Second Manager—No; but we had a long walk.

HIS HANDS CRACKED OPEN

"I am a man seventy years old. My hands were very sore and cracked open on the insides for over a year with large sores. They would crack open and bleed, itch, burn and ache so that I could not sleep and could do but little work. They were so bad that I could not dress myself in the morning. They would bleed and the blood dropped on the floor. I called on two doctors, but they did me no good. I got the Cuticura Soap and Cuticura Ointment. About a year ago my daughter got a cake of Cuticura Soap and one box of Cuticura Ointment and in one week from the time I began to use them my hands were all healed up and they have not been a mite sore since. I would not be without the Cuticura Remedies."
"They also cured a bad sore on the hand of one of my neighbor's children, and they think very highly of the Cuticura Remedies. John W. Hasty, So. Ettingham, N. H., Mar. 5 and Apr. 11, '09."

An Eternal Reason.
"You seem to be awfully bitter against old Husbey. What's the cause?"
"Oh, a money reason."
"I didn't know you had any business dealings with him."
"I don't. I hate him because he has more money than I have."—Cleveland Plain Dealer.

TO PROBE BIG COTTON DEALS

ATTORNEY GENERAL WICKERSHAM ORDERS INQUIRY.

INVESTIGATION UNPRECEDENT

James A. Patten, Frank B. Haynes, William P. Brown and Eugene Scales Have Been Named by Popular Gossip.

Chicago, Ill.—There will be started in New York tomorrow a federal investigation without precedent in this country. The attorney general of the United States has ordered an inquiry into the gigantic bull movement in cotton with which the names of James A. Patten of Chicago, Frank B. Haynes, William P. Brown of New Orleans, and Eugene Scales of Texas have been popularly connected.

Haynes and Brown both appear as defendants in the proceedings, but it could not be learned whether Mr. Patten will be subpoenaed at Chicago to come here and testify. He has been generally credited, however, with being the financial genius of the pool and in recent interviews he has outlined his bullish position and his determination to fight the supposed bear clique which has been reshipping cotton to this country from England in an endeavor to break the market.

The bull movement has reached such a stage, however, that there are rumors of a possible May corner in the New York market. Never before has the government brought similar action against a pool operating in the market on either the long or the short side. Meager were the details of the proposed inquiry available today. Subpoenas were issued at the direction of Mr. Wickersham commanding a dozen or more brokers to appear before a federal grand jury tomorrow to testify against Frank B. Haynes and Wm. P. Brown.

Announcement of the government's action was followed by an excited break in prices on the New York exchange which at one time bid fair to rise in almost as great a demoralization as that noted last January. Early in April the market had a severe break under heavy liquidation, and at that time there were rumors circulating that the bulls were abandoning their position, but a considerable recovery in prices since then suggested the selling had been largely in the way of outside liquidation and during the last week or ten days there have been renewed rumors of an impending squeeze. The position in the near month, at any rate, has led to heavy shipments of cotton to New York for delivery on contract and the arrivals reported today are in excess of 23,000 bales, including nearly 14,000 bales from Liverpool, while the stock of cotton available for delivery on contract has already increased from about 87,000 bales to 120,000 bales.

Suffragists Plea Goes to Congress.
Washington.—With banners afloat, fiery a-flutter and occupying a procession of taxicabs nearly a mile long, the suffragists in convention here moved on Capitol hill today and presented to congress 400,000 individual demands for votes for women. The mammoth national petition was divided into little ones, each tied with a bit of yellow ribbon and grouped into little bundles of just the convenient size for a suffragette to carry under her arm.

SENATOR ALDRICH WILL RETIRE
Announces That He Will Not Be Candidate for Re-Election.
Washington, D. C.—United States Senator Nelson W. Aldrich of Rhode Island has authorized the announcement that he would not be a candidate for re-election to the senate, and that he would positively retire at the expiration of his present term on March 3, 1911. This announcement was made to a representative of the Associated Press, who met the senator upon his return to Washington from Rhode Island, where he had been in consultation with his political associates.

"I have decided not to be a candidate again," said the senator. "Since something of my plans have leaked out already I would be glad to have you make that statement. I had not intended to say anything for a few days, as I would have preferred to apprise my friends in Washington of my plans personally, but I suppose it is just as well as it is."

Publicity Bill Passes.
Washington, D. C.—With Representative Mann of Illinois alone voting in the negative, the house today passed the McCall campaign publicity bill. Only a short time was required to pass the measure. Speaking in opposition to the bill, Mr. Mann declared like the Sherman anti-trust act, it would be found that the bill's provisions would far exceed the purposes of its advocates.

TO WELCOME ROOSEVELT.
Rough Riders to Convene at New York at Home Coming.
Oklahoma City, Okla.—An official call for the reunion of the Roosevelt Rough Riders at New York from June 16 to 20 has been issued. The chief object of the reunion is to welcome home Colonel Roosevelt. Regimental association officers are to be elected. Circulars giving complete information have been mailed to each member of the regiment and the attendance is expected to establish a record.

GERMANY AND CANADIAN WHEAT
LOOKS TO THE CANADIAN WEST FOR HER SUPPLY.

A dispatch from Winnipeg, Manitoba, dated March 18, 1910 says: That Germany is "anxious to secure a share of Canadian wheat to supply her imports of that cereal." The recent adjustment of the trade relations with Germany has made it possible to carry on a Canadian-German trade with much fewer restrictions than in the past, and considerable development of trade between the two countries is now certain. The great men of the United States are alive to the wheat situation in this country now, and there is consequently the deepest interest in every feature that will tend to increase and conserve the wheat supply. With its present 650,000,000 bushel production of wheat and all efforts to increase it almost unavailing, and the rapidly growing consumption of its increasing population, there is certainly the greatest reason for the anxiety as to where the wheat is to come from that will feed the nation. The United States will be forced as Germany is to look to the wheatfields of Canada. One province alone raised last year one-eighth as much as the entire production of the United States, and but a twelfth of the wheat area has yet been touched. The Americans who have gone to Canada, are to-day reaping the benefit of the demand for Canadian wheat and they will continue to join in the benefits thus reached for a great many years. Splendid yields are reported from the farms of that country, and from land that the Government gives away in 160 acre blocks, and from other lands that have been purchased at from \$12 to \$15 an acre. John Munter, near Eyebrow, Saskatchewan, a former resident of Minnesota says:

"Last fall got over 30 bushels of wheat to the acre and had 20 acres of it; also 20 acres spring breaking on which I had flax of which I got almost 20 bushels per acre. Had 20 acres in oats and got 70 bushels per acre and 500 bushels potatoes on one and three quarter acre, and can therefore safely say that I had a fine crop and am well satisfied with my homestead." He is considered but a small farmer, but he will be one of the big farmers, some of these days. There are many others, hundreds of others, whose yields were beyond this, and whose average under crop was vastly greater. The story of the experience of American farmers in the Canadian West is a long one. The time to go, would appear to be now, when splendid selections may be made, and where land can be purchased at prices that will be doubled in a couple of years.

Where She Scored.
Sheldon Kerruish tells this story on his esteemed father:
"One day a long time ago, a number of children in our neighborhood were talking about the bad habits of their parents."
"My father smokes 15 cigars a day," said a little girl, boastfully like.
"My father swears something awful when supper is late," said another.
"My papa came home tight the other night," remarked a third.
"It was my little sister's turn next."
"You just ought to see my papa read Cicero," she said, and all the other little girls retired in confusion, gladly admitting that sister had won the prize."—Cleveland Leader.

The Irish of Shakespeare.
An Englishman and an Irishman were having an argument on the subject of Shakespeare. "I defy you," said the former, "to find a single Irish character in the whole of his works."
"Well, I can give you two, at all events," replied the Irishman. "Miss O'Phelia and Corry O'lanus." He forgot Hamlet's intimate friend, who stood beside him while he was contemplating his uncle in devotion, and observed: "Now, would I do it, Pat, while he is praying."—Springfield Republican.

O, Those Tears.
"So you are going to marry Mr. Glimson?" smiles the first fair young lady.
"I was engaged to him last year. He positively wept when I broke the engagement."
"I know he did," answers the other beautiful creature. "He told me that he wept for joy."

MISCHIEF MAKER
A Surprise in Brooklyn.
An adult's food that can save a baby proves itself to be nourishing and easily digested and good for big and little folks. A Brooklyn man says: "When baby was about eleven months old he began to grow thin and pale. This was, at first, attributed to the heat and the fact that his teeth were coming, but, in reality, the poor little thing was starving, his mother's milk not being sufficient nourishment." "One day after he had cried bitterly for an hour, I suggested that my wife try him on Grape-Nuts. She soaked two teaspoonfuls in a saucer with a little sugar and warm milk. This baby ate so ravenously that she fixed a second which he likewise finished. "It was not many days before he forgot all about being nursed, and has since lived almost exclusively on Grape-Nuts. Today the boy is strong and robust, and as cute a mischief-maker as a thirteen months old baby is expected to be."

"We have not before him other foods, but he will have none of them, evidently preferring to stick to that which did him so much good—his old friend Grape-Nuts."
"Use this letter any way you wish, for my wife and I can never praise Grape-Nuts enough after the brightness it has brought to our household."
Grape-Nuts is not made for a baby food, but experience with thousands of babies shows it to be among the best. It not entirely the best in use. Being a scientific preparation of Nature's grains, it is equally effective as a body and brain builder for grown-ups.

Read the little book, "The Road to Wellville," in pkg. "There's a Reason." Ever read the above mentioned book? One appears from time to time. They are genuine, true, and full of human interest.

NEW THEORY IS RAPIDLY SPREADING OVER COUNTRY

L. T. Cooper's theory concerning the human stomach, which he claims to prove, with his new medicine, is being given more respect and comment every day.

Cooper claims that 90 per cent. of all ill health is due to stomach trouble. When interviewed about his theory recently, he said: "Stomach trouble is the great curse of the 20th century so far as the civilized races are concerned. Practically all of the chronic ill health of this generation is caused by abnormal stomachic conditions. In earlier days, when the human race was closer to nature, and men and women worked all day out of doors, digging their frugal existence from the soil, the tired, droopy, half-sick people that are now so common, did not exist. "To be sure, there was sickness in those days, but it was of a virulent character, and only temporary. There was none of this half-sick condition all the time with which so many are afflicted nowadays."

"I know positively that every bit of this chronic ill health is caused by stomach trouble. The human stomach in civilized people today is degenerated. It lacks tone and strength. This weakness has gradually come through a sedentary existence. I further know that few people can be sick with the digestive apparatus in perfect shape. The sole reason for my success is because my New Discovery medicine tones the stomach up to required strength in about six weeks' time. That is why I have had more people come and thank me wherever I have gone to introduce my medicine, than I have had time to talk with."

Among the immense numbers of people who are now strong believers in Cooper's theory and medicine is Mrs. M. E. Delano, a prominent resident of the suburb of Brookline, Boston, Mass. She says: "For several years I was broken in health, caused primarily by stomach and nerve troubles. I gradually became worse, until recently I was compelled to go without solid food for days at a time. I had sour stomach, palpitation of the nerves of stomach and heart, dyspepsia, and extreme nervousness. I suffered terribly with insomnia, and my liver, bowels and whole system gradually became deranged. I felt instant relief the first day I began this Cooper medicine. I now feel like a new being. Today I walked all over town, shopping—something I have not done for years."

"I make this statement wholly from a sense of duty. I feel I owe it to anyone who might find relief and renewed happiness as I have done."
Cooper's New Discovery is sold by all druggists. If your druggist cannot supply you, we will forward you the name of a druggist in your city who will. Don't accept "something just as good."—The Cooper Medicine Co., Dayton, Ohio.

HIS DESIRE.

Head of Trust (paying exorbitant fare to cab-driver)—Here is your fare, and may I ask if you think you could get me a similar job?

DOWNWARD COURSE.

Kidney Troubles Grow Worse Every Year.
Charles S. Bailey, 898 Locust St., Yankton, S. Dak., says: "I suffered agony from kidney complaint and was almost helpless. The disease grew worse each year although I doctored and used many remedies. There were excruciating pains in my back and the urine passed too freely. Doan's Kidney Pills gradually helped me and soon I was cured. Some years ago I recommended them and have had no trouble since."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.
Nearly the Same.
"Would it be policy for me to get married?"
"Something like policy. It's a lottery, you know."—Cleveland Leader.

Important to Mothers.
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson*. In Use For Over 30 Years. The Kind You Have Always Bought.

Women like to do things out of the ordinary, but they never hold their tongues for that reason.
ALL UP-TO-DATE HOUSEKEEPERS Use Red Cross Ball Blue. It makes clothes clean and sweet as when new. All grocers.

A fool and his money are soon parted by the same method twice.

The Important Problem

confronting anyone in need of a laxative is not a question of a single action only, but of permanently beneficial effects, which will follow proper efforts to live in a healthful way, with the assistance of Syrup of Figs and Elixir of Senna, whenever it is required, as it cleanses the system gently yet promptly, without irritation and will therefore always have the preference of all who wish the best of family laxatives.

The combination has the approval of physicians because it is known to be truly beneficial, and because it has given satisfaction to the millions of well-informed families who have used it for many years past.

To get its beneficial effects, always buy the genuine manufactured by the California Fig Syrup Co. only.

No Encouragement.
The family had stood the long strain of Uncle Hobart's illness well, but the peculiarities of the physician, chosen by Uncle Hobart himself, had been life as the doctor, trying. "Do you really think he will recover," Dr. Shaw?" asked the oldest sister of the invalid, who had borne with his vagaries patiently for years.

"I know how you feel, with Thanksgiving coming on and all," said the doctor, peering at her from under his shaggy eyebrows, "but it's too soon to tell. He may get well, and then again, he may not; I can't encourage you yet—either way."—Youth's Companion.

Because a home is in the country—because it is on a farm—is only an added reason why it should be more up-to-date and attractive, for those who are fortunate enough to live in the country realize that those who live in cities.

And it is also true that farm homes and the life about them are so much more attractive. The inside of our house is our home, so why not make it nice and attractive, homely and cheerful, up-to-date and modern.

You wouldn't think of burning tallow candles, yet why use wall paper?
In order to educate a few refined people in every community to the artistic beauty of soft velvety alabaster walls of solid color, a free offer of beautiful wall stencils of classic design is made to every reader of this paper.

It is also possible to secure without any expense color suggestions for your home without charge to you. The best arrangement, curtains and over curtains, etc.—in fact the services of a decorative architect are at your disposal.

In cities there are many and most excellent designers of interior decoration, but it takes money and time to carry out their ideas. The same service is at the disposal of every reader if he asks for it, and better than all, it tells you how you can either do the work yourself or direct someone else. It gives you exact shades and colors, and the stencils to do the work without charge.

Good Law That Should Be Enforced.
Anti-spitting ordinances, laws and regulations in more than five-eighths of the cities and towns of the country are not enforced as they should be, alleges the National Association for the Study of Tuberculosis in a recent report. While most of the larger cities of the United States have such laws on their books, in the great majority of cases they are ignored or overlooked. The report covers in detail the enforcement of the anti-spitting ordinances in 80 of the largest cities in the country. During the year 1909 in these 80 cities, 3,421 arrests were made for violation of the laws regarding spitting in public places. Over 2,900 convictions were secured and \$4,100.87 was collected in fines.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Carter's Little Liver Pills. It is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Carter's Little Liver Pills is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: CHENEY & CO., Toledo, O.
Sold by all Druggists. Take Carter's Family Pills for constipation.

Overheated.
Former Governor Pennypacker, discussing at a dinner in Philadelphia the divorce evil, said with his humorous smile:
"Perhaps there would be less divorce if human nature were more perfect. Some women, you know, henpeck their husbands. There is, for example, a Bucks county farmer who said the other day that he would certainly apply for a divorce only his wife wouldn't let him."

The Literary Fabricator.
"How did that story that George Washington couldn't tell a lie get started?" asked the inquisitive youth.
"I don't know," replied the irreverent person; "unless he had a press agent that could!"

Moonlight During the Arctic Night.
The moon continues to shine at the north pole during the six months' absence of the sun.
Don't try to mold another to your ideal, but remind your ideal accordingly that he is.

This contractor got results. Some years ago a contractor building a railroad in a warm climate was troubled a great deal by sickness among the laborers.
He turned his attention at once to their food and found that they were getting full rations of meat and were drinking water from a stream near by.
He issued orders to cut down the amount of meat and to increase greatly the quantity of Quaker Oats fed to the men.
He also boiled Quaker Oats and mixed the thin oatmeal water with their drinking water. Almost instantly all signs of stomach disorders passed and his men showed a decided improvement in strength and spirits. This contractor had experience that taught him the great value of good oatmeal. 53 Packed in regular size packages, and in hermetically sealed tins for hot climates.

Treatment for Lump Jaw.
Lump jaw is due to a fungus which is usually taken into the animal's system in feed consumed. Lump jaw is liable to affect the glands of the throat or the bones of the head, writes Doctor David Roberts in American Cultivator. It is not advisable to keep an animal thus afflicted lingering in a herd. On the other hand it is not advisable to either treat such an animal or kill it, as such animals invite diseases into the herd, owing to the fact that they are so reduced in vitality that they have no resisting power. A remarkably large per cent. of such cases can be successfully treated if taken in time by opening up the enlargement and washing it out with a strong antiseptic solution, like five of carbolic acid in water, and putting the animal on a tonic. In this way the afflicted animal is not only saved, but the entire herd is protected against disease.

Queer Attribute of Salmon.
Only about 20 per cent. of salmon spawn before they return up the river from the sea, and those that do return after spawning are coarse, and when cut up, white in the flesh; in fact, are known as bull trout, for so-called "bull trout" are not a different kind of fish, but are plainly salmon which have spawned.

For Red, Itching Eycides, Cysts, Eyes Falling, Eyelashes and All Eyes That Need Care—Try Murine Eye Salve.
Aseptic Tubes—Trial Size—25c.
Ask Your Druggist or Write Murine Eye Remedy Co., Chicago.

"Clean, dry quarters are necessary for young lambs," says a stock journal. But any old quarters that will pass are good enough for most of us.

RED CROSS BALL BLUE
Should be in every home. Ask your grocer for it. Large 2 oz. package only 5 cents.
Remember nothing depreciates a man more than to show him he's like other men.

Facts for Weak Women
Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—cured every day by
Dr. Pierce's Favorite Prescription
It Makes Weak Women Strong, Sick Women Well.
It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.
We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.
Address Dr. R. V. Pierce, Buffalo, N. Y.

AN UP-TO-DATE STOVE
Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the

New Perfection Oil Cook-stove
WICK BLUE FLAME

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do—except heat the room. The New Perfection Oil Cook-Stove will do anything, from heating a kettle of water to cooking a course dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the kitchen. How is it done? The flame is controlled in turquoise-blue enamel chimneys, and directed against the bottom of pot, pan, kettle or oven, and only there. The flame operates exactly where it is needed—and nowhere else. With this stove your kitchen is cool.
The nickel finish with the bright blue of the chimneys makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
Every dealer everywhere; if not at yours, write for nearest agent of the

Standard Oil Company
(Incorporated)

PUTNAM FADELESS DYES
Color more goods brighter and faster colors than any other dye. One 10c package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye. Black and Mix Colors. MORRIS DRUG CO., Quincy, Illinois.
