A WHITE ELEPHANT.

What Disposition to Make of Gerónimo and his Bloody Band of Murderers

Puzzling the Minds of Civil and Military Officers of the Country.

Bradstreet's Business Bulletin Gives an Encouraging Outlook for all Lines of Trade.

Announced that Secretary Bayard Demands the Abrogation of Certain Mexican Laws.

An Unusually Full Chapter of Casualties and Crimes, Outrages and Lynchings Reported.

Weather Report. WASHINGTON, Sept. 11, 1 a. m.—Indications for Kansas and Missouri: Fair weather generally, slightly warmer, variable winds.

CAPITAL BUDGET.

A WHITE ELEPHANT?

WASHINGTON, D. C., Sept. 10.—General Drum, acting secretary of war, has given instructions that Gerónimo, Natchez and other hostiles who surrendered with them be stopped at San Antonio, and kept in prison there till a determination is reached as to what course of proceedings will be undertaken against them. It is officially known that the United States has not without conditions, but what the conditions were is beyond agreement. They should not be surrendered for trial in Arizona. It is not yet reported that it was in compliance with the condition that General Miles started with the hostiles for Florida. Determination of course procedure will probably be made by the president, but not till the terms of surrender and all the attendant circumstances shall be officially known. With present knowledge it seems probable that the offenders can neither be tried by court martial nor by the civil authorities, but may be tried by the Modes, very by military commission. This is a tribunal for which there are many well recognized precedents in our own history, though it is one which has as yet no recognition in statutory law. The atrocities of these prisoners, terrible as they are, are not sufficient to justify such a tribunal, but the military commission which seems to be intermediate between a court martial and a tribunal of judge lynch, and which is recognized by publicists as a necessary under certain circumstances is, perhaps, the only court by which justice could be meted out to those who will readily betray Gerónimo and other leaders to their own necks.

THE POPULAR DEMAND.

The Army and Navy Register to-morrow will say: If public opinion and that of the army has any weight in deciding the fate of Gerónimo and his murderous band, they will be tried by a military commission, speedily constituted and executed without undue delay. There is a precedent for such treatment of military prisoners, in the case of the trial by military commission of the Sioux after the Minnesota massacre in 1862. Five hundred of the prisoners were then put on trial, 390 of whom were found guilty of murder and thirty-eight were hanged. Every one of the band was a prisoner of war at the time of his capture from the San Carlos reservation. They had been placed there by General Crook and were given the liberty of the reservation on condition of not leaving it. They broke this promise and used their privileges to escape in order again to take the war path. They are paroled prisoners, taken rashly in the act of war and should suffer the punishment adjudged by the law of war to such acts of treachery.

TO BE TRIED.

Col. Charles S. Stewart, the senior colonel of engineers in the army, has formerly applied to be placed on the retired list. He is now 67 years of age, and instead of awaiting until April 11, 1887, when he would be retired for age, he is stationed at San Francisco.

Must be Made Explicit.

NEW YORK, Sept. 10.—A Washington special says: The secretary of state, notwithstanding the release of Cutting, will, it is said, insist upon the abrogation of article 186 of the Mexican penal code, which confers upon Mexican courts jurisdiction over certain circumstances over foreigners for offenses committed outside of Mexican territory; or at least Mr. Bayard will insist upon the renunciation by Mexico of the right to subject American citizens to that code, on the ground that American courts have exclusive criminal jurisdiction over offenses committed within the territory of the United States by Mexican citizens.

Up in a Balloon, Boys.

CHICAGO, Sept. 10.—The Times Crawfordville, Ind., special says: Miss Lulu Baur, of Cincinnati, made an ascension in a gas balloon from the fair grounds to-day and came near losing her life. When five miles north and a half mile above the earth she attempted to descend. The grappling hook caught, but the anchorage was broken by a strong wind which carried her among some trees where the balloon was torn. The hooks gave away again and she shot up three hundred feet, when the balloon suddenly burst and the basket descended like lightning. She had the presence of mind to brace herself firmly against the top of the basket and thus saved her life. She was badly jarred, however.

Go, and Stand Not.

AUGUSTA, Ga., Sept. 10.—Notice has been served upon the operatives occupying houses owned by the Augusta factories that they must vacate at once, as the houses are wanted for operatives who are going to work. During the lockout the operatives have been allowed to occupy the houses belonging to the factories without paying rent.

Indiana Corn Crops.

INDIANAPOLIS, Ind., Sept. 10.—Returns to the state statistician indicate the crop in Indiana will be about 130,000,000 bushels; 10,000,000 more bushels than 1885.

Hutchinson Happenings.

Special Dispatch to the Daily Eagle. HUTCHINSON, Kan., Sept. 10.—Gentle showers last night cooled the atmosphere nicely and put the land in good condition for fall wheat sowing.

The special pavement provided and tested here is a miserable failure. P. C. Smith of Topka will have to do better work if he expects other cities to use his artificial streets and sidewalks.

The bridge of the Wichita and Colorado railroad across the Arkansas river at this place was completed today so that trains can cross.

The new depot for this road will be ready for business in a day or two.

Real estate is booming and rapidly changing hands.

The game of base ball today between the Maroons of Emporia and the Hutchinson Reds resulted in a score of 9 to 3 in favor of the latter club. W. B. H.

Bradstreet's Business Bull.

NEW YORK, Sept. 10.—Dispatches to Bradstreet this week from the leading trade centers of the country, indicate a general improvement in the state of trade. The losses of recent weeks regarding fall trade are being made good. The western cities generally report trade brisk in large volume.

Chicago sends word of a general hardening of prices and increasing demand since last report.

A marked improvement in the jobbing trade is noted at Detroit.

At Louisville trade shows a distinct gain over preceding weeks and a spirited revival is reported from the preceding year.

Kansas City telegraphs increasing activity with a more liberal movement than for many weeks.

At Pittsburg and other points further east trade has been halting measurably, owing to the unseasonable hot weather.

The bank clearings of thirty cities for this week amounted to \$778,497,214, as compared with \$754,099,692 last week. The decline last week from the total of the preceding week was 48.10 per cent, and this week the increase is 31.5 per cent.

The New York stock markets show a firmer tone consequent upon improvement in earnings and a prospect that the granger roads will form a harmonious pool speculation until the close of the week was slack, but transactions in stocks amounted to \$59,000,000 shares, against \$63,000,000 shares last week. Bonds were a little more active, transactions in them amounted to \$3,490,000, par value, against \$4,869,000 last week.

Money is much easier, call loans being quoted at from 4 to 5 per cent, and some instance of lower rates are noted.

Time loans are up from 4 to 6 per cent, and commercial paper is firm.

Foreign exchange shows a tendency to stiffer rates.

The earnings of forty-four railroads throughout the country for August gives \$17,984,988, against \$15,557,000 in August, 1885.

The New York cotton market has been dull and prices slightly weaker. The report of the national cotton exchange places the crops of 1886 at 6,575,000 bales, against a crop of 5,706,000 bales last year. The total home consumption of cotton for the year was the largest ever known.

Drygoods commission houses at Boston report a fair amount of business doing; prices are firm with occasional advances, while the mills are actively employed. Consumption keeps even pace with production.

In the east the inquiry for crude iron is moderate. St. Louis telegraphs that an increased volume of iron is reaching consumption.

The domestic wheat markets have been without marked activity.

Important and Far-Reaching.

CHICAGO, Sept. 10.—The western railway general managers after a three day session, succeeded today in reaching a basis of compromise and reorganizing the western association. The two prominent obstacles have been the refusal of the Chicago and Northwestern to pool their range cattle business originating in western Nebraska and Wyoming, and the demand of the Missouri Pacific that by reason of its Lincoln, Neb., extension it should be awarded a share of the through business. The first was settled by virtually conceding to the Northwestern its point. This was done by removing the eastern boundary of the range cattle business to the Missouri Pacific, which it will exercise locally, running north and south through Valentine, Brady Island and Indianola Neb., to Laramie City and Douglas. This gives the Northwestern control of all the cattle shipped on its line west of Norfolk to Fort Fetterman, from which it will exact local rates and not report the business to any pool. As both the Union Pacific and Burlington are building into that territory, it will not enjoy the monopoly longer than the present season.

The other bone of contention was amicably divided by giving the Missouri Pacific 4 per cent in the pool on the through business, and awarding the Omaha 2 per cent. The Kansas City, St. Joe & Council Bluffs is awarded 6 per cent of the gross earnings in the Council Bluffs local pool, otherwise the percentages remain unchanged. A committee of one from each road was appointed to perfect the minor details of the pool, to report to the general meeting at 11 a. m. tomorrow, to which time adjournment was taken. The pool which will endure five years will go into effect September 15th, with J. N. Fairbank as commissioner. This completes one of the most important and far reaching railroad combinations ever made in the west.

The Fleecy Staple.

NEW ORLEANS, Sept. 10.—The National Cotton exchange report made up by C. P. Parker, secretary, for the month of August based on full returns from all parts of the cotton belt, says: In contradistinction to last year, cotton this season had not nearly so good a start, and low averages prevailed during the early months. Except west of Mississippi and in Tennessee, but in the Atlantic states and nearly all the territory east of Mississippi there has been an improvement during the whole of August, and the fruiting season has shown an advance instead of retrogression. Within this area, however, the crop is generally late and therefore more exposed to any future unfavorable influence. On the other hand in the former high rated states of Texas and Arkansas and portions of Louisiana, the plant has suffered from lack of sufficient moisture, hill and prairie lands being of course the most seriously affected, and sheathing has been general taking all together, however, the loss on one side has been more than counter balanced by the gain on the other and the general condition of the crops is improved.

The Georgia Method.

WAT-CROSS, Ga., Sept. 10.—Near Crown's turpentine still, in this county Wednesday afternoon, three negroes seized Miss Williams, a pretty 18-year-old girl daughter of a prosperous planter, as she was passing along the road, kept on assaulting her. Miss Williams screamed and resisted so valiantly that two assailants fled. The third, however, was more desperate and threw her to the ground. At this point her cries attracted the attention of Mr. Warren and at his approach the remaining negro fled. Mr. Warren pursued, and after a chase of a mile and a half through a swampy brook and overpowered him after a desperate hand-to-hand struggle. Having been led back to the scene of the crime and identified, the negro was hung to a convenient tree and left swinging until this morning. Two more necks will be stretched if his companions are caught.

A Mongrel Mess.

ST. LOUIS, Sept. 10.—The Knights of Labor and members of the Central Labor Union and other labor organizations of this city have combined under the name of the United Labor party and will hold a convention on October 7th for the purpose of nominating a full city, congressional and legislative ticket. Their central committee has recently been in conference with the Greenback committee and an alliance with them will probably be formed. Prominent Knights of Labor say that the new party will have the balance of power in the coming elections and if they cannot elect their own candidates they can elect those of either opposing party as they wish.

Never Runs Smoothly.

CINCINNATI, Ohio, Sept. 10.—Golden Smith, son of Judge Fayette Smith, attempted to kill himself at his father's residence in Avondale yesterday. He has been in school until this summer, when he went into business at Cincinnati, Ohio. Night before last he came home and seemed much depressed. Yesterday morning after breakfast the family was startled by the report of a pistol coming from his room. When they opened the door he was found lying on the floor with the revolver by his side. Physicians have since hoped for his recovery.

Quarrel with a Young Lady to Whom he was paying attention is supposed to be the cause.

MAUD SEYMOUR, the colored girl from Atchison who disappeared here yesterday, was heard from at Winchester, Kan., today. She took the wrong train by mistake.

Failure—Found—Postponed.

KANSAS CITY, Sept. 10.—Several attachment suits have been brought against William Hillebe, tobacco jobber of 423 Delaware street. His liabilities are estimated at \$30,000, which he considers are covered by property. He is endeavoring to effect a settlement.

Maud Seymour, the colored girl from Atchison who disappeared here yesterday, was heard from at Winchester, Kan., today. She took the wrong train by mistake.

It is probable that the trial of the Wyandotte train wreckers will be postponed until the December term of court, an agreement to that effect having been made by opposing counsel.

A Cholera Scare.

TAUNTON, Mass., Sept. 10.—A singular case is puzzling the doctors. Miss Minnie Clark was taken sick suddenly Tuesday night and died Wednesday night. The symptoms were somewhat puzzling, and after her death Dr. Jones of the state board of health called in. He is in doubt, but said that if there was a single case of Asiatic cholera anywhere about he should call this a genuine case. In the meantime he will see that every precautionary measure is taken in case it is cholera. Medical friends here are saying that he refused to say anything about the matter.

Strike Against a Snub.

NEW YORK, Sept. 10.—The clothing cutters in thirty of the shops went out on a strike to-day again, and the grievances complained of are the same as last time, being discrimination against them (an union men) ordering the men to renounce the union and compelling them to work more hours per day than the rules of the union allow.

The arbitration committee of assembly 49, K. of L., visited a number of the manufacturing to-day to confer with them on the subject of the grievances, but no settlement was effected.

A Long Suit Ended.

PITTSBURGH, Pa., Sept. 10.—The litigation pending for the last six years between Jacob Rose of this city, inventor of the basic steel process, limited, which has prevented the use of the basic steel process in the United States, owing to an injunction obtained by the Bessemer Steel company, has been decided by the master, who orders the injunction dissolved, and the bill dismissed at the cost of the Bessemer Steel company.

Well Done, Etc.

NEW YORK, Sept. 10.—At a meeting of the St. Joseph & Grand Island railroad held today, Charles Francis Adams was elected chairman of the board, James Benedict, president, Sidney Dillon, vice-president, Henry McFarland, treasurer, and Alexander Miller, secretary. The only change was the election of Sidney Dillon vice-president in place of Elisha Atkins declined. Action on the extensions was deferred for future consideration.

Dun's Statement.

NEW YORK, Sept. 10.—Business failures the last seven days throughout the country, as reported to R. B. Law & Co., for the United States, number 149, number for Canada 29, a total of 178, as compared with a total of 190 last week and 301 the week previous to last. Casualties are fewer in every section of the United States, but in Canada they keep fully up to the average.

Quake on the Slope.

SAN FRANCISCO, Cal., Sept. 10.—Capt. W. E. Phipps, of the steamer Mary D. Hume, reports while sixteen miles north-west of Point Reyes yesterday nine distinct shocks of earthquakes were felt. The vibrations were from north of east to south of west. They were felt in San Francisco county.

No Afterclaps.

MONTREAL, Ont., Sept. 10.—Judge Taschereau has decided that guarantee companies are not liable for the amount of their guarantees in cases of defalcation, unless served with notice of such defalcation immediately upon its being discovered.

G. A. R. State Reunion.

ABILENE, Sept. 10.—Department Commander C. J. McDavitt has ordered a state reunion of the G. A. R. of Kansas at Emporia, commencing October 5, to continue four days.

The Empire State O. K.

SANDY HOOK, N. J., Sept. 10.—The steamer Empire State was hauled off during the night and towed to New York, her fire having been blown in order to prevent an accident by fire.

Arkansas Democrats.

LITTLE ROCK, Ark., Sept. 10.—Poin-dexter Dunn was renominated for congress by Democrats of the First district.

CONTINENTAL EUROPE.

The Bulgarian Coup the Occasion of Intriguing and Counter-Plotting.

Officers of the Bulgarian Army Avow Loyalty to Prince Alexander.

Russia Graciously Announces that She will Exert Her Influence for Peace in Bulgaria.

The Russian Bear and Chinese Shout Lie Down Together in Peace—Same Old Story.

Horrible Massacre of Christians in Tonquin—Indescribable Suffering—Thousands Starving.

OVER THE OCEAN.

Russia.

ST. PETERSBURG, Sept. 10.—The Novoe Vremya says of all the signers to the Berlin treaty England alone appears inclined to oppose Russia's Bulgarian policy, and Russia must know whether England's intention is serious in order to prepare herself to take measures accordingly, as Russia will not be brought to a standstill by England's veto.

The Journal De St. Petersburg says Alexander's proclamation of departure contains mention of alleged Russian assurances given to him. For reasons useless to discuss Russia could not make any engagement with Alexander. In view however of the party struggle in Bulgaria and the agitation of the public mind which the proclamation caused, Russian agents in Bulgaria have been instructed to inform the Bulgarian people that Russia is disposed to exert her influence to establish party concord and restore quiet. Russia will not withhold her support from any legally constituted provisional government guided by non-partisan interests and conducted for the general welfare. Russia is willing to apply herself to the task of removing dissensions, from the painful consequences of which Bulgaria has already suffered too much. Russia hopes the Bulgarian nation and her representatives will be able to appreciate these counsels and act accordingly.

Darmstadt, Sept. 10.—Prince Alexander has arrived here. He was received by the secretary of the English legation and the burgomaster and at once proceeded to Jagenheim, his father's residence.

VIENNA, Sept. 10.—The Neue Freie Presse published a dispatch from Sofia which states that officers of the Bulgarian army stationed there met yesterday and adopted resolutions pledging themselves in fervent loyalty to Alexander, and expressing themselves as confident that he would return to Bulgaria. The dispatch further says a major and two captains of the 10th regiment, supported by the soldiers of the regiment, joined in a plot to prevent Alexander from leaving Bulgaria. The leaders in this conspiracy, the Neue Freie Presse adds were placed under arrest, and were released after their departure.

The Fremdenblatt says the newspapers which speak of incorporating Russia and Bulgaria, reflect only Russian Pan Slavist aspirations. Insinuations that Austria would participate in any intrigue connected with the Bulgarian question, especially having for its object the reopening of the question of annexation of Bosnia and Herzegovina, are wholly baseless.

England.

LONDON, Sept. 10.—The Hamburg-American line steamer Lesing which left Hamburg September 5th for New York was towed into Queenstown disabled. She had lost her propeller in a gale.

Prince Henry, of Hohenberg, husband of Princess Beatrice and brother of Prince Alexander, left Balmoral castle for Darmstadt. He intends to bring Prince Alexander to Balmoral. The statement that he had written a letter to King Edward, in which he intimated against performing any more evictive duty after returning from Woodford is pronounced untrue.

A leading weekly grain circular says: The prospects of the British crops are not improving and heavy rains have fallen, depressing the harvest and depreciating the quality and condition.

By an explosion in a colliery near Bristol to-day, seven persons were killed and ten injured.

Mrs. Erdely, the best southerner on the Berlin stage, has committed suicide with a revolver.

France.

PARIS, Sept. 10.—Marquis Iseing, Chinese ambassador, stated in an interview that the Russo-Chinese difficulty has vanished.

The Universe publishes a telegram from the bishop of Tonquin saying that one hundred Christians have been massacred and forty villages burned in the province of Malcha, and 9,000 Christians are perishing of hunger.

Italy.

ROME, Sept. 8.—Cholera returns for Italy since the last report are as follows: Puglia 213, new cases 11, deaths, Ferrara 16 new cases, 7 deaths. All of the infected districts, 49 new cases, 20 deaths.

Auspicious Opening.

LAWRENCE, Kan., Sept. 10.—Hon. T. Dwight Thatcher, of Topeka, delivered the address before a large and appreciative audience of students and citizens on the occasion of the opening of the fall term at the state university. His theme was "The Duty of the Students in a State Institution."

An unusually large number of new students have entered this university from other colleges entering the freshman and higher classes. An enrollment considerably larger than that of last year will undoubtedly be reached. The outlook is most encouraging.

Liquor the Cause.

GARDEN CITY, Sept. 10.—Word has just reached here of the murder Thursday night of a young man named Samuels by a soldier, name not learned, at Fargo springs, Seward county. The cause was a quarrel brought on by drink. Samuels died this morning. The murderer has been arrested.

A Fatal Fall.

HUTCHINSON, Kan., Sept. 10.—A special from Laredo says: A derrick at the water works fell this afternoon, instantly killing Chas. Chittenden, a painter and Ed. O'Neil, formerly proprietor of the Diamond house. Kingman. They fell thirty-five feet.

ALL THE WORLD AKIN.

Generous Benevolence to Prostrate Charleston Brings Forth Grateful Responses.

CHARLESTON, S. C., Sept. 10.—The night passed quietly. There were no shocks in the city, and with the appearance of the sun this morning were renewed signs of activity in the work of removing debris and in increased disposition on the part of the people to return to their houses.

Mayor Courtenay has sent the following telegram to-day: Hon. W. W. Corcoran, Washington, D. C. Five thousand dollars received. Only the loftiest sense of duty and citizenship could prompt your noble deeds. Charleston with one voice honors the American citizen who ever rises to the height of his privilege, and of whose bounty it may truly be said, "There is no winter in it." (Signed) W. A. COURTENAY, Mayor.

The rains of yesterday have just begun to effect the shattered walls. Several fell today.

Three slight shocks were felt in Sumnerville today.

Relief committees are at work distributing both provisions and money, and their chief concern is to prevent the falling of relief to unworthy persons.

Two hundred and ninety tents were received today from the governor of New Jersey. They were accompanied by his private secretary and an officer of the quartermaster's department.

One hundred and sixty-six tents have also been shipped from Ohio.

The committee with many thanks to the American people, authorize this statement: that they have tents enough to meet the pressing needs. No shock have been felt today and the streets are now unusually lively.

CHARLESTON, S. C., Sept. 10.—Not much is stirring to-day beyond the evidence everywhere of putting things in shape again. The board of survey is busy at work and has recommended that several buildings be pulled down. There is little room for doubt that the injury to the city will exceed the estimate of \$5,000,000, as every day develops damages previously unknown. The relief committee has opened a registry of mechanics desiring employment where citizens can communicate with them and make engagements.

BALTIMORE'S RESPONSE.

BALTIMORE, Sept. 10.—The Charleston relief fund tonight amounted to \$27,000, and is still growing. Cardinal Gibbons has issued a circular letter to the clergy of the country, ordering the taking up of a collection in the Catholic churches on the twenty-sixth for the same cause, and the Sisters of Mercy in this city have signified their willingness to assume charge of twenty-six orphans if necessary.

A Distressing Finale.

LACUYNE, Kan., Sept. 10.—The previously pleasant and successful fair held in this city closed this afternoon with a tragedy. As the last race was in progress Grant Ogden, aged about 20 years, while intoxicated, in a blustering manner accosted a stranger, Doc Weatherman, for a bet. After a few words Ogden drew his revolver, firing at Weatherman, who was not hit, but the bullet took effect in the skull of Chas. Smith, a carpenter, age thirty years, living a few miles west of Lacuyne. Ogden then fired a second shot into the crowd which took effect in the thigh of Rice Hungerford, jr., of the firm of Hungerford Bros. & Harman, aged about 23 years, who was here visiting.

Both Smith and Hungerford are most estimable men, and while seriously injured, it is not thought that either will die, but public indignation is so strong against Ogden that mob violence is apprehended. He is under arrest.

Last night, near Jingo, Miami county, Lane Massey, age about 35 years, attacked Wm. Williams, age about 40, because of a report that he had made objectionable statements about his wife. Williams was badly cut about the right breast and lung and the muscles of the left arm severed. He is in a serious condition.

The Races.

NEW YORK, Sept. 10.—First race at the Brooklyn jockey club course, for all ages, five furlongs, Princess won by a neck, Mute second, Mena third, time 1:02 1/2.

Second race—One and one-eighth miles. Tornado won by three-quarters of a length, Ada D second, Calhoun third, time 1:58.

Third race—For two year olds, three quarters of a mile. Ititilla won by two lengths, Fendon second, Maggie Mitchell third, time 1:17.

Fourth race—One and one-eighth mile. O'Fallon won by four lengths, Lily H. 2d, Saxony 3d, time 1:58 1/4.

Fifth race—For two year olds, three quarters of a mile. Ititilla won by ten lengths, Fendon second, Maggie Mitchell third, time 1:17.

Sixth race—Seven-eighths of a mile. Bonnie B. won by one and one-half lengths, Tellee Dec 2d, Fern 3d, time 1:30.
