Nearly 500,000 Coronas now in use

Business men keep Coronas at home and call them their "private secretaries."

Salesmen carry them on the road and save time and stenographic hire.

Doctors, lawyers and dentists use them for office machines in preference to heavy "standard" typewriters.

Clergymen coronatype their sermons—teachers and professors, their schedules and papers—students in every university in the land are turning in neater notes and essays since Corona came.

Women use Corona for their personal correspondence. Children are learning to do neat, beautiful coronatyping. Invalids are finding it a delightful companion for the long, weary hours.

Almost every well known author, playwright and scenario writer owns a Corona.

Thousands of people whose handwriting is poor and hard to read are doing practically all their writing with this wonderfully convenient little portable typewriter.

When you are through writing with Corona, it *folds* with one turn of your wrist, to a space only 4½ inches high, and fits snugly in a neat, strong fabrioid covered case.

Take Corona with you anywhere

Wherever you go you will see these smart black cases. On railroad trains, in hotel lobbies, on shipboard, at summer resorts. The fact is that people who own Coronas hate to go anywhere without their little "Private Secretary."

All through the war thousands of Coronas were in use all over the battle front. Every war correspondent carried his Corona, and thousands traveled with the doughboys.

The sturdiest of all typewriters

People who do not know are apt to think that a typewriter that weighs only 6½ pounds can't be as strong as a heavy \$100 machine.

But the fact is that no typewriter in the world has proved itself able to stand the punishment Corona will take.

Knocked, bumped, dropped, abused, in rain, mud, dust,

dirt, thousands of Coronas went through the entire war without cleaning or repairing, and are still writing merrily.

Corona *folds!* That is the big secret of its compactness and completeness—its amazing durability. Ask us to explain this patented feature.

Small monthly payments

Even though Corona costs only about half what you would pay for a new "heavy" machine, you need not pay for it all at once. The small monthly payments of \$5 each will hardly be missed, and almost before you realize it, Corona will be fully paid for.

And all the time you are paying you will have the use of Corona—in fact, you can very easily do extra work with this little typewriter which will pay for itself several times over!

We stand behind every Corona we sell. And behind us is the Corona factory, which has built and sold nearly half a million Coronas during the past ten years.

Mail this coupon today, or, better still, bring the coupon to us or phone us—we will bring Corona to you.
