DRUM'S SCHEME

Governor Foraker Thought He Meant to Invade Canada.

CINCINNATI, O., Feb. 20.—The Commercial-Gazette publishes this morning the following war department circular which received comment from Adjutant-General Kellogg in Washington last Monday night.

WASHINGTON, Nov. 13, 1886.

To the Adjutant-General of the State of Ohio. Sir—For some past the war department, under the order and sanction of the secretary of war, has been occupied in the collection of military information of a general character relating not only to our own country, but to the armies, fortifications, etc., of foreign powers, and a division styled "The Division of Military Information" has been created in this office, where such information is compiled and filed for future reference.

The adjutant-general criticized some remarks Governor Foraker made concerning this order and the Commercial Gazette interviewed him as follows:

Yes, I have read the remarks of Adjutant-General Kellogg as they are reported in the newspapers. Had what I said been taken in my own language, the adjutant-general would not have taken issue with my statement or offered any criticism upon it. What I said was that, inasmuch as it was no longer a secret, I could without impropriety refer to the letter which was given me when the negotiations were going on concerning the Canadian fisheries question.

It might also have been stated that the circular letter asked for information as to what number of these men could take the field for some months, which is the longest time the president is authorized to call out the national guard for service in the field.

had to be based upon the law of the land. Whenever the court in Florida is called upon to administer justice fairly there would be no difficulty in having its writs and judgments respected by the people of Florida.

Mr. Hawley said the remarks of the senator from Florida and the amendment offered by him seemed to him to be a prearranged plot to correct the action of the officers of the court which has resulted in partisan juries, made up mainly from one political party; and, if so, to report the same to the senate.

Mr. Pasco said he had merely called attention to the grossly improper way with which the duties of the United States judge at large in Florida had been conducted. He made no excuse for anybody and had expressly declined to discuss the question.

Mr. Chandler, of Massachusetts, the chairman of the speaker's committee on the world's fair, was based on all sides by members who wished him to allow them a few minutes to discuss the report.
