## WENT TO JAIL FOR LOVE.

Woman Takes All the Blame for a Murder Her Fiancee Committed.

The supreme court of Mexico has asked President Diaz to pardon Maria Montesillos, who, some time ago, was sentenced to 20 years' imprisonment in Belem jail for a murder she never committed. The crime for which she is suffering punishment was the killing of Pascual Montafio, in a family quarrel. Miss Montesillos' lover, Piquito Torres, was the real murderer, but because she loved him Maria was willing to take the penalty. She took all the blame for the murder and during the preliminary inquiry by the third criminal judge, and afterward at the trial by jury, stoutly maintained that she, and she alone, was responsible for the death of Montafio, whom she had killed, she said, to free herself from his constant courtship and dishonorable propositions. Torres, therefore, got off scot free, and the woman, as the murder was considered to have been committed under aggravated circumstances, was sentenced to 20 years in prison, a sentence which she cheerfully accepted. But Torres, when he got out, was unfaithful, and jealousy then proved too much for Maria when she learned of this. She presented the clearest proof that she was innocent and Torres guilty, and showed letters from him to that effect. Her first attempt to secure relief was made before the superior tribunal and was unsuccessful, but the supreme court has just set aside that decision and asked President Diaz to grant her freedom.

## SHED THEIR TEETH.

A Peculiarity About the Muskellunge Fish.

A few weeks ago I advanced what was to me the curious information regarding the shedding of its teeth by the muskellunge during the summer months, says a writer in Forest and Stream. I now have confirmation on the matter advanced at that by Mr. H. L. Stanton, of Chicago, and I believe the phenomenon properly to be regarded as established. Mr. Stanton's observations were made in Wisconsin, and his original informant had seen the phenomenon in Canada. Now comes Mr. H. G. McCartney, of Chicago, who has observed the same thing in the waters of Cass and Itasca counties of Minnesota. Mr. McCartney says that last spring in May and June the teeth of all the muskellunge taken in Woman lake and adjacent waters were sound and normal. On July 10 he examined fish which showed jaws red and inflamed, and with some of the teeth missing. In August still more teeth were found to be absent in specimens examined. In late August and in September it was the rule that no teeth at all would be found in the mouths of the muskellunge taken. The muskellunge taken in October all showed perfect teeth. Mr. McCartney intends to keep a record on this matter next year. He does not know whether the teeth are shed yearly or not, but knows that they are shed sometimes.

It has been calculated that a gold coin passes from one person to another 2,000,000,000 times before the stamp or impression upon it becomes obliterated by friction, while a silver coin changes about 3,250,000,000 times before it becomes entirely effaced.

## THE AMERICAN MONTHLY REVIEW

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

**AN ACCIDENT.**  
It was upon the third of March  
While doing chores in town,  
I accidentally stubbed my toe,  
And nearly tumbled down,  
I had two pails of water when  
I tripped and took a jolt  
Which dashed the water from my pails  
Against a high bred colt.  
The colt sprang forward, then  
Kicked back,  
With strong and cruel blow;  
That hit me square on my right leg,  
And hurt me some I know;  
For when they took me to my home  
I found, oh! very soon  
I could not step nor dance a jig,  
One leg was not in tune.  
—C. P. Wells.
