"It is not time, then, to talk about rights or wrongs or grievances," said Doctor Carver. "Our one inquiry should be what ought we to do in this crisis..."

"It is not simply the people of England and France and Italy who are calling for your wheat. It is democracy itself whose life is at stake..."

"Such as was left to be said of war conditions, Henry J. Allen brought home to the delegates in his story of the 'Universal Service' thru the Red Cross..."

Nor did Allen's speech meet with a less enthusiastic reception than any of his previous Topeka speeches on the war condition...

In the closing sessions of the war conference, a definite and comprehensive program for the mobilization of youth men from the public schools was worked out...

THE WEEKS WAR REVIEW

WRITTEN FOR THE TOPEKA STATE JOURNAL BY IMRI ZUMWALT

No Peace in Sight.

Apparently the cover has been set carefully clamped down again on the boiling pot in Germany and Hindenburg and Ludendorff are sitting on the lid...

It is now a fact of history that Russia actually had Japan at her mercy at the moment when she was signing a treaty of peace that left her enemy undisputed victor...

After the battle of Mukden, in which the Japs had defeated the Russian armies, the two hostile forces lay facing each other in comparative inactivity...

In the case of Japan the bluff worked and won the war. These facts are by no means unfamiliar to the German high command...

The Kaiser and Hindenburgs and Ludendorffs have nothing to gain and everything to lose by accepting the allied peace terms...

MUST FIGHT ON!

"People Must Either Go On or Go Under"—Lloyd George.

Germany's Only Peace Answer Is From Cannon's Mouth.

London, Jan. 19.—Premier Lloyd George addressing the labor delegates Friday, said no man standing on the watch tower could deny the urgency of the need for raising more men...

Mr. Lloyd George said that he and President Wilson, without previous consultation—there was no opportunity—had laid down in substance the same program of demands for the termination of the war...

Continuing the premier said: "Our channel ports are not far from the hands of the enemy unless we are prepared to stand up to the people who are dominating Germany, Britain, British democracy, French democracy and the democracy of Europe will be at the mercy of the most cruel military autocracy the world has ever seen..."

When the German forces struck a tremendous counter blow at the base of the British salient on its south side and drove a small wedge even thru the original British line at that point, it became necessary for General Byng to withdraw his forces from their most advanced positions in order to prevent their entire envelopment...

Another map accompanying this review shows the Russian territory demanded by the Germans and the outline of the independent Poland demanded by President Wilson in his peace terms...

"Why?" asked the premier. "Because the Prussian military power is dominant. The answer to be given will be given from the cannon's mouth..."

"Many men here can find an honorable and equitable way out of this conflict without fighting it thru," the premier continued. "Let him tell it. My conviction is that the people must either go on, or go under..."
