BARCLAY BROS. are selling more of Simmons' Liver Regulator, at retail, than of all the others of that class of medicines put together. The reason of this is because all who try it recommend it to their friends.

We have been requested to say that Elliott & Haythorn have now on exhibition, and for sale, everything in the boot and shoe line for ladies, and gentlemen's wear; and that all their goods are new and stylish.

A HANDFUL.—A very small quantity of wood or coal, in a Charter Oak Stove will cook a plentiful meal for a small family; for its whole arrangement hot-air flues, oven, fire-box, damper, etc., is so planned as to save and apply all the heat generated directly to the cooking food, without permitting it to escape up the chimney.

SUCCESS is the best test of superiority; the wonderful demand for Simmons' Liver Regulator is one of the convincing proofs that this article is appreciated above everything else of the kind. However much its jealous defamers may throw their shafts, truth will prevail and so will this medicine.

FOR SALE.—The undersigned will sell at private sale the following described property: Four work horses; 2 sets double harness; 2 two-horse wagons; several plows and other agricultural implements. Parties desiring to purchase will call at her residence or at Robt. Brubaker's, opposite the court house. Terms of sale, half cash; balance on six month's credit, with good security.

PICNIC EXCURSION MAY 10.—The above named picnic is postponed until Wednesday, May 10th, on account of the wreck of the steamer Dunham, sunk near Little Rock, Arkansas, some six days ago. On the day named the excursion will take place according to the already published programme, when it will be much pleasanter for steambath and rural enjoyment.

BREVITIES.

James S. Morris was in the city yesterday on saw mill business.

Chief of Police Myers traced the meat thieves, who robbed Gayer & Co.'s smoke house on Thursday night, to the barracks.

The citizens—the public citizens—for which the contractor received several hundred dollars, how are they? will they hold water?

Wickwire will have his full force of brick-layers at work on the Bros. Halliday buildings next Monday, and will crowd the work through with all the expedition possible.

The negro who was severely injured by the bricks of the little house that fell on Thursday, is doing very well. She will not die. Luckily the bricks hit her on the head.

Moses Torrance, the Dinkle burglar, was taken before Bross yesterday, but called for a change of venue. The Judge, being a man of sound sense, sent the prisoner to McHale.

The public school library is entirely free from debt, thanks to the energy of Rev. U. H. Foote. The library now possesses several hundred volumes of valuable works and is now in charge of Mr. English, the very efficient superintendent of our public schools.

Judge Bross and Editor Davis locked horns on the railroad question at the post office the other evening. The debate was warm for a time, but the Prussian persistence of the Judge was a little too much for the Frenchified courtesy of the shining man of the Sun, and—well, the dispute ended in words, only words.

McHale, with his band of gallant chain-gangsters, has opened the ditch leading from the pond behind Williams' mill to the Thirty-second street sewer. Owing to the muddy condition of the ditch all the obstructions could not be removed; but, a very good job was done, considering the difficulties in the way.

Mr. Joseph Arnold, a man who makes his living by police business, and moves in a mysterious way, is an applicant for a position on the police force. Let the good people of the city ponder and become wrapped in wonder. A couple of years ago Joe would have filled the bill, but now—!

Holiday Brothers now receive the well-known Ohio river and Kanawha salt in bulk, and pack it here in the white wood flat-topped barrels, now being manufactured in this city, free from the dingy stains that spoil the beauty of the ordinary oak barrels used in salt packing. Salt in this new "cooperage" is much more desirable for the trade and commands higher prices than when packed in the old-style "cooperage."

A member of our distinguished County Court is reputed to have said that the court is indifferent to public criticisms and don't care a d—n for all the newspapers in the United States. If we were not fearful the expression might shock the honorable court and bring down on our head its high displeasure, we would gently assure it that if all the newspapers in the United States are like THE BULLETIN, all the newspapers in the United States don't care a d—n for the court. Even.

FITZGERALD'S SAMPLE ROOMS.—Persons bibulously inclined, lovers of the exhilarating juice of the corn and juice of the grape, or malt beverages, should call immediately at the sample rooms, on corner Commercial avenue and Fourteenth street. Besides everything in the drinking line, of the purest kind, he has the most fragrant Havana cigars, importations from Cuba, that land of narcotic weeds, and Fitzgerald keeps a first-class place, and fits with him Jimmy English, who knows everybody, and knows the wants of everybody and who is a gentleman, every inch of him.

PARTICULAR NOTICES.

To Those the Attention of the Public is Especially Invited.

New Barber Shop.—The razor is mightier than either the sword or pen, and Frederick Netzer handles his razor with more skill than William does his sword or Dickens his pen; and beyond all doubt, he has the most splendidly furnished shop in the city. He may be found near the corner of Ohio levee, on Eighth street, in the rear of the St. Nicholas Hotel. Give him a call. my24

Meats.—The branch meat shop of James Kynaston, located on Commercial avenue, next door to the grocery store of James Carroll, is now in full blast, and this popular butcher is supplying all the refined meat eaters of that portion of the Fourth Ward with splendid meat. If you have not tried him give him a call. if

Albs.—The barber shop of Wm. Albs, on Commercial avenue, near the corner of Eighth street, is the place to which all lovers of a good, close shave with razors sharper than the wit of twenty Jerrolds, wind their way.

St. NICHOLAS.—Day boarders can secure good accommodations at the St. Nicholas (formerly the St. James) at \$4 per week. The house is at the corner of Ohio levee and Eighth street, a central location, and is proprietor by Harry Walker, who is alive to the wants of his patrons. Parties desiring boarding and lodging can learn terms on inquiry at the office. may31d

THE CITY JAIL.

Proposed Additions and Repairs to the City Jail.

The City Jail, or calaboose, is not the most inviting habitation in the world, and until the present jailer took charge of it, was not far removed from the filthiness of a pig pen. Under McHale's care, however, it has been put into as good condition as possible, and its cleanliness is above reproach. But other reforms are needed—almost demanded as necessities.

In the first place, the jail is too small. There are only two cells and a hall, and into these cells and hall all the ordinance-breakers, male and female, drunk and sober, clean and dirty, voracious and lousy, decent and indecent are crowded. The consequence is, that discipline in the jail is maintained with great labor. The roughs go for the tender springs of sin, and the drunken men go for the mattresses and ruin them as rapidly as they can be purchased. What is most needed is a lock-up in which to confine the drunken fellows and thus prevent the destruction of property and preserve the "mugs" of non-combatant prisoners. The roof of the jail leaks badly and must be re-shingled. It is proposed, while doing this work, to add two additional cells. The following diagram will show the proposed improvement:

This shows the ground floor. The second story, which now contains but two small rooms and a very small kitchen, will also be enlarged by the addition, and thus be made a tolerable residence for human beings.

The cost of the proposed improvement will not exceed \$300.

THE BEST SEWING MACHINE.—At the annual exhibition of the New England Agricultural and Mechanical Society's Fair, held in Boston during the month of August, 1870, the Davis sewing machine was entered as a competitor on the list of double thread machines for manufacturing and family purposes. After a close test of one week on all the points of excellence claimed by other machines, it was awarded the first and highest premium—a gold medal. Also at the Michigan State Fair, held at Jackson Sept. 20 to 23, it was awarded the first premium—a gold medal—for the best double thread sewing machine for family use; also the first premium for the best double thread sewing machine for manufacturing purposes.

E. and W. BUDER, Agents for Southern Illinois.

THE FENTON CORN MILL.—This establishment, corner of Commercial avenue and Twentieth street, is now in charge of Mr. M. D. Gunter, who having purchased and thoroughly refitted it, invites the attention of the public to the fact that he is now prepared to furnish dealers and families with the very best article of corn meal. Orders left at the mill or sent through the postoffice will receive prompt attention.

MEAT THIEVES.—LOOK OUT FOR YOUR SMOKES HOUSES.—The meat thieves of the city—the rascals who must eat and won't work—have, if appearances are not very deceptive, an especial partiality for Gayer & Co., the proprietors of the People's Meat Market, at the corner of Tenth street. Not long ago, a well-posted thief unlocked the door at night, helped himself to what he wanted, and retired in good order, locking the door behind him. Then Gayer & Co. became very careful, and fell into the habit of locking their meat in a brick smoke house—locking the door with a padlock fastened to a staple. The thieves were equal to the emergency, and on Thursday night pulled a board off the fence, got through the hole, then pulled out the staple, and opened the door. It never struck Gayer & Co. that the padlock and staple were only slight impediments in the way of hungry meat thieves. At last reports the amount of meat gobbed by the staple pullers had not been definitely ascertained but it is a large amount. We would suggest to butchers who lock up meat in smoke houses that they should put the staples of the doors on the inside. Which is advice we give without money and without price.

REMOVAL.—Mrs. J. Cummings wishes to inform her customers and the public generally that she has removed her millinery goods from her store on Eighth street to the commodious room on Commercial Avenue, between Seventh and Eighth streets known as Mrs. Oswald's old stand. Mrs. Cummings has added largely to her stock of goods, and now has a cheap, reasonable and fashionable collection of hats, bonnets, ribbons, etc., to which she asks the attention of old and new patrons. m24d

SEWING MACHINES.—Attention of persons wishing a first-class sewing machine is called to the late improved Wheeler and Wilson's. They cannot be excelled for a family machine, or for light manufacturing purposes. All are invited to call and examine the improvements. J. C. CARSON, ap30d1m Agents, Cairo, Ill.

SPIRITUALISM.

Red Spirits and White, Black Spirits and Gray—Inspirational Spiritualism—Healing Spiritualism—Talking Spiritualism—Day Old Spiritualism—In the Sign of the Red Rag We Conquer.

A few months ago a peculiar craft might have been seen floating down the placid Ohio, flying at the pinnacle of a long pole fastened to the bow, a red rag—a nice red rag, that fluttered in the breeze and toyed in crimson glee—so to speak—with the breeze.

Silently the craft approached our wharf and was tied fast nearly opposite the box factory in the Fourth ward.

The man who tied this ark of a new doctrine was Doctor Lathrop, who is its owner, and the husband of Mrs. Lathrop, who cleaves to her husband on the river and off the river, in sunshine and in storm.

The Doctor soon became active in the noble work of healing the sick, and Joe Arnold, who is always on the lookout for soft snaps, had this great agent of civilization arrested on the charge of peddling without a license. But Joe will occasionally make a mistake, and in barking up the tree of the owner of the red rag, he fell into an egregious error. Lathrop was not a soft snap. He knew his business. He didn't know how to "come down" gracefully. Bross discharged him. Arnold had no case.

But to our story. Dr. Lathrop began at once to preach the doctrine of spiritualism, and hold his wife up as one of the greatly favored of the spirit land.

Converts gathered about the Red Rag and the cozy recesses of the Doctor's boat became the meeting place of the believers. And now "circles"—open to the public—are held on Tuesday and Thursday nights of each week.

Yesterday, the Doctor favored us with a call, and after indulging in a philippic against Joe Arnold, he branched out into a description of the powers of his gifted wife.

He said, among other things: "Mrs. L. is a medium through which the spirits of the great dead doctors of the past take great delight in communicating. She can, in short, an inspirational medium, reading cases without any previous information relative to them. Sir, she gives mystic power to every person who comes to the boat that flies the Red Rag at the mast head."

Now, here is the opportunity for the afflicted. Let the sick of the city—the lame, the halt and the blind—all flock to the Red Rag, and be cured by inspirational, Mrs. Lathrop. She is great.

TRUE.—There can be no doubt that Baugh is, in excellence, the best and shrewdest of Cairo. He challenges competition in his trade, and assures the public that he will guarantee to his customers satisfaction. His shop is on Eighth street near the corner of Ohio Levee. if

NOTHING venture, nothing have. Here is a chance to aid in a good cause and at the same time win a fortune. This legal enterprise in aid of a public library at Omaha is conducted by honorable men, in whom confidence can be placed. Buy a ticket and win that \$20,000. See advertisement. my24d1w

HOUSE MOVING.—James Kennedy is well-known in the city as a skillful mechanic. He has been absent from the city for several months, but has returned and is now seeking business in his line of work. He has all the necessary implements for moving houses of any size—from the smallest smoke house in the city to the custom house. He is also at the command of the public as a builder, and will do all kinds of repairing. We can recommend Kennedy as a gentleman in every way worthy of patronage. See his advertisement.

CAUGHT AT LAST.—Sometime ago a man named Moses Torrance was arrested for playing the confederate game on the steamer Eckert. The evidence was not sufficient and he was discharged. At that time Torrance was boarding with Henry Dinkle, who appeared to have considerable confidence in the rascal, his personal appearance being much in favor of the impression that he was strictly an honest man. After awhile Torrance left the city, but returned on Monday last. Chief of Police Myers "spotted" him as a dangerous character, notwithstanding his honest looks, and kept "an eye on him." Yesterday morning, about 1 o'clock, Myers saw Torrance enter Dinkle's house, and laid in wait for him. In about fifteen minutes, Torrance re-appeared and walked off, carrying a suspicious bundle. Myers followed and arrested his man, and found in his possession four bed spreads, valued at \$4 each, Dinkle's property. The honest-looking thief was locked up, and yesterday was brought before Esquire McHale who held him to answer in the sum of \$800. He is now in charge of the county jailer.

ADDITION TO THE CITY JAIL.—An addition to be built to the city jail—two new cells and a new roof over all. The proposed improvements are greatly needed. They will cost, according to an estimate made by a skillful carpenter, not to exceed one hundred and seventy dollars.

SEWING MACHINES.—Attention of persons wishing a first-class sewing machine is called to the late improved Wheeler and Wilson's. They cannot be excelled for a family machine, or for light manufacturing purposes. All are invited to call and examine the improvements. J. C. CARSON, ap30d1m Agents, Cairo, Ill.

THE ST. LOUIS LADIES' MAGAZINE.

We are indebted to Messrs. W. B. Rockwell & Co. for the initial number of this magazine. It is intended, says the editor, Mrs. Margaret L. Johnson, "to occupy a position in advance of the so-called 'Ladies' periodicals—both in breadth of scope and literary excellence." And this intention is well carried out in the number before us. Besides a fair amount of matter in the shape of stories, essays and poetry, it contains several well-written articles upon topics interesting to every woman in the West. Each number will contain an elegant fashion plate, patterns for embroidery, music, etc. Price twenty-five cents. For sale at Rockwell's.

ATTENTION, SIR KNIGHTS.—A regular convocation of Cairo Commandery No. 13, of Knights Templar, will be held at the Asylum, in the city of Cairo, this (Saturday) evening, May 6th, 1871, at 8 o'clock. Sojourning Sir Knights are courteously invited to attend. JAS. S. REARDEN, Recorder.

A CRASH.

The Downfall of a House—Four Negroes Injured.

Last night about eight o'clock a house on Washington Avenue, near Fourth street, fell to the ground with a crash. The building, constructed partly of brick, was occupied at the time by a negro family, four of whom were injured. An infant was entirely covered with brick bats but was rescued without even a scratch. A woman, who was sick and in bed, was badly hurt, and there is some doubt of her recovery.

The river continues to rise steadily.

The weather continues cloudy and disagreeably cold.

The river is still rising at St. Louis, but slowly. The Illinois and Missouri are about stationary.

The Ohio is rising at Pittsburg with six feet three inches in the channel, and coal men expected to start a tow out yesterday.

At Louisville the river is also rising with six feet eight inches in the chute.

A Louisville telegram enumerates the Chas. Bodman among the departures for Cincinnati.

The James Howard and Richmond for Memphis, are due to-day.

A dispatch from Davenport May 4th, says that: The St. Johns collided this morning about 9 o'clock with pier No. 3 of the new bridge, while trying to pass down. Both guards were crushed in and the boat was badly wrenched, displacing the boilers. A leak was sprung, but she was able to reach this wharf without dif-

iculty, where she was unloaded and repaired, which will take some days.

There was no change in the condition of business yesterday.

The Jno. Lumsden brought 19 bbls tobacco for the South and 17 thousand feet lumber, 20 thousand feet cedar posts for shipment to St. Louis.

The combination heretofore existing between the Lumsden, Tyson and Talisman, has been dissolved, and each boat now runs on its own hook. This change is indicative of an open warfare between the above named boats and the Nashville and Evansville packet Mallie Ragan, or not, we cannot say, yet it looks a good deal that way. That a change should have occurred just at the time when business is so very dull, and when a combination for self protection is most needed, seems to indicate that war has been declared, and, if so, we may look for lively times, low rates and a big haul up on the Cumberland in the course of time. Who'll be the unlucky one?

A telegram from New Orleans says that in the late storm on the lower Mississippi the Leonidas lost her chimney, escape pipes and wheel house. Pretty heavy loss for a steam wheel boat, and one which can never be repaired.

The Arkansas Bell is the Evansville packet this evening on arrival of the train.

The James Fisk, Jr., is the Paducah Packet.

The Jno. Lumsden is the Nashville packet, leaving this evening on arrival of the train.

Pauline Carroll discharged 700 bxs. of oranges and lemons for Chicago.
