COMPLETE WORK ON DRAFT; DRAWINGS TO BE MADE THIS WEEK

FINISHING TOUCHES BEING ADDED TO PRELIMINARIES IN ANTICIPATION OF LOTTERY—BOARDS NOW ORGANIZED.

Washington, D. C., July 5.—While officers in charge of the national lottery that will select the young men of eligible age for army service are waiting for an announcement of the date on which the drawing will take place, local exemption boards throughout the country are being formed. Boards for every community in the nation have been appointed. They are expected to be organized within a week.

The regulations for these boards provide for the making of duplicate copies of all cards coming within their jurisdiction within three days after each board organizes.

Reports that considerable delay is being caused by wholesale resignations for political reasons from local boards could not be confirmed here today, and it was asserted that every evidence shows the men appointed are responding willingly to the call for their services.

Post Drafted Names.

As the names of the men called for military service are drawn in the big lottery local boards will post those names and opposite the names they will post the "serial number" of each man called. The men will be known principally by their serial number, and this should be referred to in all cases where claim for exemption or discharge is filed.

These lists will be posted in the headquarters of the various boards, and a list will be made available for publication. Also every man whose name is drawn will be informed by mail at the address he gave on registration day that he has been called for service.

Unless the man who is called notifies his local board of his claim for exemption within ten days after the notification of his selection is mailed to him he will be considered fit for service and will be accepted if he passes the physical examination.

In all cases those who claim to be unfit for service will use the forms prepared by the war department. These forms can be secured from the local board.

Use Government Forms.

The headquarters of each board will be made public as soon as the boards have picked their offices. There will be 146 forms covering the grounds for exemption and discharge on which claims may be made. Every man called must use these forms, otherwise his claim will not be recognized.

Beginning next week it is expected the various exemption or discharge claim blanks will be available to the public. These blanks will show in detail the information and conditions that will be required in all claims for exemption.

BELIEVE STEFANSSON IS IN NORTHEAST PASSAGE.

Seattle, Wash., July 3.—Vilhjalmur Stefansson, at the head of a Canadian expedition, is now the only explorer in the arctic seas. It is believed that Stefansson and his twenty-four white men and nineteen Eskimos already are now heading eastward from Mer-ville island on board the motor vessel Polar Bear in an attempt to make the Northeast Passage from the Pacific to the Atlantic Ocean.

Stefansson and his expedition left Victoria, B. C., four years ago in the steam whaler Kariuk. At Nome, Alaska, the expedition was divided into northern and southern parties. Stefansson, on the Kariuk, taking command of the former, which was to seek new land north of the mouth of the Mackenzie River, and Dr. Rudolph M. Anderson, with two smaller vessels, proceeding toward the Coronation Gulf country, east of the Mackenzie delta, to study the blond Eskimos.

The Kariuk stopped at Point Barrow, the most northerly point of Alaska, early in September, 1913, and was at once clutched by the ice. On September 10 the ship was apparently frozen in for the winter, and Stefansson, accompanied by the white men and two Eskimos, went ashore to hunt caribou for winter meat.

While he was absent a violent storm arose and blew the Kariuk out to sea. The Kariuk was soon afterward again gripped by the ice and carried westward, being finally crushed by the ice January 16, 1914, east of Wrangell Island, which is north of Siberia. The men took to the ice, but became separated, and several were never seen again.

The others, under Captain Robert Bartlett, reached Wrangell Island, and eight men were rescued in September, 1914, by a vessel sent to the island for the purpose, Captain Bartlett having made his way over the ice to Siberia and Nome with news of the disaster.

Meanwhile Stefansson and his associates moved eastward along the shore of the Arctic and fell in with the Anderson party in Winter quarters at Martin Point, west of the mouth of the Mackenzie River. Stefansson and two companions set out in March, 1914, over the ice with dogs and made their way due north, discovering a large island or continent

OTTAWA RESIDENT GLADLY DISCLOSES THE FACTS OF CASE

MRS. ANNA BUELITZ WILLINGLY DESCRIBES REMARKABLE RELIEF SHE GAINED FROM TAN-LAC.

"I surely can heartily recommend Tanlac to everyone who suffers as I did, for this new medicine has done me more good than all the rest I've ever taken." Mrs. Anna Buelitz, well known Ottawa woman of Locust street, told the Tanlac man on June 16th.

"For several years," she continued, "stomach and kidney trouble have caused me much suffering. Nervousness added to my troubles, too. I was continually suffering with sharp, shooting pains in my back. I was so nervous I simply couldn't get a good night's rest. My appetite, too, was very poor. The little food I forced down didn't agree with me. Bloating and pains in my stomach invariably followed meals. Severe headaches, also, bothered me at times. I was usually constipated.

"I have just now finished my first bottle of Tanlac and I certainly do feel a lot better in every respect. My stomach and kidneys are working properly and I'm not nearly so nervous now. The headaches have ceased to occur and I sleep fine at night. I'm never bothered with the severe pains across my back any more either. My appetite is fine and everything I eat agrees with me perfectly. Yes, sir, I'm glad to recommend Tanlac."

Tanlac is especially beneficial for stomach, liver, and kidney trouble, catarrhal complaints, nervousness, sleeplessness, loss of appetite and the like.

Tanlac is now being introduced in Ottawa at W. D. Duncan's drug store, where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also is being introduced by experts in La Salle at Clancy's drug store and in Streator at the Gant Drug Co. and is sold in Peru at Nadler's Pharmacy, in Spring Valley at Thompson's drug store, in Oglesby at Bent's drug store and in Marseilles at Eugene Allen's.—Adv.

CLEVELAND PLANS FOR WOMEN CONDUCTORS.

Cleveland, O., July 3.—Definite plans already have been worked out to "man" the street cars of Cleveland with women conductors. Traction Commissioner Sanders said today there will be no women motormen for a while yet, but the fair conductresses will probably have charge of several lines before winter.

When women are put on cars the entire line will be feminized. A woman matron will have charge of the portions of the barns used by the women. Rest rooms will be provided. Shortage of labor calls for the woman conductor, said Sanders.

northwest of Prince Patrick Island and making a safe return to Banks Island.

Stefansson passed the Summers of 1915 and 1916 in exploring this new land, having established communication in 1915 with the Anderson party through the power boat Polar Bear, which had gone to Banksland with supplies. Stefansson purchased the Polar Bear and has since made it his headquarters.

In a letter to Rear Admiral Peary, dated Cape Kellett, Banks Island, January 11, 1916, Stefansson said:

"Should you not hear from us by November, 1917, it is to be presumed that something beyond our control has delayed us. I am of the opinion that in the Spring, 1918, a ship or ships should be sent north from the Atlantic to look for us if we have not been heard from then."

Fourteen men of the Canadian expedition have died from exposure, suicide and disease.

PUT CREAM IN NOSE AND STOP CATARRH
 Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable!

CRISIS OF WOMAN'S LIFE

Change Safely Passed by Taking Lydia E. Pinkham's Vegetable Compound.

Wagoner, Okla.—"I never get tired of praising Lydia E. Pinkham's Vegetable Compound because during change of life I was in bed two years and had two operations, but all the doctors and operations did me no good, and I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound which brought me out of it all right, so I am now well and do all my housework, besides working in my garden. Several of my neighbors have got well by taking Lydia E. Pinkham's Vegetable Compound."—Mrs. VIOLA FINICAL, Wagoner, Okla.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through the crisis.

With the Fingers!
Says Corns Lift Out
Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.

Every Family Should Continually Use Ice in the Home

It Promotes Economy, Comfort and Health

Ice is no longer a luxury but an absolute necessity for the health, comfort and satisfaction of the entire household. It lessens the cost of living because it eliminates waste by preserving the remnants of every meal. Milk, eggs, butter, fruits, vegetables, and all perishable food products may be kept wholesome, sweet and fresh by using a little ice. If you have no ice box see your dealer at once or the Ice Company will furnish you a common Sense Ice Chest at cost, together with a 500 lb. coupon book, all for \$6.85. Phone 94 at once and secure one of these chests or order one from one of our drivers.

Made in Ottawa

At a recent banquet given by business men in a city not far distant, considerable pride was taken in the fact that everything upon the banquet table was produced in that city.

The programs were home printed, the bread home made, the vegetables home grown, the meats from animals home raised, the beer home brewed. The "home industry" idea was practically and thoroughly worked out.

When you buy a glass of beer or have a case sent to your home, why not always order

SHABBONA BREW
OTTAWA BEER

The product of this city? No better beer is brewed anywhere than this excellent brand and it is produced by home labor. In using this beer you are helping, in a measure to build up Ottawa. Let us serve you.
