

FIX CONVENTION DATE OF STATE CHURCH GROUPS

Christian Missionary Society to discuss Eureka College Fund and Evangelism.

Dates for the state convention of the Illinois Christian Missionary Society in Rock Island Oct. 3, 4 and 5 were confirmed at the meeting of the board of directors of the organization yesterday in Bloomington. Rev. Laurence Hadaway, pastor of this city, member of the convention program committee, presented the plans of the board. A tentative program of speakers, discussions and music was adopted. Rev. Jesse Lader, St. Louis, of the United Missionary Society, will be the main speaker of the convention, talking on evangelism, Thursday, Oct. 5. Two principal discussions of the state conference will be the raising of the endowment fund of Eureka college, Eureka, Ill., from \$500,000 to \$1,000,000, and the advancement of evangelism. At the board meeting yesterday it was announced that the disciples would dedicate or rededicate one new church or remodelled church every year for the next five years.

Keeping Up Pace.
This is the record being made now. It has been kept up since the first of January and the prospects are bright for the continuation of the success. Within three months churches have been extensively remodeled or built at the following places: Harrisburg, Lovington, Champaign, Aurora, Kewanee, Toluca, Belle Plaine, Tallula, Lake Park, Cornland and Flora. Dedications are announced within the next few weeks for Allendale, Mount Carmel, Westervelt, Ogden, Dixon, Herrick, Donahoe, Prairie and Pine Creek.

TWO YOUNG MEN OF DAVENPORT TO BE ORDAINED PRIESTS

Edward M. O'Connor, son of Mr. and Mrs. T. E. O'Connor, 314 Wilkes avenue, and George A. Volz, son of Mr. and Mrs. George Volz, 1233 West Third street, Davenport, are to be ordained priests at Sacred Heart cathedral Saturday morning, May 27, by Rt. Rev. James J. Davis, bishop of Davenport. At the same time the bishop will ordain Francis Griffith, Keokuk, James L. Garrity, Highland Park, and Louis A. Rohret, Cosgrove, Iowa. The ceremony will take place at 10 o'clock in the morning. Those to be ordained are graduates of St. Ambrose college, class of 1918. They received their theological training in St. Mary's seminary, Baltimore, Md., and in Washington, D. C.

The Argus' Business Review

(BY CONSOLIDATED PRESS.)

Telegraphic dispatches from nation's important centers giving Business News and Reviews of Interest and Importance to Producer and Consumer.

CLEVELAND.

Cleveland, Ohio, May 4.—Reports from all over Ohio this week show that more industrial plants are reopening and those already in operation are employing more men to keep pace with increasing business. McKinley Steel company of this city started six new open hearth furnaces to enable the plant to keep up with orders. The Otis Steel company reports a steady increase in operations with the sheet mill running at 100 per cent capacity. The Mahoning Valley Steel plants have been able to increase production in spite of the coal strike. The Brier Hill Steel company started another furnace today, and steel men say there are supplies of fuel on hand for two or three months. Employment in 100 Cleveland plants used by the Chamber of Commerce as a basis for estimating conditions, is now within 438 persons of the peak of employment in 1921. A survey completed today shows that employment in these plants gained 4.6 per cent in April over March. In 15 plants manufacturing "closed" land transportation employment increased 78 per cent in the first four months of the year. Demand for tires has brought increased production at the Akron rubber plants.

KANSAS CITY.

Kansas City, Mo., May 4.—The weather which remains cool and rainy, continues to be the dominating factor in current business and has curtailed retail trade. Viewing the situation broadly, however, this will increase confidence in future activity. Farmers are from two weeks to a month late with their customary spring planting but the rain has aided in developing the alfalfa, wheat and other crops already in the ground. Reports from the Ozark region of Missouri state that the estimate of the strawberry crop has been increased from 1,000 cars to 2,300 cars. This means an output of 30,000,000 quarts, the largest in the history of the region. The Kansas Horticultural society predicts a bumper fruit crop in that state. Only in Waudette county does the crop appear in danger. The cause of the trouble is an unusual invasion of insects. The building trade workers and their employers are still deadlocked on adoption of a wage scale for the next year. The old contract expired May 1. Contractors threaten open shop operation unless a reduction in wages of 15 per cent is accepted. The purchases of lead and zinc ore in the Tri-State field for the last week in April were by far the largest reached this year. Seattle, Wash., May 4.—The unemployment situation has ceased to be a problem in the northwest because of seasonal demand for workers in basic industries of Washington and Alaska. There is

no oversupply of common labor, according to a statement today by the superintendent of the city employment bureau. The demand for skilled workers in the saw mills fully equals the supply and spring planting by the farmers has taken a large number of migratory workers out of the cities of the Pacific Northwest. The building crafts are working at smaller wages than last year and the outlook for building activities this summer is better than at any time since November, 1918.

Buying of new issues of investment securities is on a broader scale than ever. In many of the high grade issues, subscribers have had to be content with one-fourth of the amount they desire to purchase.

The wholesale dry goods trade for the first four months of this year shows gains of about 35 per cent in dollars over the business for the corresponding period of last year. Retailers are showing a desire to buy all staples close at home and collections have improved decidedly.

Business Topics

St. Paul, May 4.—Six motor bus

lines have consolidated here and opened a union passenger terminal in the business district. A similar unification has taken place in Minneapolis. These lines tap territory within 100 miles of the Twin-Cities with 50 buses carrying an average of 5,000 passengers daily. Motor freight lines are also operating joint terminals in both Minneapolis and St. Paul.

Cleveland, May 4.—The Detroit and Cleveland Navigation company has announced a reduction of 15 per cent in the freight rates on open automobiles and a cut of 25 per cent in the rates for closed cars. This brings the transportation charges back to pre-war levels, the navigation company asserts.

Pittsburgh, May 4.—Building permits issued in this city during April totaled 661, involving expenditure of \$2,137,510 as compared with 596, involving \$1,603,382 in the corresponding month last year. Of this amount 150 permits were for dwellings, involving \$1,203,965. A slight reduction is anticipated.

Commodity News

SHIRTS.
New York, May 4.—Manufacturers are expected to announce shirt prices for fall in the next few days. It is believed the regulars \$20 a

STRECKFUS STEAMBOAT LINE

dosen line will be dropped to \$13, allowing sales at \$3 each at retail.

WOOL.
Fort Worth, Texas, May 4.—Wool speculators are flocking into south and west Texas in an effort to buy wool on the sheep's back before clipping. This is taken by growers as an indication that the 1922 price will reach a high figure.

MILK.
Pittsburgh, May 4.—The price of milk in Pittsburgh will remain at 12 cents a quart and 7 1/2 cents a pint during May. In April the farmers will receive \$1.70 a hundred weight.

GROCERIES.
Pittsburgh, May 4.—Groceries and provisions are in a somewhat better demand. The improvement is to be noted more in staples than in fancy goods.

COAL.
Pittsburgh, May 4.—Fancy coke prices are reported in the open market. As high as \$6.50 has been

reported on foundry coke. Connelville coal is softer than a week ago, with prices at \$2.50 to \$2.75 for steam and about \$2.85 for by-product.

EGGS.
New York, May 4.—Eggs are coming into this city in large quantities and warehouses are receiving about 50,000 cases a day for storage.

LUMBER.
Minneapolis, May 4.—New building permits totaled \$5,662,220 here in April and \$5,039,291 in St. Paul. This activity has resulted in heavily increased sales of lumber and building materials with prices very firm.

DRYGOODS.
Fort Worth, Texas, May 4.—Will- ingness of dealers to place orders for future delivery is regarded as

an evidence of the return of price stability in this section. Collections are improving.

RACHERY.
Philadelphia, May 4.—In the last week the Baldwin Loco works have booked orders for \$2,000,000 worth of locomotives.

FRUIT.
New York, May 4.—A cargo of 20,000 cases of Chilean and Argentine grapes has just arrived here. These are from the autumn crop, that season now prevailing south of the equator.

SHOES.
Lynn, Mass., May 4.—Shoe manufacturers here have voted to close their factories, send no more orders to their making rooms until the wage controversy with the unions is settled. Manufacturers insist a cut in wages is necessary

if Lynn is to compete with western manufacturers.

STEEL.
Pittsburgh, May 4.—While nuts, bolts and rivets have advanced all are in substantial demand. Building operations are on a scale that encourages makers.

WORTSTEDS.
New York, May 4.—The advance in the price of worsteds by the American Woolen company averaging 10 to 20 cents a yard, but reaching 22 to 25 cents on some constructions is expected to be followed shortly by other manufacturers.

New Proof of Paige Speed Power Endurance

Paige 6-66 Daytona Model Travels 10 Miles at Rate of 93.2 Miles Per Hour

The Paige 6-66 Daytona Model is the holder of all world's stock chassis speed records from 5 to 100 miles. But now this record-breaking car has further demonstrated its ability.

Piloted by Earl Cooper, the Paige, in an unofficial exhibition run against time, covered 10 miles in 6 minutes and 26 1/2 seconds at the San Carlos, California track, on Sunday April 16th. It thus travelled at the terrific

speed of 93 1/2 miles per hour for the ten miles. The official record for the distance, held by this same stock chassis is 6:31:48, or 91 1/2 miles per hour. It was made at the Uniontown Speedway a year ago. Thus, once again, the Paige in the most spectacular manner has demonstrated its power and endurance. The Paige 6-66 is the Master of the Highway.
