One Cent

THEY SURE ARE GOING UP.

New York, June 28.—The price of meat has advanced in the last year until today in the New York market it is from 10 to 12 per cent higher than it was just a year ago. A table showing the comparative prices follows:

	1911.	Today.
Veal cutlets.....	.25	.30
Veal chops.....	.20	.22
Round steak.....	.22	.26
Sirloin steaks.....	.24	.28
Mutton chops.....	.17	.20
Leg of mutton....	.13	.15

These prices rule in the retail shops over the city. No explanation is vouchsafed, but wholesale dealers are being blamed by shopkeepers.

THE DEMOCRATIC MESS

(Reports Direct from Baltimore by United Press Wire.)

There are 599,999 persons in Baltimore who will tell you what is going to happen when the convention meets at 4 o'clock this afternoon.

Clark adherents will tell you Clark is going to be nominated on the third ballot.

Wilson men tell you Wilson is going to be nominated on the fifth or sixth ballot.

Proprietors of dark horse candidates will drag you off into dark corners and whisper mysteriously about a stampede in the eighth or ninth.

Other agitated persons will tell you: "Sh! Don't say I told you, but Bryan will be nominated on the fourth ballot.

Political sharps will shake their heads wisely and talk about "protracted struggles," whatever they are.

They're all perfectly sure of their dope, and they all got their dope from the inside, and not a darn one of them has the least idea of what is going to happen.

The 600,000th person in Baltimore is William Jennings Bryan. He's not saying a word, but he's almighty busy about it.

After Bryan introduced his down-with-the-money-trust resolution and a procession of glooms last night, the bosses gave whoop, and promptly and joyfully eliminated the gentleman from Nebraska once yet again.

Maybe Bryan is eliminated, and then again maybe he isn't.

Anyway, no one knows unless it's Bryan himself, and he won't.

True, the steam roller is working with oil smoothness. But
