased compensation.

A committee was appointed to consider the question of the demoralization of rates springing from competition of lines outside of the pools, and a resolution was passed to bring suit against the State of Indiana to quiet title to real estate in certain cases, prescribing the duties of the Attorney General and Prosecuting Attorneys in such cases.

Senator Johnson, of Tippecanoe, yesterday introduced resolutions expressing the desire of the General Assembly that General M. D. Manson shall be properly recognized by the administration.

Resolved, by the Senate of the State of Indiana, that the Government of the United States has many offices of honor and trust in which to reward distinguished services of individual citizens; be it

Resolved, that the Senate of the State of Indiana, the House of Representatives concurring, that His Excellency, President Cleveland, is hereby respectfully petitioned to confer upon the distinguished Lieutenant Governor, Mahlon M. Manson, an appointment worthy of his high character as a veteran soldier and a public man.

Resolved, that General Mahlon M. Manson, in the various positions that he has held as soldier and General in the field, as a legislator and State official, and as the President of the Senate, has given abundant evidence of his many sterling qualities of mind and character and he is eminently worthy of an honorable recognition by the General Government.

Resolved, that a certified copy of these resolutions, the free and voluntary expression of the unanimous sentiments of this General Assembly, be forwarded to His Excellency, the President of the United States, and that they be spread on the journals of the House of the Legislature.

THE RAILROADS.

It is generally conceded that if the trunk line pool is reorganized on a sound and paying basis Commissioner Fink will not resign.

Grain is at present being carried from this city to New York at sixteen cents per 100 pounds. On Monday the rate will be advanced to eighteen and a half cents.

A. B. Southard, formerly General Traffic Manager of the Louisville, New Albany and Chicago Road, has been appointed General Manager of the Queen and Crescent route, with headquarters at Louisville.

As was announced sometime ago, several miles of the new steel rails will be laid on the Belt, and improvements will be made in the road at certain points.

Tourist business promises to be much heavier this year than last, and there is every indication that the several watering places and pleasure resorts in Northern Indiana will present a very fine appearance throughout the summer.

Again that silly rumor that Boston capitalists were trying to dispose of their holdings in the Evansville and Terre Haute Road appears in an Eastern journal.

the manner in which it is being operated. This is a direct cut at President Mackay, who, as the Sentinel has often said, is one of the best railroad men in the State. The E. and T. H., the present management, is a paying road. Its business is constantly on the increase, and it is in equally as good physical condition as any other road of the same length in Indiana.

CHICAGO, April 2.—The committee of fifteen appointed yesterday at the meeting of the representatives of the principal railroads north of the Ohio River and between Buffalo and the Missouri River, to formulate a plan for an association for the maintenance of rates, met this evening, but as the three committees, also appointed yesterday, to draft plans for three pools for roads south of Peoria and of those west of the Mississippi River were not ready to report, the time for their work was extended to April 15.

The remainder of the forenoon session was devoted to a general discussion of the railway situation, and to a conference with the representatives of the leading lines running west and northwest from this city, the result of which was that they expressed their willingness to enter into a gross tonnage pool, which should include all freight carried, thereby taking in that which has heretofore been diverted to non pool roads. At the afternoon session J. H. Devereux, of the Bee Line, offered the following resolutions, which were adopted:

Whereas, the representatives of the railroads of the States of Ohio, Indiana, Pennsylvania and New York, as represented at this meeting, being moved by a deep sense of the responsibility attached to the public service in the direction of corporate trusts, and believing that the time has come when public criticism and public scrutiny should be especially invoked for a thorough consideration of the causes of financial losses which have attended the operation of railroad property to the end that rightful action and cooperation shall and may be secured in respect to the true relations, conditions and responsibilities as to the State and Nation therefore,

Resolved, That a committee be organized and appointed which may consist of seven or more skilled and experienced men, who shall carefully consider the existing laws governing and the practice obtaining in railroad construction and operation; that whatever changes, protection under the law is found to be reasonable, the same shall be set forth in a prefaced agreement, together with all facts of the situation; that this prepared, on or before the 4th day of July next the committee shall call a convention to meet at the city of Philadelphia, inviting thereto by special and particular notice the railroad commissioners of the several States, the transportation committees of Congress, including the Chief of the Bureau of Statistics, representatives of the commercial interests of the cities of Boston, New York, Philadelphia, Baltimore, Chicago, St. Louis, Cincinnati, and other Western cities between the Mississippi and the ocean, together with representatives of American manufacturers; that the facts as found by the committee, and their report and recommendations, shall be there considered and the results be given the widest publicity for information and action of the people.

Resolved, That this plan be recommended as the sense of this meeting to the Eastern road, and that if approved and accepted by them the trunk lines, which receive our co-operation, are respectfully urged to move in and direct the matter.

A committee was appointed to draft a plan for raising rates from interior points in the Middle States to the seaboard for the purpose of giving the lines in the middle pool territory an increased compensation.

A committee was appointed to consider the question of the demoralization of rates springing from competition of lines outside of the pools, and a resolution was passed to bring suit against the State of Indiana to quiet title to real estate in certain cases, prescribing the duties of the Attorney General and Prosecuting Attorneys in such cases; an act defining the Twelfth, Tenth and Forty-third Judicial Circuits; an act to amend Sections 1, 2, and 3 of an act entitled "An act to amend Sections 255, 256 and 257 of an act entitled an act concerning taxation; an act to legalize a deed heretofore made by Aquila Jones, as Treasurer of the State of Indiana, for certain lands therein described, situated in Randolph County, to William M. Lock; an act to prohibit forced contributions of money or property from employees by corporations or their officers; an act to amend Sections 1, 2, and 3 of an act entitled an act to create the Forty-third Judicial Circuit and to provide for holding terms of court in the Fourteenth Fifteenth and Forty-third Circuits, and other matters connected therewith.

COMENDING GENERAL MANSON. Senator Johnson, of Tippecanoe, yesterday introduced resolutions expressing the desire of the General Assembly that General M. D. Manson shall be properly recognized by the administration.

Resolved, by the Senate of the State of Indiana, that the Government of the United States has many offices of honor and trust in which to reward distinguished services of individual citizens; be it

Coming.

John B. Doris' new monster show, united with the great Inter-Ocean—twelve mammoth shows combined—which comprises triple circuses in three big separate rings, megatherian museum, deep-sea aquarium, elevated theater stage, and fifty-cage menagerie, will make its appearance at Indianapolis April 17 and 18.

This mighty aggregation is universally proclaimed the grandest tented exhibition in existence, and is familiarly besides reputedly known throughout the entire country; and Mr. Doris, by his able management and millions of money, has paced before the public an honorable, straightforward show. Truly fulfilling every advertised promise, positively ignoring all bombastic representations by presenting every position of reality and truth. By so doing, the New Monster Shows, consolidated with the Great Inter, have commanded the respect and consideration of every intelligent reader; and we really mean every word in this article. The list of wonderful exclusive features is exceptionally large, and only a few of them can be mentioned. First and foremost in the ponderous and Elephant, "Berta," the heaviest of ever on land, and fifty hard fought battles, and is one hundred and forty-one years of age. Acknowledged to be the oldest elephant in the world. Next comes the ferocious man-eating lions—there, the only living panther ever held in captivity; huge herd of performance elephants; monster blood-sucking biped volapagos; human blood-sucking vampires; grave-robbing hyenas; royal Abyssinian lions; living marine monster; performing rhinoceros; royal Bengal tigers; large drove of Bactrian camels and dromedaries.

Preparing for the Banquet.

The resident members of the Sigma Chi fraternity met yesterday afternoon at C. S. Denny's office, and J. W. Kealing was called to the chair. Harry Gordon, Will Elliott and F. P. Wheadon were appointed a Committee on Arrangements to prepare for holding the fraternity banquet on the evening of the 9th, after the State oratorical contest has been held. Messrs. Eugene Kreider, J. W. Kealing and Hon. Charles L. Jewett, Speaker of the House of Representatives, were appointed a Committee on Arrangement of Toasts. Another meeting will be held in Mr. Denny's office to-morrow afternoon to perfect all arrangements.

Misrepresenting Himself.

For some time past, a young man named Francis Hamilton, who until quite recently did extra work about the office of the State Superintendent of Public Instruction, has been going about the city collecting small sums of money from various persons, claiming that he was regularly employed by the Educational Department in the capacity of clerk and collector. A few days ago he went to Cincinnati and worked several persons in that city who afterwards caused him to be brought before the authorities. He was reprimanded and permitted to depart because of his connections.

Comes of Fighting Stock.

["Uncle Hiram" Drake and his estimable wife, of Shelby Township, made a pleasant call on the Democrat today. "Uncle Hiram" is seventy-five years old to-day, and is as sturdy a man as can be found who has passed the age allotted to man. The Democrat wishes that he may live to see many more birthdays. "Uncle Hiram" comes of Revolutionary stock, his grandfather, Joseph Drake Sr., having served all through the Revolutionary War, dying at the advanced age of 104 years. His father, Joseph Drake, served in the War of 1812, and died at the age of ninety-three. "Uncle Hiram" had three sons in the late war, and all his boys, five in number, vote with him the Democratic ticket.

the information comes too late for news. The people discovered it some time ago.

Minister Phelps' Americanism.

If the Americanism of a man who is a descendant of a revolutionary soldier, and who was born and bred and has lived nearly all his life in Vermont, can not stand the test, there is little chance of anybody, except Finerty or O'Donovan, being equal to it.

How few understand what a perfect fit is. That painful period of "breaking in" is deemed essential to every new outfit. This is positively unnecessary. The scientific principles applied to the numerous shapes and sizes of "the Hagan" shoes insure perfect fit, and their flexibility, absolute freedom from the tortures of "breaking in," as they are easy and comfortable from the first wear, sold everywhere. WHEAT BAKING POWDER

It contains no injurious ingredients. It leaves no deleterious substances in the bread as all pure grades of Flour and Alum Powders do. It reduces to the Flour the highly important constituents rejected in the bran of the Wheat. It makes a better and lighter loaf than
