CITY NEWS. BREVITIES. Allen has gone away.

—The collection of street-tax progresses like a crab—backward. So Supervisor Ward says.

—The soul of the juvenile editor of the Star was in news, yesterday, seeking a fray on Commercial avenue.

—The Catholic fair and festival at Mound City again to-night, and the tug Cache to conduct our citizens thither.

—The five hundred "glass" boxes which our friend Thornton advertises for sale are made of seasoned pine and make excellent kindling.

—It will be learned with profound regret that Prof. English, who occupied the position of principal of our public schools during the scholastic year past, was reported, at 9 o'clock last night, to be in a dying condition.

—The exposure to the sun to which Capt. Hamilton was subjected during a recent buggy ride from his home to this city, although entailing slight prostration, did not confine him within doors for any great length of time.

—There will be full moon in the first seven months of the present year. In July there will be two full moons, viz: on the 21st and 31st.

—If the lightnings the ancient Ajax defied were of the character which burst from their foul abodes, last night, to deal destruction hereabout, he was a maniac, whose valor was not tempered with reason.

—The Commercial avenue druggist who, upon being told that metals of all kinds attracted lightning, wanted to know if the melle of horseflesh was included.

—The Levee plank road, from Eighth to Fourth streets has been put in thorough repair by McHale and those unfortunate individuals who do penance for their public sins by laboring for the city for their board and lodging merely—terms which would soon drive "Chinese cheap labor," back to its own "Flowery Kingdom."

—The health of the signal station at this point is improving. If the parent station at Washington will send her assistance to watch the varying winds, the local station will soon be convalescent.

—Mr. Cal. Davidson has just returned from an extensive business trip through Ballard county. He found the planters and farmers in that section all alive to the growing importance of Cairo as a tobacco market.

—There is a hole in the Commercial avenue sidewalk, just above Brass building, which if not speedily repaired, will be taken advantage of by impudic pedestrians to lose a limb and find the legal damages usually assessed against corporations for their negligence in such matters.

—The "Owls" will give a grand performance at the Athenaeum to-night, previous to their departure for Nashville. They will be assisted by the members of the Young Men's Dramatic Association.

—A Chicago gentleman furnished the St. Louis Dispatch with the various titles of the beverages indulged in by the fast men of that city. They commence at 7 a.m. with an "eye opener"; 8 o'clock, "appetizer"; 9, "digestive"; 10, "beautifier"; 11, "big reposer"; 12, "stimulator"; 1 p.m., "ante-lunch"; 2 p.m., "settler"; and so on till the "night cap" at 1 a.m.

—White-law Reid, when he wrote of a religious academy as a well-deserving institution, and woke up next morning to find it in print as "hell-deserving," could not have been more astonished than ourselves, to find a "bibulous jury" appearing in a head-line as "Billious Judy," yesterday morning's BULLETIN.

—Hamilton's Buchu and Dandelion is fully as good and a much cheaper article as Helmbold's Buchu, and is as generally recommended by physicians.

ful mind, we did not indulge in profanity. But proceeding a little further down, we found the "affiant" in the case, dressed up in types as the "affidavit," and the way that printer made the "affidavit" swear to what it saw and heard would have lifted the eminent Grant White clear out of his philological boots.

—The upper part of the front weather-board on the house of widow Martin, on Eighth street, was shattered by a stroke of lightning, during the rain 'a' evening.
