Augustana College Debating League Accepts Challenge From Galesburg.

WILL BE FIRST CONTEST

The new formed debating league at Augustana college yesterday afternoon decided to accept the challenge received from Lombard college recently for a debate between the two institutions this year.

DR. BARTZ MAKES

THE WEAK STRONG

To men who lack courage, whose nerves are unstrung, whose ideas are confused, sleep, restless, confidence gone, spirits low and easily depressed; who are backward, hesitating; who won't venture because they are afraid of failure; who want somebody to decide for them; who are weak, puny, restless, Dr. Bartz offers help, and the help he gives you cannot get from drugs or medicines.

The wonderful power of his Electrical Treatment in overcoming all these signs of nervous and physical breakdown has been proved to the world. Today there's scarcely a city, town or village within the radius of 50 miles of Rock Island where he can't show cures that he has made.

Free Treatment Notice. Owing to the large number of patients who have called upon Dr. Bartz an dwere utterly unable to see him on account of the great jam, he has, by special request, decided to continue giving all treatments entirely free of charge until cured to all invalids calling upon him during the rest of this month of November.

READ WHAT THE CURED SAY.

Now Feels Fine. Mr. A. Asplund, residing at 807 Twenty-ninth street, Rock Island, says: "For about 10 or 12 years I felt out of sorts due to a bowel complaint. It made me feel dizzy at times. Complicated with this unpleasant condition, I had tried several treatments previous to consulting Dr. Bartz but I never obtained any real satisfaction but since I commenced his treatment about two weeks ago I can truthfully say I am feeling fine, that tired wornout feeling which came over me so frequently has practically all left me."

Rheumatism Cured. Mrs. Gust Anderson, residing at 324 Fifth avenue, Moline, says: "I suffered intense rheumatic pains in my left hand for some time, the pain at times was so bad I could hardly use it. Realizing I would have to do something different from what I had been using I concluded to go and take treatment from Dr. Bartz in Rock Island. I am certainly pleased to think I did so, for in less than a week's course every particle of pain disappeared. I wish to furthermore state that Dr. Bartz's treatments are certainly fine."

debate will take place some time next spring. Plans for Debate with Bethany. Arrangements for the Bethany debate are now under way. The subject for debate has been submitted to Bethany and Augustana is now waiting to ascertain which side Bethany chooses.

says you can't handle the job. He's gone to change his clothes, and he'll be back in a minute to boss the job himself. "That was enough. The drunken foreman's rage was as fierce as one of his own furnaces now. "He has, has he?" he roared above the noise of the furnaces and the clanging steel. "If he comes in here I'll throw him in the furnace!" "I don't blame you," supplemented Pinckney. And Smith, seeing now the general manager was behind him in whatever he might attempt, was ready for desperate work.

"Here!" he shouted. "Take my signal whistle. I'll go over by the door and wait for that guy. When he shows up you signal the men to take out the gun."

"When he comes in!" exclaimed Pinckney, amazed. "How can you stop his seeing you?" The foreman laughed brutally, then stooping over, picked up from the floor a short piece of iron, already blood stained at one end. "O'Leary," he said briefly, and turning with the bar in his hand, lurched across, drunkenly confident, toward the path which Sommers must cross on his way in the office to the trap furnaces that contained the Sommers gun, now ready to be hoisted and transferred to the tempering bath.

Davenport, Iowa, Nov. 20, 1909.—To the Press and People of America: After more than 50,000 coal miners have sacrificed their life to satisfy the greed and criminal negligence of corporations, and the awful catastrophe at Cherry, Ill., with 300 men imprisoned three-quarters of a mile back under ground with no way of escape to be burned alive or suffocated, I want to ask the American people through the press of our country:
