AGRICULTURAL CIRCULAR

Of the Rock Island County Agricultural Association.

[Concluded.]

SWINE

form an important item in the farming community, and for market purposes are probably more extensively raised in this county than any other farm animal. Generally the stock of swine in this county is fair, and equal to the average throughout the State. To some extent, it is safe to say, very superior specimens, and of best breeds, may be found, but in the aggregate we have reason to think the breeding and rearing of choice and valuable varieties have not received such attention and special care among our farmers as it needed, or as could be made profitable. The Society would be glad to see the somewhat noted swine family elevated and improved in quality and character by the judicious admixture of more aristocratic blood.

POULTRY

has never made so much as even a creditable exhibition at our county fair, always lacking greatly in both variety and quality. We invite especial attention to the number and kinds enumerated in the premium list (which might easily be enlarged with other varieties well known among poulterers, amateurs and professionals), and then respectfully suggest that a pair of aged Shanghais, a few Dorkings, and a coop of common fowls are not the samples of poultry we might reasonably expect from a cultivated taste among curly headed lads and rosy-cheeked lasses who hunt hens nests and feed the chickens,—nor from persons of maturer years who aim at profit or good management. We hope the young people of this county will interest themselves in ascertaining what beautiful, as well as useful, varieties of fowls are to be found within easy reach, and that they will never rest satisfied until they can show at our fairs as fine and attractive specimens as are found anywhere.

THE FLORAL DEPARTMENT

should be a graceful and appropriate reflex of elegance, refinement, and artistic taste. The cultivation of flowers is everywhere regarded as peculiarly a lady like employment, suitable alike to the humble and the opulent, and equally engaging to the busy hands of toil and the possessors of elegant leisure. Flowers symbolize a love of the beautiful, and the adornment of the Floral Hall with rare and beautiful specimens will be one of the most pleasing and agreeable features of the fair, and a source of more than ordinary gratification to those who contribute to its embelishment. This department being under the superintendence of a Lady, and designed to be in a great measure open to the contributions and indicative of the liberality and good taste of our lady patrons, the Society appeals with confidence to their generosity upon this occasion and ask the Ladies of the city and county for such a rich and magnificent display of floral beauty as will do honor to themselves and be a praiseworthy monument of their liberality and taste.

FRUIT

in this County can easily make a very creditable display. This section of country is probably not peculiarly adapted to raising apples, pears, peaches, and some other well known kinds of fruit, yet the increasing number of orchards, and the labor and care bestowed upon fruit culture, furnish evidence both of a strong desire to raise a supply of fruit and of a reasonable degree of success, sufficient at least to afford proper encouragement to increased efforts in this direction. The Society will very cheerfully co-operate as far it can to create a favorable impression in behalf of this valuable branch of industry.

PRODUCTS OF FARMS, FIELD CROPS, AND GROUNDS.

The usual premiums in this line have been generally increased, and it will be observed that *most of the special premiums* generously placed at our disposal by Manufacturers and Exhibitors have been offered under these heads. If there seems to be a proper appreciation of this arrangement, and the result should be a corresponding effort on the part of Agriculturists to achieve success in their own special line, the Society will regard it as a promising indication of future confidence and support.

The systematic arrangement and classification of

PANTRY STORES

have also received more than ordinary attention. The Society desire to afford the skilful housewives and industrious young ladies of the county, if they will, an opportunity to make a display and create a competition greatly beyond any thing in former years, imparting to this department an importance and consideration which it properly deserves. Under this head one of the awards is the handsome special premium of a first class cooking stove, the equivalent of fifty dollars. Who wants the prize?

AGRICULTURAL IMPLEMENTS—MANUFACTURES —DOMESTIC ARTS AND MANUFACTURES.

With pleasure the Society states the fact that these departments have heretofore been always well represented, and from the known liberality and commendable enterprise of our manufacturers and dealers, we have no apprehensions of any failure herein on the part of exhibitors at the coming Fair. The opportunity for seeing articles of the highest workmanship and best mechanical skill is one that no person should neglect, and a better opportunity is rarely offered than will be presented at the Fair. The number and variety of articles manufactured in this county, already equal those of any section of the State, and are rapidly increasing. We would gladly make a specific enumeration if our limited space would permit; as it is, we not only cordially invite attention to such specimens as may be on exhibition, but an extended tour of observation to the various manufactories of this city, Moline, Milan and vicinity.

GENERAL REMARKS.

The Society earnestly hope for a successful Fair; one that shall not leave them burdened with indebtedness, and yet be satisfactory to the people generally. Our Fair will be the first of the season in this part of the country, following closely the termination of the summer harvest, and at a time when relaxation from severe labor is requisite and necessary. In this time of vacation, so to speak, it affords recreation, enjoyment, and means of information respecting agricultural pursuits, as agreeable as it is essential and encouraging. If any antagonism of sentiment has existed in times past between the city and country, it should be banished and forgotten. The interests of both are essentially the same, and that which promotes the welfare and growth of the city, brings increasing prosperity to the surrounding country. Some difference in customs and modes of life is always observable between the inhabitants of cities and the farming community, but in no instance is it so much a question which is the best, as it is a variation in kind and a result of necessity. Intelligence and worth among citizens, capacity for mental activity and progress, and good judgment of men and things is limited to no particular locality, and the "sober second thought" of a people living a quiet country life is no more liable, if as much, to be unsound, than it is amidst the whirl and excitement of towns and cities. The occasions of excitement are less frequent in rural life, the people grow up less excitable, with habits of greater reserve and caution, are not carried away to the same extremes either of opinion or action, and at the risk of being thought somewhat old fogyish we may further add, it is upon the integrity, reliability, and practical common sense of an educated, prosperous, industrious, agricultural population that statesmen and economists found the surest hopes and best guarantees of stable governments and enduring public institutions. In cities, the constant commingling of the inhabitants, and the more frequent interchange of sentiments and opinions upon current topics may perhaps produce a greater readiness of expression, and an appearance of superior information, but in fact both are much *more seeming than real*; the one is principally a certain brusqueness and off hand habitude of mind which comes of more frequent personal contact and intercourse, and the other from a better display of knowledge derived from ordinary topics of conversation; neither qualification necessarily implies greater natural gifts, nor superior knowledge of the essential attributes of wisdom or learning, nor the possession of any greater social worth and manly virtues. In many instances, one of remarked proclivities of gentlemen whose fortune and leisure permits, and who are not ambitious of distinction in public life, is to avail themselves of the freedom from excitement and the bustle of crowded streets, which a country residence offers, and enjoying the advantages which flow from cultured taste, liberal education, and enlarged experience, devote their time and attention to the less exciting but equally ennobling business of rural affairs or the elegant ease and hospitality of a suburban residence. To such, the stocking of their farms with the best breeds and varieties of cattle, the importation and rearing of horses, the study of models and designs for buildings and outhouses, the contemplation and management of the broad acres which constitute their farms, the beautifying and adorning their homes, their lawns, their avenues and parks, in accordance with the various and diversified rules of landscape gardening; each and all of the several known and admired occupations of farm life and matters of the highest interest, and sources of dignified and pleasurable satisfaction. Even the *Philosopher* of the *Tribune*, notwithstanding his long and unwearied devotion to the columns of a partizan paper by which his name and fame will be best transmitted to posterity, has nevertheless often betrayed a longing for a higher and more satisfactory avocation, and his bucolic genius displays its activity, if not its culture, in "What I know about farming," a volume whose pages, to say the least, are sufficiently interesting to inspire the wish on the part of the reader that he knew less of the machinery and farming of party and more of his favorite theme.

Rock Island county at the present date has a population of 35,000 inhabitants. It has more than an average amount of good timber, and at least nine tenths of the surface is arable land. Owing to its contiguity to the Mississippi upon one entire side, and the flow of flow of Rock River through the centre, there is more than ordinary diversity of appearance, and to a considerable extent there is quite a diversity of soil, so much so as to make a distinctive difference in the profitableness of certain crops when grown in one section or the other. Fortunately, where cereals are produced less profitably, as a compensation, fruit and grass appear to be surer and more abundant. Notwithstanding the peculiar configuration of this county we are profoundly impressed with its great natural advantages, and *its future possibilities*. The water power of the Mississippi at Moline, and of Rock Island and Milan, the only available power of the same kind and magnitude within a radius of many hundreds of miles, and located in a region of country which must eventually be peopled with millions of thriving and wealthy inhabitants, though even now of such magnitude and importance as to attract especial attention from all parts of United States are yet comparitively undeveloped, or rather utilized, as to be but so the inception of future greatness, the mere foreshadowing of manufactures and trade, which, ere long, will become a matter of pride, if not amazement, to those who have witnessed the beginning and rapid development of these sources of wealth and industry. To these advantages, the gifts of nature and the the precursors of future greatness, we may add the coal fields in our midst, or lying contiguous, whose products are ultimately to find a market at our levee and consumption in the furnaces and fires of our manufactories. In a ratio corresponding to the increase of manufactures, the production of coal and the development of agricultural resources, railroad facilities have been supplied. Already, in different directions through the county, four different lines of railway have been completed, and are now in successful operation, making the means of travel and transportation accessible and convenient to a majority of our citizens; while the whole western border of the county is washed by the broad Father of Waters, upon whose placid bosom countless treasures are destined yet to float.

With all these present advantages, and the flattering possibilities of the future, we ask our farmers in all sincerity what is there to prevent a corresponding progress in agricultural affairs. The Society fail to see anything, either in soil, climate, location, or otherwise, which should prevent our county from attaining a commanding influence in industrial pursuits, and a potential voice in the affairs of the State. With a healthy and prosperous growth of the city, and a reciprocity of good feeling between the town and country, it will be but a few years at farthest before many of the citizens in town will avail themselves of the easy facilities for going and coming to provide suburban residences and retire to the pleasures of country life. The ranks of wealthy and intelligent agriculturists must continually increase, a taste for rural employments and enjoyments diffuse itself more and more among the people of the city; and in the prosperity of both town and country the happiness and comfort of all classes of citizens will be promoted and increased, so long at heaven vouchsafes the blessings of good government and uncorrupted people.

Any agency which tends to bring the people closer together, which blends their interests and compels an interchange of good feeling, or produces a good understanding among all, is a valuable agency of improvement, a humanizing element of society. What better agency of its kind for such a purpose than your County Fair? The desire to exhibit whatever is excellent, and a resort to fairs and public exhibitions for that purpose, is always characteristic of a prosperous and enlightened community. Upon this natural trait of the human mind, and in confident belief that the citizens of this county are not behind those of any community in appreciating their own advantages, nor less awake to the importance and desirability of a good County Fair, nor less ready to embrace all suitable means of material advancement and prosperity, the Society founds its hopes and builds its anticipations of future success. We cordially and earnestly invite your good will, encouragement and support, and respectfully ask your hearty co-operation in an enterprise in which your interests are so largely concerned, and which your presence and patronage can so easily establish and successfully maintain.

SPECIAL NOTICES.

UNHAPPY MARRIAGES.

Why are there so many unhappy marriages It is because many enter into that state from unworthy motives, while others have their system filled with the virus of Scrofula or Syphilis, and th s hidden enemy does not always lay quiet but breaks out when least wanted; then the trouble begins with bickerings on one side and remorse on the other. This fact is already known to thousands

On this point we shall say no more in this article except to caution those who contemplate marriage with their system in the above condition to STOP. First cleanse yourselves of those impurities before you bring misery on your offspring.

And as we offer advice we also offer free of charge until a positive cure is effected the

SAMARITAN'S ROOT & HERB JUICES.

This purely vegetable remedy is a positive cure for Scrofula in all its forms, any kind of Sores, Pimples, Blotches or any diseases arising from impure blood (unlike the many mixtures with which the country is flooded, a bottle of which cannot be obtained without first laying down the price the owners having no faith in them,) the Root and Herb Juices will do all that is claimed for it, thus making it the greatest blood purifier the world has ever produced. And the unprecedented offer of furnishing the remedy free of charge until a cure is effected has given an opportunity to thousands who have been trifled with and who had given up all hopes of ever relief, to be cured and restored to sound health. Ladies who desire a brilliant complexion with fresh rosy checks should use the Root and Herb Juices. All who desire the medicine on the above terms will please send good reference that they will pay when cured. Root and Herb Juices $1.25 per bottle. DESMOND & CO., Prop'rs
915 Race street, Philadelphia, Pa

SAMARITAN'S GIFT,

THE only real and positive cure for diseases arising from indiscretion: Balsam Copaiba and Mercury discarded; only ten pills effect a cure. They are purely vegetable; cure in from two to four days. For no other reason than to avoid being exposed the Samaritan's GIFT should be used. Men of experience know that the medicines given by quacks are Balsam Copaiba and Mercury. The first can be smelled from the breath worse than bad whisky, and the Mercury ruins the system. And, again, no person who cares anything for his reputation wants to be seen going into the shops of the venders of those disgusting drugs with which the afflicted are gorged. Male packages $2; female $3. Sent by mail to any address.

Sold by Druggists generally.

CHAS. BENNER, corner Illinois and Market street, Agent for Rock Island.

EVERY LADY IN THE LAND SHOULD KNOW

What White Glycerine Is

AND

What it Does.

WHITE GLYCERINE

Is now acknowledged to be, in every respect, the superior of any and all articles used to benefit the skin and improve the complexion. The skin which has been long filled with impurities, spots or discolorations, or which has been injured, as is often the case, by the application of poisonous cosmetics and lotions, may be perfectly renovated by this remarkable fluid.

Once thoroughly impregnated with White Glycerine the skin grows purer and clearer, until it reaches a pearl-like transparency and beauty, unattainable by any other known means, after which but little, comparatively, is required to maintain a rich, healthful, natural and beautiful complexion.

It is also unequalled as a speedy and positive cure for chapped hands, rough skin, etc.

PEARL'S WHITE GLYCERINE

Is sold by all wholesale and retail Druggists and dealers in Perfumery and Toilet Articles.

THE LATE BISHOP SOULE.

IT IS A WELL ESTABLISHED FACT that any article which has been thoroughly tested, and which invariably gives satisfaction, must be a good article.

BISHOP SOULE'S LINIMENT

Invented by the late BISHOP SOULE, has proved by its own merits, that it has no equal in the world for the cure of

Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Kidney and Spinal Complaint, Sore Throat, Lame Back, Sprains, &c. This Liniment will instantly stop all pains caused by Burns.

Save your Doctor's bill; buy it; try it; use nothing else, and you would not be without it in your house for ten times its cost. BISHOP SOULE'S LINIMENT will cure all of the above complaints, and is the only sure cure for that dreadful disease SCIATICA. For sale by Druggists. Price 75 cts. and $1.75 per bottle.

SPECIAL NOTICES.

Why Dr. Schenck's Medicines are so Popular.

Why is Schenck's Pulmonic Syrup in such general demand? The answer is a very simple one: It is in demand because its healing properties are greater than those possessed by any other medicine in use for the cure of Consumption. It purifies the blood—one of the first steps towards a cure. Without pure blood disease can never be eradicated from the system. As well expect water to run up hill of its own volition as to cure consumption without a complete purification of the blood. This is the peculiar property of Dr. Schenck's Pulmonic Syrup. But it does more than this. It not only purifies the blood, but it allays irritation of the bronchial tubes. It collects and ripens the impure matters collected there, and enables the patient to throw them off by painless expectation. This great syrup has another virtue. It possesses nutritious qualities which give sustenance, and, consequently, strength to the invalid. Now combine these three qualities, and you have an answer to the inquiry,

WHY IS THE PULMONIC SYRUP IN SUCH DEMAND?

Thousands have testified it with complete satisfaction; thousands have used it and been cured; thousands are using it and being cured. But Dr. Schenck has other remedies. Thereare other agencies to be employed in the cure of consumption, and he has provided them.

If it be asked why Schenck's Mandrake Pills are so popular, the question is answered as readily as in the case of the Pulmonic Syrup.

SCHENCK'S MANDRAKE PILLS

have almost universal application to human diseases, and, though they have been mainly recommended in pulmonary cases, their virtues in other maladies have been so completely and satisfactorily demonstrated that the people will have them. Now, why are they so essential to the cure of consumption? Because the ingredients of which they are composed act directly upon the liver, causing that important organ to throw off its torpidity, and make healthful secretions. The Mandrake Pills

CONTAIN NO CALOMEL

to spread its poison through the patient's system. Their operation is simple and effectual. By their use healthy bile is secured. As a consequence, impaired digestion is restored, food is properly assimilated, good, healthy blood is the result, and, of course, strength is renewed, and the great process of healing thoroughly inaugurated. Whole pages of newspapers could be filled with testimonials from those who have used the Mandrake Pills and been benefitted by them. A thousand boxes are sold to-day where ten were sold four years ago, and the "cry is still they come." The facilities for manufacturing them have become too limited, and, as a consequence, Dr. Schenck has been compelled to erect a greatly enlarged and very magnificent building, to enable him to put up the requisite machinery to supply the constantly increasing demand for his great medicine.

BUT GOOD HEALTHY BLOOD

is not the only requisite. The patient needs strength. The entire system must be kept in order. The weakened, emaciated patient must have flesh put upon and strength into his limbs. To accomplish these great objects is the special province of

SCHENCK'S SEAWEED TONIC.

The acidity of the stomach, so distressing to patients, and so detrimental to health, is effectually removed. The alkaline constituents of the Seaweed Tonic accomplish this. In addition to this it imparts tone and vigor to the system, and enables the patient to take the necessary indoor exercise without exhaustion. This is vitality important, though too frequently overlooked by medical men. They advise exercise without having the patient prepared for it. They tell him to go out into the cool, rasping air when he should be exercising moderately where the temperature is suited to his diseased condition, and this too without giving him those remedies which are calculated to impart strength while they assist in healing up the ulcerated lungs and bronchial tubes.

In this brief recital, the public have an answer to the question "*Why are Dr. Schenck's medicines so popular?*" The problem is solved so clearly that none but those who are wilfully blind can fail to understand it. The wonderful cures that have been effected by Dr. Schenck's remedies, are the living, breating and moving advertisements upon which Dr. Schenck relies. They furnish the evidence that stands uncontroverted and uncontrovertible. To them the public is referred, with the most implicit confidence, and to them Dr. Schenck now triumphantly appeals as irrefutable proof of the correctness of his oft-repeated assertion that

CONSUMPTION CAN BE CURED.

Doctor Schenck's personal statement to the Faculty of his own cure was in these words:

"Many years ago I was in the last stages of consumption, confined to my bed, and at one time my physician thought I could not live a week; then, like a drowning man catching at a straw, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. Then soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

"As soon as that began to subside, my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown to flesh ever since.

"I was weighed shortly after my recovery," added the doctor, "then looking like a mere skeleton, my weight was but ninety-seven lbs. my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston, but at his office No. 15 North Sixth street, between the hours of 9 A. M. and 3 P. M., he or his son, Dr. J. H. Schenck, Jr., sees patients every Saturday.

Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses the three medicines need no other accompaniments than the ample instructions that accompany them. First create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative the Mandrake Pills are a standard preparation; while the Pulmonic Syrup as a curer of coughs and colds may be regarded as prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50 a bottle, or $9.00 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers. mch16-dwly

Ladies, take Particular Notice.

The Real Velpau Female Pill

WARRANTED FRENCH

These Pills, so celebrated many years ago in Paris, for the relief of female irregularities, and afterwards for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Dr. Velpeau, is a physician in Paris, of great wealth, and has strict conscientious principles, and has withheld them from general use, should be employed for unlawful purposes.

In correcting Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, Nervous and Spinal Affections, Pains in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, &c., and will effect a cure when all other means have failed; and, although a powerful remedy, do not contain calomel, antimony, or anything hurtful to the constitution

To married ladies and young girls who have never been regulated, they are peculiarly suited. They will, in a short time, bring on the monthly period with regularity.

CAUTION.—Married Ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce miscarriage.

Ladies can procure a box, sealed from the eyes of the curious, by enclosing one dollar, and six postage stamps to M. W. MACOMBER, General Agent for United States and Canadas, at Albany N. Y., or of any authorized Agent. my24dwly

MAGIC OIL.

READER! Have you a head to ache? Then you are interested in knowing what

Renne's

PAIN KILLING MAGIC OIL

DOES FOR HEADACHE,

"It Works Like a Charm." Read these Letters, but above all

TRY THE MAGIC OIL!

ATHENS, TENN., Sept. 26, 1869.

MR. RENNE—Dear Sir:

I wish to say a word for your Pain Killing Magic Oil.

I have been a great sufferer from that awful disease, Sick Headache. It generally attacks me early in the morning, grows in intensity all day, all night, and all the next day, and generally, though not always, goes off during the second night. It comes upon me at least once a month, and often two or three times, always confining me to my bed for about thirty-six to forty hours, and paining me so terribly that it seems as if my head would burst open in spite of skull and everything else. A person's hand would be thrown entirely off by its throbbing. In short I suffered agony indescribable. Our best Physicians failed in my case, and I have used most of the popular remedies sold, which are recommended as "sure to cure" just such cases, but they not only failed to cure me, but seemed to aggravate my situation. A few months ago, I fortunately obtained a bottle of your Pain Killing Magic Oil, and as you claim "it works like a charm!" When I feel my old plague coming on, I use the Magic Oil both externally and internally, freely and faithfully, and now I do not even have to stop my work, but go about my business as usual.

I assure you, one fellow-man has been benefitted by your invention, and for which I feel grateful. May God reward you. In my house and family, your Magic Oil is as indispensible as flour. I hope my letter may be the means of letting other poor sufferers know the virtues of your Magic Oil, and you may use my name as a reference if you choose.

Gratefully, I am yours, &c.
EDWARD A. COBLEIGH.

WM. RENNE, ESQ.—Dear Bro.

The letter from Edward A. Cobleigh, is from my son. He has suffered greatly from Headache, but has recently found a cure by using your Pain Killing Magic Oil. Rev. Bro. Spence, our agent, uses your Magic Oil, and finds relief from the severest headache! I also use it in my family and find it excellent in several ailments. I trust you are doing the world good, as well as getting some peculiary benefit to yourself, with your Pain Killing Magic Oil. I am truly yours,
N. E. COBLEIGH,
President Wesleyan University, Athens, East Tenn.

I am confident that every family will find great benefit by keeping, and using my Magic Oil. Our best Physicians use and prescribe it; and next to the Family Physician it can be depended upon, as a clean, safe and delicious remedy for all kinds of Pain, sure to give immediate relief, and never do harm. Directions with each bottle.

Yours truly, WM. RENNE,
Manufacturer, Pittsfield, Mass.

Call for it where you usually trade. Sold by all Druggists, Merchants and Grocers.

BITTERS.

Maguire's

SARSAPARILLA BITTERS

(WITH IRON,)

The best BLOOD, STOMACH AND LIVER Medicine ever offered to the public. It is very agreeable to the taste and will not affect the teeth as Iron preparations generally do.

What it will do?—It will be found vastly superior to any of the Calisaya and Iron so extensively used for invigorating the system. It will make blood; the wine thicken it. It will restore the pale and emaciated, the weak and debilitated to color, flesh, health and strength in an incredibly short time. It will strengthen the nursing mother and increase the flow of milk, also benefit the child at the breast and prevent many of the complaints to which children are subject in infancy. It will tend to restore the eyesight when impaired by continued application in reading, writing or sewing, by strengthening the optic nerves. It will give vitality to the mental faculties when depressed by close confinement to study or business pursuits, and prevent nervous headaches. It will purify the blood and prevent the breaking out of boils, pimples and other eruptions caused by poverty of blood. It will restore the genital organs, when weak, to a healthy condition, regulate the menstrual period also relieve debility caused by summer heat or excessive prespiration.

A single trial will prove conclusively that we have not over-estimated the value of this excellent medicine.

Price, $1.00 per bottle.

J. & C. MAGUIRE,

MEDICAL.

$1,000

Reward.

THIRTY YEARS EXPERIENCE

I WILL GIVE ONE THOUSAND DOLLARS reward for any case of the following diseases that the Medical Faculty have pronounced incurable that

Wilkinson's

Vegetable Compound

ALTERATIVE SYRUP,

Renovator and

Blood Purifier

WILL NOT RADICALLY CURE.

THIS remekial agent is a certain speedy and positive cure for

Hereditary, Constitutional and Secondary Syphilis, in all its various forms, such as Old Ulcers, Swellings of the Neck, Ulcerated Sore Throat, Sore Eyes, Skin Eruptions, Soreness of the Scalp, Falling off of the Hair, Pimples or Blotches on the Face Body or Limbs, Dry Hacking Cough, Constant Hacking up of Matter, Unpleasant Discharges from the Nose and Lungs, Breath Extremely Offensive, etc., etc.

Mercurial or Syphilitic Rheumatism and Neuralgia,

Thoroughly eradicated Mercury and all diseases arising from an impure or poisonous state of the Blood, and I defy those who suffer from such diseases to obtain a radical cure without the aid of this important remedy.

It operates on the system entering the blood, neutralizing the virus of poison, re-establishing the healthy functions, of the animal economy, and thereby enabling the system to eradicate the disease and cast off the obnoxious matter by the Bowels, Urine, Breath and Skin, causing no sensible evacuations.

It is pleasant to take, assimilates readily with the food, and does not interfere with the usual diet or advocations.

Enclose 3 cent stamp and send for sealed circular.

All communications strictly confidential. Price $5.00 per bottle, sent free from observation, by mail or express, to any address, on receipt of the money. Address

DR. GALLAGHER'S

VEGETABLE

RHEUMATIC

CURE

is warranted under oath a complete and permanent cure for

Rheumatism & Neuralgia

in all their various forms. It is taken inwardly only. It is positively the only standard specific before the public, being composed of pure and harmless vegetable ingredients solely, containing no minerals, poisonous or injurious drugs.

It has actually cured ninety-five in every hundred cases, in the last six years—a result unparalleled in the history of medicine.

The principal advantage in taking this medicine is, that it is quite different in its composition from any other article before the public. No other preparation does or can act in the same manner. While every medicine purges and sickens the patient,

DR. GALLAGHER'S

VEGETABLE RHEUMATIC

CURE

at once dissolves and carries off all Rheumatic, Neuralgic and unhealthy matter from the system, and the patient must from necessity soon get well. There is no mistake about it. The money promptly returned in every instance where no benefit has been received. A large number of unsolicited testimonials have been received attesting its great value.

$1,000

Reward!

Will be given to any person who can produce as many genuine permanent cures as *Dr. Gallagher's Great Vegetable Pile Cure.* It is prepared expressly to cure Bleeding, Blind, Ulcerated or Itching Piles, and for no other purpose. Hundreds of Physicians recommend it in their practice. It has cured permanently cases of over 30 years standing. Sold by Druggists generally. Prepared solely by B. F. GALLAGHER, No. 308 North Third Street, Philadelphia, Pa.

John Bengston, Druggist, Agent for all of Dr. Gallagher's preparations.
