Internal Revenue Report!
Total Receipts from all Sources!
Secretary of War Report
Despotism Recommended!
THE EXPENSES OF MILITARY RULE!
How we pay the Fiddler
The Navy Estimates!
The National Account Book!
General Summary.
Market Reports.

[Reported Expressly for the ARGUS.]

WASHINGTON, Dec. 2.—The report of the Commissioner of Internal Revenue states that the aggregate receipts from all sources, exclusive of the direct tax upon lands and duty upon circulation and deposits of national banks, were, for the fiscal year of 1871, $144,011,176. This sum includes the amounts refunded and allowed on drawbacks, amounting to $646,468.

The Commissioner's estimate of receipts for the current fiscal year, under the present law, is $125,000,000. The receipts from spirits for the fiscal year is $46,281,848. The amount of tax received on fermented liquors is $7,159,740.

The total receipts from tobacco for the year is $33,578,097, an increase of $2,250,000 over last year. The total amount of manufactured tobacco represented by the amount of collections, is 105,828,963 lbs. The total number of cigars, cheroots, &c., on which taxes are collected, is 1,372,844,357.

The increase is due to the recent change in the law, changing the mode of collecting these articles. The Commissioner favors consolidating the tobacco rate 24 cents if it can be done without loss to the government, and expresses the opinion that the present system of exporting from bonded warehouses can be finally abolished to the interest of both the government and manufacturers. He recommends that Congress provide that the evidence of loss of tobacco at sea be satisfactory, and that the Commissioner of Internal Revenue shall have all the force of landing certificates for the purposes of drawbacks.

The want of authority to furnish stamps for condemned tobacco, which is continually accumulating, had caused much embarrassment, and the Commissioner wants Congress to authorize him, on the requisition of the officers having the custody of and control of such tobacco, to furnish suitable revenue stamps to be attached and cancelled before the same is offered for sale, as it frequently happens that tax paid stamps are lost from packages by unavoidable accident, without fault on the part of persons interested; spirits also, being often thus exposed to seizure. Relief is asked for to protect such spirits by restamping.

Owing to Congressional omission to authorize the remission of tax on ship builders, he has ordered such taxes to be collected. He recommends that the commissioner be prohibited from considering or allowing any claim not presented in two years' time for tax paid, and all claims to be barred in the courts after six years from the date of payment of tax.

The report concludes by stating that 230 accounts of ex-collectors are still open, 115 of which have been placed in the hands of attorneys for suits against the bondsmen of the delinquents.

The total amount received from compromised revenue cases for the year is $648,497, total value of seizures, $915,240.

The report of the Secretary of War shows that the army since July 1st, has been reduced to 30,000 men. The expenses yearly are about $40,000,000, including nearly $4,000,000 for river and harbor improvements. The estimate for military purposes for the fiscal year ending June 30, 1873, is $32,415,472. The treasury realized for the present fiscal year $21,766,403, from the sale of arms and other sources, an estimate of $3,000,000 is made for the settlement of of claims yet due the States for calling troops into service

The Secretary says it is with great embarassment that the appropriations made at the last session can be made to answer the pressing requirements of the service, and recommends that the extra lieutenants authorized to serve as regimental quarter-masters be discontinued as the vacancies occur in those grades, effecting an ultimate reduction of eighty lieutenants. He recommends that the grade of quarter master sergeant be abolished; also those of company artificer and wagoner, which will save 1,165 enlisted men to the service, at a yearly cost of $412,740.

The proceeds from sales of clothing since June 30th, 1870, to date, is $1,875,728. The cost of transportation for the year is about $1,500,000. Southern railroads still owe the department $4,724,350.

The Secretary alludes to the existence of an armed rebellion, of regular organization and great strength, in some parts of the Southern States, and the necessity of the use of the armed force of the nation to put it down and bring its leaders to speedy justice.

There seems to be no doubt that a quorum of both Houses of Congress will be present to morrow. The President's message will be transmitted directly after the President shall have been informed by the Joint Committee that they are ready to receive any communication he may have to make. Both the message and the report of the Secretary of the Treasury will be telegraphed to the distant press, but printed copies of the reports of the heads of Departments have been sent out in advance of their delivery.

It is understood that Speaker Blaine has brought the list of standing committees to this city, fully made up, and has not consented to entertain a change of any important assignment. An unusual reticence has been maintained, and all assertions as to particulars of appointments are merely speculative guessings and entirely unauthorized. The list will, it is expected, be announced to morrow shortly after the House proceedings commence.

The Secretary of the Treasury has authorized the Assistant Treasurer at New York to buy one million of bonds every Wednesday, and sell one million in gold every Thursday during the month of December.

It is understood in navy circles that the navy estimates for the fiscal year ending June 30, 1873, amount to about $20,000,000. These are, in the aggregate, more than $120,000 less than those made for the current year, and more than $500,000 less than the appropriations made by Congress for that purpose. It is further said the Secretary will recommend that the grade of Commodore be dispensed with, and that after this grade shall have elapsed by death, retirement or promotion, the present incumbent's promotions be made to grade with Rear Admiral as vacancies occur from the list of captains, and that a further decrease be made in the officers by increasing cadetship terms from four to six years. This is recommended as both a matter of efficiency and economy.

This Skate excels all others in giving a neat appearance to the foot. It is light, easily adjusted, and when fastened on, becomes as firm as the boot itself. It dispenses with all straps which are so binding and disagreeable to the foot, stopping the circulation and causing numbness and aching. Our Skate has been made with special reference to avoid strain upon the ankle, and it completely obviates that difficulty so fatal to Ladies skating. A beginner can stand upon them without difficulty. They are made in the best manner, of the best materials, and are intended to be in every respect the best Skate ever offered in the market. Their pliancy, ease and graceful appearance render them the most desirable ever offered the public.
We make seven sizes:
Ladies',.....8, 8½, 9 and 9½ inch.
Gentlemen's,.....10, 10½ and 11 inch.

LIVER REGULATOR.

SIMMONS' LIVER

THE Symptoms of Liver Complaints are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general costive, sometimes alternating with lax. The head is troubled with pain, and dull, heavy sensation, considerable loss of memory, accompanied with painful sensation of having left undone something which ought to have been done. Often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease, and at other times very few of them; but the liver is generally the organ most involved. Cure the liver with

OIL OF SOAP.

OIL OF SOAP
(PATENT APPLIED FOR.)
FOR HOUSEKEEPERS!
It is the best cleaner in use, for cleaning paint, glass, marble, stone and furniture, and for removing grease from floors, carpets and cloths, while for laundry purposes it is unexcelled. It does its work quickly and well, and is cheaper than common soap at 1c per pound. No grease in it. No potash in it. No poison in it. Ask your Druggist or Grocer for it.
J. M. HALL & CO., Proprietors,
507 Spruce street, ST. LOUIS, MO.

"XX OIL OF SOAP"
FOR
Rail Roads.
This is a stronger brand, and is used in cleaning of Cars, Engines, &c., and is for this purpose the best thing out. It contains no potash, lye or grease. It removes the accumulation of coal soot, dirt and grease from a car at a single application—is in a liquid form, and is for this reason much more convenient to use than Soap or any other cleaner, as no time is wasted in its preparation for use, and it does the work with cold or warm water. It is used by mixing with water (as per directions) and applying with woolen cloth, sponge or brush.
To painters this will recommend itself at once, because it leaves the surface clean and smooth, ready to receive the varnish and one in which varnish will not CRAWL, and this we claim is an advantage it has over any other cleaner in use.
By the barrel only at 35 cents per gallon.
