LOCAL BREVITIES.

The present scholastic year of the Cairo public schools will close on the 23d day of June.

Chris Hanny will start East sometime during the present week for his second stock of Spring goods.

A number of workmen are putting heating apparatus in the new custom house building.

The trim little tug A. B. Safford has been re-inspected, and is now doing service in the fleet of the Cairo City Coal company.

The pupils of the Loretto academy will give a picnic on Monday next. It will be held in the beautiful groves in the rear of Mound City.

City Attorney Pope is discharging his duty in a fearless and conscientious manner, being no respecter of persons in his enforcement of the ordinances.

A public examination of all persons applying for teachers' certificates will be held, we hear, in this city, on Saturday next.

Remember the meeting of all Baptist people in Cairo, in the Presbyterian church to-night. The object is, the organization of a Baptist congregation.

There are five prisoners in the calaboose, viz: Three white men and two colored women. This is the smallest number that establishment has contained during the past three weeks.

The Springfielders intensify the interest of their picnics by a hot air balloon ascension. Peoria, not to be outdone, proposes to give interest to her picnics by a regular Mississippi steamboat explosion.

Another Talbot in the field declares that the solution to the cow problem given by A. Conings is incorrect; that the cow sold for \$31.25, and not \$36.25, and this he stands ready to verify.

Everybody will visit the Athenaeum to-morrow night. Alf Burnett, the renowned facial artist, the poet, reader and accomplished gentleman, forms the principal attraction.

Thomas Carleton was up before Shannessy this morning to accept the consequences of what the squire felicitously termed a "whisky fight." Fined \$5 and trimmings.

The enlargement of the calaboose, recently ordered by the council, has been commenced. It is the purpose to construct a cell for drunken prisoners, and to enlarge and improve the jailer's residence.

Burke, of the Elizabethtown Mineral has baptised Lusk, of the Shawneetown Mercury, with the heaviest discharge of bad English ever seen in an Egyptian newspaper.

The examination of the German school under Prof. Wirsching, will commence on Wednesday afternoon. Parents of the pupils and friends of the school are invited to attend. The exercises will be sufficiently varied to interest them.

An unusual press of job work, including the preparation of the State and county delinquent list for publication, necessitates the curtailment of our reading matter. The list will make its appearance next Thursday.

Sipe-water has commenced developing itself in the flats west of the Custom House. We mention this fact, not that it is of any consequence to Cairo, but to furnish our Paducah contemporaries something to "chirp" about.

An effort was made yesterday afternoon to raise the body of little Carl Thomas, drowned in the Ohio river last Friday, about two miles above Cairo. At the time of going to press we were not informed as to the result.

There was a shooting scrape in St. Louis, on Sunday night, between a lawyer and a doctor, both of whom, we infer, are late residents of Cairo. The lawyer shot the doctor in the side, and then, mounting a passing street car, disappeared.

The marked appreciation of county orders speaks well for the financial management of the County Court. The donation to the county of \$13,000 State taxes may have contributed something to that result, however.

The Springfield Atlas in an effort to ridicule the effort of Peoria to secure the removal of the capital, has resorted to an immense wood cut. The stupidity of the design is only equalled by the exultation of the designer over his imagined success.

The ladies of the Episcopal church will give a strawberry festival in Thornton's new building on Thursday evening next. The names of the ladies in charge furnish an ample guaranty of the complete success of the affair.

Mr. William Martin is making an assessment of the taxable property of Alexander county, for the tax levy of 1871. He has already devoted two or three weeks to the work; but the beginning of the end is not yet visible.

Lyman James' Fourth ward saloon was opened Saturday night with a grand free lunch, whereat there was an unusual flow of w. n. e. wit, wisdom and lager, and a hearty discussion of one of the finest reprints ever spread in the city.

John Scheel's Washington Hall garden den will be open in a few days, we understand, with a grand free lunch, ravishing music, and such a programme of amusements as was never before gratuitously tendered to the Cairo public.

We regret to hear of the continued illness of our friend of the Charleston Courier. He is suffering from a complication of diseases that would kill outright any man of less energy and determination, viz: Dropsy, consumption, dyspepsia and chronic diarrhoea.

A negro girl, named Harriet, excited to an unusual pitch of religious enthusiasm under the dripping of elder Shores' eloquence, indulged in a regular ranting "shout," ending the exercise by falling over a bench and breaking two or three of her ribs.

The Southern Hotel is now in charge of White and Linde. Watch is kept day and night for boat and train, and baggage is conveyed to the Hotel free of charge.

The proprietors are experienced and accommodating hotel-keepers and keep a well ordered and popular establishment.

A young man, of rather intelligent appearance, named J. Martin, was taken before Broas this morning charged with an attempt to steal a pair of shoes from Dan Hartman's auction room.

Dan detected the fellow in the act, and, very properly, gave him a good thumping. Martin was committed to jail for a further hearing.

A suit for breach of promise of marriage was tried at Metropolis last week. The plaintiff was a German girl named Katharine Nahanier and the defendant Geo. Mitchell, son of a wealthy farmer.

The jury gave a verdict for the plaintiff of \$2,000. Judge Green appeared for plaintiff and Judge Allen for defendant.

The government has purchased the steamer Try U for the use of the engineer corps now making a survey of the raging Wabash. The survey is preliminary to the removal of snags and sand bars from the channel of that stream, and to other much-needed and long-neglected improvements.

Messrs. Fish & Co. are placing machinery in the old South-western Furniture factory with a view of commencing immediately the manufacture of staves, headings, barrels and kegs on an extensive scale. It is said that when fully in operation the firm will give employment to forty or fifty hands.

We have heard two or three individuals who attended Madame Ferris' seances, pronounce her an unconscionable humbug. There is no denying the fact, however, that for "ways that are dark and tricks that are queer," the madame is not to be surpassed easily, notwithstanding her coarse and palpable ignorance.

Special attention is called to the new time table of the Illinois Central railroad. The arrival and departure of the transit steamer and the trains of the Mobile & Ohio railroad have been changed to correspond. Under the new arrangement two trains leave every day for St. Louis via the Short Line.

The Young Ladies Sodality will give a strawberry festival on Friday evening next, in that portion of Smyth & Co's block recently vacated by Alderman Fitzgerald. The young ladies have in view the purchase of a library, for the use of their society, and should be liberally encouraged in this, their first movement in that direction.

The Vincennes Sun, of the 12th inst., speaks of the departure from that city of Mr. James C. La Hue, ex-sheriff of Knox county, to take up a permanent residence in Cairo, Illinois. The Sun speaks of Mr. La Hue as an honest, amiable and excellent gentleman, and warmly commends him to the friendship of the people of Cairo.

The Kansas City Tribune presents as the dead body of the citizen always gets a free ride to the grave yard. Certainly, such "rides" are so rare here that we can afford to make them free. In Kansas City, however, they load daily trains with such passengers, compelling railroad companies to charge, or burst.

The caterpillars are making fearful inroads on the vegetation in Massac county. Many fruit and forest trees have been stripped of their foliage and stand as bare as in mid-winter. No effective, practical method for destroying these pests has yet been hit upon, and their vast number precludes all idea of their destruction save by heat, fumigation or smoke.

There seems to be no danger that some boys will not defy to enjoy the fun of swimming. The swift, muddy and chilly waters of the Ohio, the treacherous banks, and the penalties of the ordinances "in such cases made and provided" have no terrors for them. We anticipate as a result of this "devil-ma-carelessness" a local item, now and then, under the head of "Boy Drowned."

A negro woman named Ella Harris was on the rampage, on Poplar street this morning. Armed with that formidable weapon in the hands of an infuriated negro, the razor, she expressed a desire to separate the bronchial apparatus of another wench, who, nothing loth for a set-to, bared her black bosom and invited Ella to proceed to her work of blood-letting. Pacifators appeared on the ground at this juncture, and the affair ended as it had commenced, in horrid oaths and threatening gestures.

The combined strength of four men was employed this morning, in the work of conveying Georgiana Williams to the calaboose. The job was finally accomplished by one man seizing hold of each "corner" of the obstreperous female, and conveying her to the prison enclosure "spread-eagle fashion." At the onset, Georgiana dropped her dress in the street, and tried hard to divest herself of the only remaining garment, but the "posse" being composed of modest men, folled her purpose.

The editor of the Herald congratulates the people of Paducah over the consolidation of the New Orleans and Ohio and Mississippi River railroads, and predicts that the consolidation will speedily lead to the construction of a road from Paducah

to Vincennes. In view of this it is not pertinent to inquire if the state of affairs that caused the citizens of Paducah cause for congratulation is not in a great measure due to the action of the Alexander County Court in reference to the county subscription to the Cairo and Vincent railroad? We merely ask the question.

E. A. Parsons, the editor of the Bradford (Pa.) Argus, deprecates the depravity of Illinois law-makers. He says that during the recent session of our Legislature, a member entered the hall, bowed politely to the galleries and then drew a flask from his pocket and took a drink. Old acquaintances of Mr. P., living in Cairo, intimates that he, Mr. P., has undoubted talent in the same direction, and would not hesitate to drink to the procher "right out in meeting." Wherefore we insist that persons occupying glass mansions shouldn't have rocks around too promiscuously, lest they invite a missile that will render them houseless.

CITY SCRIP FOR SALE.—\$300 city scrip in small orders and on reasonable terms. Apply to JAMES QUINN.

NEXT MONDAY.—The "calico ball" at the St. Charles Hotel next Monday night is already exciting considerable talk among the young folks. It will be what its name implies—a calico ball—a reunion where there will be a freedom from that unpleasant restraint always gotten by rustling silks, glistening satins and flashing diamonds—a ball where every participant will "feel at home" and heartily enjoy himself. Invitations will be extended, we hear, to our neighbors in Mound City, Charleston and Columbus.

BURNSIDE.—A correspondent of the Cairo Courier demands that the Cairo and Vincennes railroad be wrested from the hands of Burnside, and given to parties who are willing to complete the work in two years. The wresting of property and franchise that are valued at a million of dollars, from their owner, might involve consequences that nobody would be willing to face, though stimulated never so strong a desire to serve the public. If Burnside is ever separated from the Cairo and Vincennes railroad project, the separation must be effected amicably, and not by force.

THE BOYS AND THE BAT.—The match game of base ball played by the Independents (down town) and the Atlantic (up town youngsters) was really well played and rather exciting. At the close of the fourth inning the Atlantics were sixteen runs ahead. At this point their pitcher left them and only one more inning was played. In this inning the Independents scored nineteen and the Atlantics only two, leaving the score at the close 57 to 56. It is due to the Independents to say that two or three members of their first nine were absent. The result not being satisfactory, a game for the championship will be played on the grounds of the Independents on next Saturday week.

Both clubs are composed of boys, aged from 11 to 15.

CHARLEY HARDY.—The Young Men's Dramatic Association have tendered a complimentary benefit to Charley Hardy. The time will be named hereafter. We hope the benefit will be a substantial one. Charley, in his particular sphere, has contributed not a little to the relief of the poor and destitute of our city. Through entertainments given by the Y. M. D. A. (of which association Charley is a member) the treasury of the Orphan Asylum has been repeatedly replenished, and at times when funds were much needed to provide for the comfort of the little ones charged to the care of that institution. We trust this fact will be remembered, and that the result of the benefit will assure Charley that "bread cast upon the waters will, after many days, return unto the caster"—or words of similar import.

AN ANIMATED COLLOQUY.—Georgiana Williams is a she devil. She visited the domical of a white bawd, named Martha Smith, yesterday morning, when the following colloquy ensued:

"Lem me in you—white hussy, or I'll bust your door down!"

"You bust my door down," replied the determined Martha, "and I'll out open your head with a tomahawk!"

"Yes," rejoined the sable Georgiana, "you draw a tomahawk, and I'll cut you into mince meat, you—," and with a surge, Georgiana broke the lower panels of the door into a hundred fragments. Martha, armed with a hatchet in hand stood ready to make good her threat, but at this juncture Ned Shannessy appeared, and, no doubt prevented bloodshed.

Two witnesses testified to the facts above stated, and Squire Shnessy imposed the "usual fine," \$5 and trimmings. Georgiana attempted to prove an alibi, but her witnesses most vehemently declared that they knew nothing at all about it. This resort failing, and Georgiana being short of funds, she was taken to the calaboose, screaming and fighting, and fully illustrating the poetically stated fact, that "Hell hath no fury like a woman 'corred."

FITZGERALD'S SAMPLE ROOMS.—Persons bibulously inclined, lovers of the exhilarating juice of the corn and juice of the grape, or malt beverages, should call immediately at the sample rooms, on corner Commercial avenue and Fourteenth street. Fitzgerald keeps a first-class place, and has with him Jimmy English, who knows every body, and knows the wants of everybody and who is a gentleman, every inch of him.

Gunter, who having purchased and thoroughly refitted it, invites the attention of the public to the fact that he is now prepared to furnish dealers and families with the very best article of corn meal. Orders left at the mill or sent through the postoffice will receive prompt attention. tf

TAKE NOTICE.—TIME TABLE OF THE ILLINOIS CENTRAL RAILROAD.—On and after Sunday, May 14th, 1871, the following time-table will govern the arrival and departure of passenger trains at Cairo: Depart—Mail train, daily, 11:45 p. m. Express, daily, 2:30 p. m. Arrive—Mail, daily, 3:30 a. m. Express, daily, except Sunday, 4:30 p. m.

RIVER NEWS. PORT LIST. ARRIVALS.

Table listing departures of steamers to Illinois, Columbus, and other locations, including ship names and agents.

The river has risen 4 inches in the past 24 hours but will probably come to a stand in a day or so.

The weather continues clear, and was very warm yesterday.

Halliday Bro's new tug, which we understand is to be named A. B. Safford, is a perfect little beauty, and performs in a manner entirely satisfactory to her owners. She is much smaller in many ways than the other tugs in the harbor and is intended for work which they are too clumsy to perform.

Capt. W. H. Farris has returned from St. Louis highly elated with the success which he met in his hollow grate bar enterprise, and the encouragement given him by all practice engineers who examined his drawings. Mr. Farris is now engaged in making a working model of his invention, and after it has been completed he will immediately introduce it to practice use. The principle upon which it works is this: The water taken from the lower part of the boiler passes through the bars, is there converted into steam and is then introduced into the upper part of the boiler ready for use. It is claimed to save fuel, to be vastly more safe, and in every way vastly superior to any thing yet invented.

The Mississippi is on a stand at St. Louis and the Illinois and upper Mississippi are falling.

The Ohio is falling at Louisville and above with 14 feet 6 inches in the chute over the falls.

The James Fisk, Jr. for Paducah, Quickstep for Evansville, Illinois for Columbus are the packets to-day, leaving on arrival of the train.
