A MISSISSIPPI GRAND JURY SCORED BY THE JUDGE.

Efforts to Defeat Justice in the Prosecution of Pugnists Denounced.

The Jurors Open to the Charge of Perjury - Judge Terrell Determined to Secure Conviction

A Sensational Charge Made at Purvis, Miss. - General Boulanger Found Guilty of Conspiracy and Treason by Heavy Majorities - Murder in the Territory - Crime's Record.

PURVIS, Mich., August 13.-A prominent Mississippi gentleman with whom many residents were conversed in confidence, says that there is a general feeling in Marion county against doing anything with the accused whatever. The grand jury has been discussing the matter of transferring the prize fight cases to the justice of the peace.

The grand jury adjourned about noon until about 2 o'clock, at which time it was reassembled. The court met again at 2:30 and the judge at once sent for the grand jury.

The judge stated to the jury that he had been informed by a man in nowise connected with the jury that they had been discussing certain matters. He said: "I suppose you know that you are indictable for anything that goes out by fraud. The latter I refer to that it is rumored that you have been discussing the question of referring these cases to the justice of the peace. Upon your oaths you say that you would make true statements of all matters and things coming before you. I want to say today, gentlemen, that it is not in your power to transfer without the consent of the court, as the judge of this court would not allow such a thing. If you propose to attempt to transfer these cases I will discharge you and order the sheriff to summon a new jury; and if he fails to summon one who obeys my orders, I will impose a fine of \$1,000 upon each of them. Investigate this question if you think there is nothing in it. If you do not want to find bills say so. This court is amply able to do without your services."

The jury then filed out of the court. The charge created great excitement here. The lawyers seem to think the grand jury will have to indict the principals, if not the abettors.

GUilty OF TREASON.

Boulanger Convicted by the French Senate High Court.

PARIS, August 13.-Upon the opening of the senate court today members of the right declined to take further part in the proceedings in the case of General Boulanger. The court discussed at length its course of procedure and its competency to try General Boulanger. It was finally decided by a vote of 202 to 7 that the court was competent to try the general and that the contents of the indictments. Two of the senators refrained from voting.

The court then by 204 votes found the general guilty of conspiracy. Six of the senators did not vote.

The court then found Count Dillon and Mr. Rochefort guilty of complicity in the plot. It also decided by a vote of 198 to 10 that Boulanger was guilty of a treasonable attempt against the state in connection with the Lyons depot incident.

PACKERS ROBBED BY EMPLOYEES.

KANSAS CITY, Mo., August 13.-The Kansas City Packing company became convinced a week ago that employees in its retail department had been carrying on systematic theft. Detectives were put on the case and they reported today that a number of employees had been loading delivery wagons with goods each day a considerable amount of the goods were taken from the express to butchers and boarding house keepers and pocketing the proceeds. The total amount stolen in this manner amounts up into the thousands of dollars. The arrests have been made, those of William Fisher and Louis Skinner.

SUICIDE FOR SHAME.

EVANVILLE, Ind., August 13.-News of the sad suicide of Mrs. Adeline Huff, near Lincoln City, Spencer county, wife of a prominent young farmer, was received here tonight. Mrs. Huff, it seems, had been seduced by some villain before her marriage, and was the mother of an illegitimate child. She kept her secret from Mr. Huff when they were married, and he remained in ignorance of it until some days since. His wife at the time was visiting in Perry county, and he wrote to her, saying he had heard of her desecrating some one's grave and endeavoring to effect a reconciliation with her husband, but failed. It worked upon her mind to such an extent she determined to end her miserable existence. She dressed for burial, wrote a touching letter to her husband desiring her love, and then sent a bullet through her heart. Death must have been instantaneous, for there was not a sign of pain in the features, while she looked beautiful in death, her appearance being as if enjoying a refreshing sleep. The affair has caused a profound sensation in Lincoln City.

INCENDIARY FIRES AT WHEELING.

WHEELING, W. Va., August 13.-At 3 o'clock this morning two stables were fired simultaneously in an alley in the square bounded by Market and Main and Fourteenth and Sixteenth streets, and were almost instantly ablaze. The entire fire department was called out and with some difficulty got the flames under control. A few minutes before the alarm was turned in a man was seen to rush out of the alley and run up Fourteenth street. His actions were suspicious, and he was known by the police to be a man open to suspicion. This is the third time that a similar attempt has been made to burn this square, which is one of the most similar in the city. These circumstances recall the events of ten years ago when there were nine incendiary fires in one week, and especially the fact that the same individual. The loss of this morning's fire was about \$10,000.

LEXINGTON, Ky., August 13.-A dastardly attempt was made yesterday to assassinate L. E. There was sufficient dynamite in the machine to blow up any building in the city, and it only failed to accomplish its deadly purpose owing to the percussion matches not lighting. It is believed by the police that this morning's attempt was made by Mr. Baxter, but the entire Leader office.

His partners have not heard from him since he disappeared last Thursday night. There is no doubt of the fact. IT'S DIFFERENT NOW.

Young Ladies Could Work With Negroes Under Democratic Regime.

WASHINGTON, August 13.-A reporter of the Associated Press called on Acting Postmaster General Clarkson today for information in regard to the appointment of a negro clerk by the new postmaster at Atlanta, Ga., which caused much excitement and burning in effigy of Postmaster Lewis and General Buck, a leading Republican of the state. General Clarkson said: "The story as it was printed in the Atlanta papers and sent north was to the effect that Postmaster Lewis had appointed a negro clerk and assigned him to duty at the same desk with a young white woman. The real facts, however, are these: After General Lewis' appointment one of the registry clerks resigned. The postmaster then appointed Charles C. Young, colored, who worked on the head of the civil service list of eligibles, as he was compelled by the law to do. He was assigned to work in the registry department in the same room with the young lady, but in another. This young lady and her father, who was superintendent of the registry division and had the same desk with the young lady, were simply because a negro had been appointed to a place in the office and not because an attempt had been made to place a negro in the same desk with the young lady. From this grew all the trouble in Atlanta. There were five negro clerks in the Atlanta postoffice under the Democratic postmaster and the clerks, both the young white lady has been at the stamp window selling stamps to all people, white and black. There is nothing in the matter for the department to set upon, and there is nothing in Postmaster Lewis' action to be criticized by fair minded people."
