Repertoire at the Phillips.
It must be conceded that members of the Ethel Desmond stock company, now playing at the New Phillips, show marked versatility for they have been at this house several weeks, during which time they have put on a large number of shows and each member has been called upon to carry a wide variety of roles. Just now the company is presenting "A Terrible Revenge," the concluding performance of which will be given tonight. Beginning Thursday afternoon and continuing the remainder of the week the bill will be "Mixed Pickles." The specialties this week are very pleasing.

Funds for Base Ball Suits.
Cambridge City—The subscription list which was issued recently for the purpose of raising funds to purchase suits for the city base ball team, is growing steadily and is meeting with remarkable success, \$40 having been raised in the past two weeks. It is thought that the necessary amount will be raised by the end of the week and the suits will be ordered immediately.

Premium List Ready.
Hagerstown—The new list of premiums for the coming Wayne County fair have been presented to the printer and the books will be ready for distribution in a short time.

Extinguished Small Blaze.
Cambridge City—The fire company was called to the home of Arthur Cosgrove on South Center street, about 11 o'clock yesterday to extinguish a small blaze which had started on the roof, supposed to have been caused by sparks from a passing locomotive. No damage of consequence was done.

Taking Extended Trip.
Hagerstown—B. A. Carpenter, one of the town's leading business men, started two weeks ago for Chattanooga and the Jamestown exposition. He has concluded to extend his trip to California and has advised his friends here that he started for Los Angeles on Thursday.

Fire Department Held Meeting.
Cambridge City—The regular monthly meeting of the fire department was held at the town hall Monday night. Regular routine business was transacted.

One of our chief debts to France is that she nourishes our ideas, transforms them, makes them her own, just as she transplanted and transmuted the flower of the renaissance in an earlier day. With all our national vanity we never dispute the parentage. It is only territory and diplomatic prestige and commerce about which we quarrel with our "sweet enemy."—London Academy.

ARE POISONED BY CANDY

Sweetmeats Cause Two Little Girls Suffering.

Millville, Ind., May 15.—The two little daughters of Mr. and Mrs. Glen M. Sherley were poisoned Sunday by some candy they ate. Both of the little girls are very ill, but will recover.

The London Daily Mail in an article on the prospects for a great influx of American visitors the coming summer says that 250,000 are expected. The real rush will begin this month. "American holiday makers spend as a rule from three days to a fortnight in London," says the Mail. "In that time they contrive not only to see most of the show places ranging from Westminster Abbey to the Cheshire cheese, but also to do a good deal of shopping. For some reason Americans are fond of London purchases. The West End shopkeepers are filled with happy anticipations of American customers, and are making preparations accordingly. Among those chiefly concerned are jewelers, tailors, and bric-a-brac dealers.

Vegetable Food For Mankind

Great Anatomists Assert That Natural Food of Man Comes From Vegetable Kingdom.

According to Cuvier, the great anatomist, the construction of the human body is adapted to vegetable food only. Many noted authorities agree with Cuvier and say that the finest health, greatest strength and most vigorous old age are to be attained only by adhering to vegetable food.

Science shows that the natural food of man, the best of all foods the earth produces, is wheat.

Wheat contains protein, which is muscle and flesh forming. It is rich in carbohydrates, which form heat and energy. As represented in Malta-Vita, its best food form, wheat gives to every part of the body in correct proportions, the exact elements required for health and strength, without taxing the weakest digestion.

Malta-Vita is "the perfect food" because it is the only flaked food in which the starch of wheat is converted into maltose (malt sugar) by pure malt extract, which acts in the same manner as saliva, developing the maltose ready for immediate absorption by the blood.

Malta-Vita (predigested wheat) furnishes every food element needed by the body in just the proportion decided by nature for vigorous health and strength. It is delicious food, acceptable to the most delicate stomach. It keeps well people healthy and makes them strong and vigorous better than any other food, and has made ailing people well when medicines and doctors failed to do so. It has formed the entire diet of convalescents when nothing else would nourish them and bring them back to health. At all grocers, 10 cents.

WILL ATTEND CONFERENCE.

Chairman Taggart of the Democratic National Chairman Buys a New Auto.

Chairman Taggart of the democratic national committee will lead a party of Indiana men to the Jamestown exposition some time during the summer. He recently bought a large touring car in which he expects to make the trip, accompanied by some of his intimate friends. Crawford Fairbanks, the Terre Haute millionaire brewer and business associate of Taggart, and Jay Wood Wilson, another millionaire living at Marion, will take a party of friends in their autos and accompany Taggart. The latter is making all arrangements for the trip.

Cut Your Gas Bill in Two

The Natural Automatic (Inverted) Gas Light

When we say the National Inverted will cut your Lighting Bills in two, we state facts. The net results of tests made by competent scientists are, that while the VERTICAL OR UPRIGHT BURNERS CONSUME FROM 5 1/2 TO 8 FEET OF GAS PER HOUR, THE NATIONAL INVERTED CONSUMES FROM 2 1/2 TO 4 FEET.

Think what a saving in gas this means. This saving in gas is due to the action of our Automatic Regulating Burner. We will tell you more tomorrow.
