THE BULLETIN.
BY TELEGRAPH
Reported especially for the Cairo Bulletin. Ten hours in advance of St. Louis papers.

NEW YORK.
GEN. McLELLAN AND THE COMPTROLLERSHIP—CONNELLY WON'T RETIRE—HIS NEW DEPUTY—REFUSED TO FILE HIS OATH.

THE COMPTROLLERSHIP.
NEW YORK, Sept. 18.—It is unknown yet whether General McClellan will accept the comptrollership.

CONNELLY.
is at his office today, and Green this morning formally entered upon his duties. An opinion is looked for today from the eminent lawyer, Chas. O'Connor, taking the view that while Connelly's course is sustained by the law, Hall's is not.

Connelly is in possession of his office, and will resist any attempt to oust him. Comptroller Connelly in reply to Hall's letter, denies the authority of the latter to exercise the power he attempts, and declares his determination not to retire.

ENTERED UPON HIS DUTIES.
Green, the new deputy comptroller, has just delivered to the committee of citizens and aldermen all the documents in the comptroller's office relating to in the investigation of the municipal accounts.

REFUSED.
Mayor Hall's clerk this morning refused to file the official oath of Green.

Twenty-one new cases of small-pox were reported in the city yesterday. The superintendent of public schools prohibits the attendance of children in whose families, or immediate vicinity, the disease has shown itself.

NEW YORK, Sept. 18—10 p.m.—The Herald, which was wholly silent upon the municipal situation yesterday, today pronounces in favor of Hall, and thinks the comptroller had better retire from his office.

The comptroller sent the mayor the following note at about 11:15 a.m.:
COMPTROLLER'S OFFICE, Sept. 18.
Hon. A. Oakes Hall, mayor.

My dear Sir:—I have read in the morning papers only your letter of this date, and beg leave thus promptly to inform you, that as advised, I have not either in fact or equivalent, resigned the office of comptroller of the city of New York. I deny the authority of the mayor to exercise the power attempted by you; and in partial support of denial I quote the words of your former communication:

"I, the mayor, cannot suspend any head of a department—not even pending an investigation. I can only refer charges to the common pleas judges, who alone can remove after a considerable time for trial."

My previously announced determination, not at present to retire from my official position, is still unchanged.

The following call was issued this p.m.:
The executive committee of seventy, appointed by the tax and citizen reform for financial reform in the city and county are requested to meet at the rooms of the chamber of commerce at 12 m. Tuesday, September 19, on business of special and immediate importance. Signed,
HENRY G. STEPHENS, Chm.
BARCLAY GALLAGHER, Asst. Sec'y.

THE ODD-FELLOWS.
THE SESSION OF THE GRAND LODGE AT CHICAGO.

NEARLY EVERY STATE IN THE UNION REPRESENTED.

CHICAGO, Sept. 18.—The Grand Lodge of Independent Order of Odd-Fellows of the United States commenced its annual session in this city today. Past Grand Master John G. Roberts, delivered the address of welcome, and responded to by Grand Sir Fred. D. Stuart.

To-morrow the grand procession of Odd-Fellows will pass through the streets, and promises to be the finest display of the kind ever witnessed.

The following states are represented: Maryland, Massachusetts, New York, Pennsylvania, District of Columbia, Delaware, Ohio, Louisiana, New Jersey, Kentucky, Virginia, Indiana, Mississippi, Missouri, Illinois, Connecticut, Texas, Tennessee, South Carolina, Alabama, North Carolina, Georgia, Maine, New Hampshire, Michigan, Wisconsin, Vermont, Iowa, Arkansas, Rhode Island, Florida, Minnesota, California, Colorado, Nevada, Idaho, Oregon, Kansas, Nebraska, and Oregon.

Delegates are also present from Ontario.

BUTLER.
SUMNER AND WILSON FERNET HIM.

BOSTON, Mass., Sept. 18.—The Advertiser to-morrow will have the following: "We have been authorized by Senator Sumner and Wilson to say that they deeply regret and deplore the extraordinary canvass which Gen. Butler has precipitated upon the commonwealth, and especially his attack upon the existing state government and the republican party of Massachusetts, and in their opinion his nomination as a candidate for governor would be hostile to the best interests of the commonwealth and of the republican party."

SAN FRANCISCO.

SAN FRANCISCO, Sept. 18.—Advice from Tucson, Arizona, of Sept. 9, report that Gen. Crook has made a treaty with the Chayello and Apaches, by which the latter agree to join forces with the whites in a campaign against the hostile Apaches. Another rumor says the chief Chio died from the effects of wounds received in a fight with Mexican troops in Sonora.

The Apaches have driven all the millers at Turkey creek into Prescott, and killed a man in Valle De Chino.

Gen. Crook is satisfied of his ability to conquer the Apaches if left alone.

WASHINGTON.
THE HODGE DEFALCATION CASE.
SET APART AS A RESERVATION
COLLECTOR OF CUSTOMS AT MOBILE.

WASHINGTON, September 18.—It is understood that the witnesses in the Hodge defalcation case will be summoned before the grand jury to-morrow.

The valley of Tallahassee, twenty miles wide and thirty long, has been set apart as a reservation for southern roving Apache Indians.

The committee appointed by the commissioner of patents to examine the testimony and listen to the defense in the case of M. G. Norton, suspended from practice in the patent office for irregularities in the prosecution of claims, have just rendered their report, which is adverse to Norton.

A. E. Buck, a member of congress from Alabama, has been appointed collector of customs at Mobile.

FOREIGN NEWS.
ENGLAND.
DEMONSTRATION POSTPONED.

LONDON, September 18.—The proposed demonstration in favor of the strikers has been postponed. Foreign workmen are daily arriving at Newcastle and Gateshead. At a mass meeting of workmen at Newcastle, yesterday, it was resolved to continue the strike.

THE RUSSIAN PRESS ON PRUSSIA.
The Russian press is generally vigorous in its attacks upon Prussia.

QUEEN TO MEET DR. LIVINGSTONE.
Advice from Zanzibar announce the receipt of positive intelligence of the safety of Dr. Livingstone. A party of Americans are hurrying to his rescue.

THE WAR WITH COREA.
A dispatch from Shanghai says that the French diplomatic representative has received a telegram from his government directing him to make common cause with the Americans in the war with Corea.

STEAMSHIP ARRIVALS.
The steamships Paraguay and Idaho touched at Malta, and proceeded to Liverpool.

FRANCE.
ELECTION.
PARIS, September 18.—It is rumored that an election for council general will be held in October.

DISARMAMENT.
The disarmament of the national guard is progressing quietly.

MORTUARY.
The mortality in Paris last week was about one hundred less than that of the previous week.

FIRST ANNIVERSARY.
It is said the republicans are preparing for a grand manifestation on the 26th instant, the first anniversary of the occupation of the city of Rome by Italian troops, but no disorder is apprehended.

TAXES.
It is semi-officially stated that the deficiency in the revenue for the present year will probably be covered without the imposition of any new taxes.

It is rumored that Lonsay has resigned his seat in the assembly.

A serious railroad accident occurred today at Champaign. Five persons were killed and a large number wounded.

GEN. CHONGARNIER, who has been very ill, has recovered.

A dispatch from Marcellus says the Governor has been summoned to Versailles to consult with them on the question of the disarmament of the national guards in the department Brouches and Rhone.

CHARLESTON.
CHARLESTON, S. C., September 18.—The colored lieutenant governor of South Carolina and chairman of the republican state executive committee, has published a letter in the News, strongly opposing the proposed declaration of martial law. He thinks the civil power is amply sufficient to repress all existing disorder, and that martial law is a remedy would be worse than the disease.

One death from yellow fever has occurred during the past 24 hours.

BOSTON.
CORNER STONE CEREMONIES.

BOSTON, Sept. 18.—At noon to-day business was generally suspended, and flags displayed on public and private buildings to show the public interest in the formal laying of the corner stone of the soldier's and sailor's monument on Boston Common.

MASONIC.

BALTIMORE, September 18.—Several thousand Knight Templars from Kansas, Ohio, Pennsylvania, New York, New Jersey, Maryland, Wisconsin, Iowa, Mississippi, Tennessee, Illinois, Kentucky, Louisiana and other states, have arrived to attend the Grand Conclave Commandery of the United States and Royal Arch Chapter of the United States, which commences its session to-morrow.

ST. LOUIS.
STEAMER COMMONWEALTH PARTLY DESTROYED BY FIRE.

ST. LOUIS, Sept. 18.—The Texas and a portion of the cabin of the steamer Commonwealth, lying at the East St. Louis landing, was burned this morning. Loss not known.

CHASE.
CLEVELAND, O., September 18.—Chief Justice Chase arrived in this city this evening and is the guest of Col. R. Charlson. He goes east to-morrow.

WEATHER REPORT.

WASHINGTON, D. C., Sept. 18.—The highest barometer has extended eastward over the middle and eastern states, but has fallen during the day, and is now central in Delaware. A small area of low pressure has advanced over Minnesota, south-eastward to the northern part of Lake Michigan, with brisk winds circulating in a small area around it, which amounted to a northeast gale during the night. On Lakes Michigan and Huron light north-west winds with rising barometer. In the northeast cloudy weather has prevailed from Maine to Virginia, and also in southern Indiana and the gulf states until this afternoon, when cloudy weather is now reported with occasional local rains.

The barometer has risen at the Rocky Mountains and Pacific stations.

PROBABILITIES.
The barometer will probably fall very generally on the lower lakes and Atlantic coast, and the disturbance on Lake Michigan will move eastward, extending into the middle states. On Tuesday cloudy weather with occasional light rains is probable for the southern and gulf states. Rising barometer with clearing temperature is probable on the upper lakes. Brisk winds on the lower lakes to-night and Tuesday morning.

MARKETS BY TELEGRAPH.
NEW YORK.
NEW YORK, September 18.
GOLD—Steady at 113.
GOVERNMENTS—Steady and dull.
MONEY—Continues plenty.

The Ohio at this port is still falling.

and since last report has fallen two inches. The Mississippi is stationary. From parties who went down Sunday on a tour of inspection to Bacon Rock we learn that there is but 24 inches water on the rock. There is considerable difference of opinion as to whether it is the Hindoo or Bacon Rock, but parties who are old steamboatmen and who have resided in our city for the past sixteen years, say it is the rock that the Henry D. Bacon struck when she was sunk, and since that time it has been known as the Bacon rock.

There is an obstruction, supposed to be an old coal barge, about 200 feet abreast of the slough below the coal yard, which lies in the channel and has been hit by several boats during the last few days. Captain Al. Harmon went down Sunday and put a buoy on it. He reports only 4 1/2 feet on the wreck.

Business on the landing was good. Freights are plenty and are moving forward rapidly. Weather cool and hazy. There was a heavy fog on the Mississippi during Sunday night.

The Dick Johnson arrived with a fair trip for the South.

The Dictator had a tow of empty barges for Grand Tower.

The Indiana departed Sunday afternoon for New Orleans with a good trip of freight and passengers. She took in tow an empty barge to be used as a lighter in case she grounds.

The Mollie Ragon brought down a fair trip of reshipping freight.

The Bee, from New Orleans, had a tow of barges.

The Belle Memphis arrived 36 hours behind time, caused by having to lay up at night and sounding all the crossings.

The Tom Jasper was aground at Powers Island. She reports that as being the worst place in the river. She could find but 4 feet 5 inches there with a stick. She had to lighten before she could cross Liberty Island.

The Colorado was several hours behind time, having layed by both nights out. She received considerable freight here for Vicksburg and way.

The James Fisk brought 14 bbls of apples, 324 sacks corn, 63 bales hay and 179 bbls. flour for New Orleans, and 300 bbls. staves and 13 sacks cabbage for this city. Capt. Smedley who has been in command of her since she has been in the trade has resigned his position and is succeeded by Capt. Joe Fowler of Paducah. Capt. Fowler is well-known along the river, and liked by all who know him for his many gentlemanly qualities, and he will no doubt win fresh laurels for the Fisk.

The Southwestern came out with a light trip but fills out here with all the freight she wants.

The Julia was so unfortunate as to hit the rock in the mouth of the Ohio, breaking about 40 timbers. She blew a signal of distress and the tug Montauk, ever ready in time of need, went to her assistance and pulled her off. The damages were not serious and she proceeded on her way.

The A. Baker, from Cape Girardeau, had a medium trip. She worked 24 hours at the Emille La Barge, aground at Brooks, and when she left was still hard aground.

It was reported yesterday that the C. B. Church, bound down, had run into the bank at Twin Sisters, during Sunday night, and had damaged herself, but to what extent is not known.

That ar Umpire, Commodore Hughes' inflated flagship, will depart for Louisville to-day at 4 p.m. The Gray Eagle still commands. Old Whee-we still gables and Conversation Tommy is master of the forecastle. We commend this craft and refer the upward-bound to Jim Biggs, her special river agent, *satis dictum*.

The following remarkable run of the steamer Katie is taken from the New Orleans Times, 13th: "Captain White of the steamer Katie having yesterday completed the general rejuvenation of his steamer, invited a few of his friends for a short excursion up the river. Backing out from the foot of Jackson street, where she had been lying, she proceeded down the river about the distance of a square, whence she started up stream. Passing the elevator, the starting point, the time was noted to be 10:38. Carrollton wharf was passed at 10:55, at 11:25 she reached Harry Hill's Gate and passed Elkhorn Landing at 11:29. Making the entire run in 5 1/2 minutes. The result was most astonishing to Captain White and his friends as in view of the fact that the wind we feel should be hardly hoped to equal the average time made by the fast ones. Of course the friends of the steamer are jubilant over her performance and confident that she can do better. The distance and time made were as follows: From St. Mary's Market to elevator, 2 miles, time allowed, 7 1/2 minutes; from elevator to Carrollton, 7 miles, 17 min; from Carrollton to Hill's Gate, 7 miles, 23 min; from Hill's Gate to Elkhorn landing, 2 miles. Time, from St. Mary's Market to Elkhorn landing, 18 miles, 59 minutes.

Captain J. H. Maratta has purchased the steamer Tobe Hurt for \$6,500. He will run her in the Sabine river.

The La Crosse Democrat reports "the water so low in the Mississippi river that steamboats have to keep whistling to keep cows out of the channel. Many captains are having cow-catchers put on their boats." We suppose that the next move will be to put drivers under the hull and call them first-class dining and sleeping cars.
