It is hard to please every one, but Duryea's "Satin Gloss Starch" and "Improved Corn Starch" does it. All good housekeepers say it is just the thing. Sold by grocers generally.

The wife of Socrates was said to be a great scold. Had her husband furnished her with Renne's Pain-Killing Magic Oil to cure a painful toothache and headache, she would, no doubt, have been one of the best women of that age.

To be taken in place of Quinine or Bitters of any kind; the dose is small, and its virtues undoubted. It will be found cheaper and better than any other remedy for that purpose, and also as a general Plantation and Family Medicine Simmons' Liver Regulator has no superior.

NATURE'S HAIR RESTORATIVE is the result of four years study and experiment It is now perfection itself, and no more to be compared with the other preparations now flooding the market, than "tanglefoot" whisky is to pure Bourbon. See advertisement.

CHAPPED HANDS, face, rough skin, pimples, ring-worm, salt rheum, and other cutaneous affections, cured, and the skin made soft and smooth, by using the *Juniper Tar Soap* made by Caswell, Hazard & Co., New York. It is more convenient and easily applied than other remedies, avoiding the trouble of the greasy compounds now in use. m-t, wesw,

A HINT TO THE WORKING MAN.—A man with a family, however poor he may be, owes it to his wife to save her health and strength in every way possible. He has no right to allow the mother of his children to wear her life out toiling with her needle to clothe her family. His duty is to buy the New Wilson Under-Feed Sewing Machine the best machine for family sewing ever invented, and he can buy one for fifty dollars. More than this, he can buy the Wilson machine upon terms which enable him to pay for it in small monthly installments, that he can spare out of his wages without feeling the drain. He will get thereby a machine capable of doing every variety of family work in the most beautiful manner, a machine that even a child can operate, and which will prove a permanent family blessing. Salesroom at 378 West Madison Street, Chicago, Ill. and in all other cities in the U. S. The company want agents in country towns.

ALLCOCK'S POROUS PLASTERS.—D. Meyer, of Savannah, Ga., says they are the best mechanical supporters for weak muscles ever discovered; that by their warming properties they bring power and health, until the strength of the muscles is entirely restored; that he knows a case where Allcock's Plasters cured a gentleman of a weak spine; that he daily prescribes them in his practice with the happiest results, and desires us to refer to him.

SCIATICA AND RHEUMATISM.

SEASIDE HOUSE, Rockway Beach, Sept. 1, '69.

Messrs. Allcock & Co., Sing Sing—Gentlemen: Your Plasters have wonderful qualities, and every traveler should have them by him. My guests give great accounts of their efficacy. Some cured of coughs; some of rheumatic pains; some of severe pains in the breast, side and back. In sciatica and kidney affections their application is equally successful. I myself was attacked with severe pain in the left kidney. I was in agony for twenty-four hours. At length I applied one of your Plasters. The pain soon began to abate, and in the course of a few hours was entirely removed. I send you this that you may publish it if you think well. I am yours,

Such is the testimony of Physicians in every section of the country. The prejudice existing against patent medicines generally is removed, and MISHLER'S HERB BITTERS is accepted by the profession as supplying a want long felt. Price One Dollar per Bottle.

ROSADALIS.

Harrison Jones, writing from Williamsburg, Va. says: I was afflicted with an inveterate tetter on my face and neck before and during the late war, and even up to about two months ago. I received the treatment of every physician in the neighborhood of my home in Pennsylvania, and of the surgeons in the army, but with no success. Every different medicine I tried failed to relieve me. I suffered intensely. My whole face become one perfect scab, and was hideous to behold. The Rosadalis was recommended to me by a friend, and I commenced the use of it, and to-day (in less than two months) my flesh is as fair and free from disease as if I had never been at all afflicted. I only used two bottles of Rosadalis, but would not to-day exchange the benefit derived from them for $2,000.

The Administration forced to do Justice to Schurz, at last.

Great Speech of Anna Dickinson, for Greeley, in Cooper Institute.

Immense Demonstration in favor of Andy Johnson.

Mr. Banks Nominated by the Labor Reformers.

Accidents, Crimes, Etc.

The Epizootic Influenza.

WASHINGTON, Oct. 27.—The State Department of the Fifth Auditor of the Treasury have at last put a slander to silence in regard to Senator Schurz and his account while Minister at Berlin. The Administration papers were allowed day after day to repeat the slander that General Schurz was largely in arrears to the Government, and that his accounts were not in a satisfactory condition, intimating that he had dishonestly used the Government funds. Both the Treasury and State Departments, now admit that the amount of $800, said to be overpaid to that gentleman, he was fully entitled to.

NEW YORK, Oct. 25.—Anna Dickinson's address at Cooper Institute, to-night, entitled "Is the War Ended?" was listened to by an overflowing and enthusiastic Greeley audience. Miss Dickinson made a very effective contrast between Greeley and Grant, condemning the latter vehemently for his selfishness, stolidity, and corrupt affinities. She believes there are Liberal Republicans enough to elect Greeley overwhelmingly, provided the Democratic party makes good their part of the alliance to purify the Government.

NASHVILLE, Oct. 26.—The demonstration in behalf of Andrew Johnson to night was one of the largest ever held here. The torch-light procession was one and a half miles long and twenty-five thousand persons were estimated to be present.

BOSTON, Oct. 27.—Mr. Banks has accepted the labor reform nomination for Congress.

NORWALK, Conn., Oct. 26.—The Board of Selectmen to-day admitted to the rights of an elector, Mrs. Sarah M. T. Huntington. She will vote for presidential electors. She is believed to be the first female voter thus admitted.

LONDON, Oct. 26.—Mr. Sumner has returned to London. His health is improved.

PITTSBURG, Oct. 26.—Hon. William F. Johnston, ex-Governor of Pennsylvania, died in this city yesterday afternoon of the dropsy.

NEW YORK, Oct. 26.—Brick Pomeroy has dropped Chas. O'Conor in disgust, saying that O'Conor does not deserve even one vote for the Presidency. O'Conor has been more of a coward than a leader; more of a word-maker than a man of daring; more of a twaddling pettifogger than a bold decisive Democrat, equal to great emergencies.

WASHINGTON, Oct. 26.—It is denied that Annie Dean is the woman of that name who married her father's coachman.

CHICAGO, Oct. 26.—A large number of saloon keepers were arraigned to-day for violation of law last Sunday. Some were fined $10 to $50, and some took a change of venue. The events of to-morrow are awaited with great interest.

Fredrick McMullen, who last month killed Peter Morgan in a drunken brawl, was this morning arrested here by Sheriff Osgood, of Windham county, Conn., and will be taken home.

A fearful accident occurred at DeKalb, Ill., yesterday, a man named McMann being caught by the leg by a hanging rope of a balloon which escaped its moorings and carried up a distance of one hundred feet, when he managed to climb into the car attached to the balloon. When he had reached an altitude of some four hundred feet he jumped out and struck the ground a mangled corpse.

CUMBERLAND, Oct. 26.—Wm. Craig, a negro, twenty-five years old, yesterday convicted of rape on Mrs. Lottie Dayton, a white women, seventy-four years of age, was today sentenced to be hanged.

BOSTON, Oct. 26.—There are very few horses in the streets. All the various departments requiring horses are at a stand still, and are suffering in consequence. Hand carts are in demand. Numerous wagons are drawn by men. The only encouraging feature is that few cases prove fatal.

Russell White, driver of engine No. 4, while attending his horses to-day was suddenly taken with the disease, and conveyed to his home. He had all the symptoms of the disease, coughing, running at the nose and eyes, and general feverish debility.

NEW YORK, Oct. 26.—The ravages of the horse disease continue unabated, but up to this afternoon no fatal cases are reported.

A novel sight was furnished this afternoon by some men dragging loaded wagons, while others pushed behind. The present inconvenience to the public is liable to continue until the latter part of the coming week, by which time the horses first attacked should be convalescent.

Mr. Burgh, president of the society for preventing cruelty to animals, suggests this remedy for the prevailing horse disease:

Complete rest, warm blankets, non-exposure to drafts of air, disinfectants, protracted cathartics; 20 or 30 drops of tincture of iron, in a gill of Jamacia rum, diluted with water, to be given every four hours in order to preserve the strength of the horse—or tincture of arnica will produce relief. A plaster bound around the throat, composed of one portion of Cayenne pepper and two of flax seed mixed with sugar, is excellent.

DETROIT, Oct. 26.—The prevailing horse disease made its appearance in this city yesterday. A large number of horses are now affected. The street cars on four routes were hauled off yesterday. The disease has also reached the lumbering district north of Saginaw.

Great Saving in Coal.

TWITCHELL'S "Draught Regulator" can be applied to any sort of Stove or heater—saves from ⅓ to ½ of the Coal by utilizing all the heat produced, and secures a constant, even temperature, with less than half the trouble in keeping fires. On exhibition and for sale at Harris' Tea Store. Teas at reduced prices, free of duty. dtf

BRITTANNIA, NICKEL, SILVER AND WHITE METAL GOODS.—It has been but a few years since the beautiful articles of silver ware which add so materially to the attractions of the table and sideboard, were to be seen only in the residences of the wealthy, and even these articles were usually of an inferior grade and bunglingly make. At the present time, so great has been the improvement in manufacture and decrease of prices, that every family in comfortable circumstances is able to number them amongst their household treasures. This revolution is due, in a great measure to the introduction of that beautiful and economical alloy known as Brittannia metal, by the manufacturing establishmeut of Reed & Barton, in 1824. This great Brittannia and electroplate manufacturing establishment of Reed & Barton was established in Taunton, Mass., in 1824, since which time it has steadily made its way onward, until at the present time it stands unchallenged as one of the greatest in the world, and its goods are unsurpassed by any manufactured. Of this firm Mr. H. G. Reed is the senior and head, while the company also numbers Messrs. Geo. Braybrooke and H. H. Fish, Mr. Barton being deceased. Their goods enjoy a reputation for elegance of form and ornamentation, and beauty of design, as well as durability, unequalled on the continent. Their works at present cover several acres and yet the demand for their goods is so great that it has been found necessary to increase their capacity for manufacturing over one third, and it is now being done. Five hundred workmen are constantly engaged at a monthly pay roll of $20,000, the business amounts to $1,000,000 annually, and is steadily on the increase, especially the foreign department. They import largely of the raw material and in return the demand for their goods in very great in Europe, and they ship large amounts annually, of their beautiful and costly goods to foreign ports.

In this city their goods are to be found at the jewelry stores of W. T. Riggs and I. Epstien. The former has a large and well assorted variety of the white metal and nickel silver goods, and asserts confidently without fear of successful contradiction that they are the best in the market.

We have not the time or space to enumerate the many kinds of articles and beautiful wares manufactured by them, suffice it to say that every variety of Brittannia, nickel silver, and white metal goods, comprising tea sets, water sets, fruit stands, &c., are among their manufactures, and can be obtained either at their works in Taunton or their salesroom in Maiden Lane, New York. For further information see advertisement in another column.
