Ted Sloan Is First in on Schorr's Colt.

Rides Joe Frey in Front of Articulate at Tanforan

IN FARALLON STAKES. Rivalry Between Jockeys in Race Was Intense.

Corrigan Wins Four Cornered Contest at Oakland.

San Francisco, March 4.—Ted Sloan piloted the Belvidere colt, Joe Frey, to victory in the great 2-year-old race at Tanforan Park and presented Johnny Schorr, the colt's owner, with over \$1,400 as his share of the \$2,000 stake.

Money went into the betting ring on Joe Frey in bunches. Schorr and Sloan both received \$1,000 and Haynes and Bell had \$2,000 apiece down. There was such a glut of yellow money offered that the odds on the odds from 3 to 2 to 1.

The start of the race was a pretty one, and coming from the front Sloan stood the first time there was not a head's distance between Articulate, Telamon and Joe Frey, who were slightly ahead of the bunch. As the heat wore on, Articulate took the lead, followed a length behind by Telamon, Camoro and Joe Frey.

There was but little drifting in the position of the flying squad until the horses approached the turn into the stretch for home, when O'Connor began to urge Articulate and Burns cut opened up two lengths on Telamon. They raced into the stretch, with Camoro and Joe Frey chasing the leaders and only a length and a half away.

Down the stretch the great colts thundered, with their riders urging their mounts to their best efforts. Articulate began to feel the strain of the pace and falter, and Burns, seeing his chance, made a heroic effort to get Camoro to the front. While the two were fighting for the lead, Joe Frey, only half a length behind, came on like a flash and went under the wire an easy winner by two lengths.

Articulate staved off Camoro's challenge long enough to get second money. Telamon had shot his bolt midway down the stretch. The heat horse won, and the public got a good line on the California Derby, worth \$3,000, which will be run in two weeks with the same horses entered. Articulate is 4 to 3 and Camoro and Telamon at 7 to 2.

The rivalry between Burns and Sloan in the race was intense. It is seldom in his recent career that Burns has ever ridden a race against the Schorr colors, and his mount today was the first of late years in which he was out to defeat the stable that retained him for several seasons. Burns backed his mount against Joe Frey.

Periwig at good odds was a surprise in the steeplechase, beating May Roy and Pallouan at the end, while Lord Chesnut and O'Brien, who had led all the way and who looked to have the race between them, were nowhere.

The feature of the card at Oakland was the four-cornered race of the 2-year-olds. Dr. Scharff, Rosewar, Corrigan and Louwela. Rosewar was a hot favorite at 1 to 2 odds, who was 2 to 1 to go out in front. The barrier went up, and was never headed. Scharff closed strong in the stretch and seemed to have already won. Burns cut in and responded bravely to the last call and won easily. Even Louwela beat Rosewar.

Tolliek was a 1 to 2 favorite in the fourth race, but the handicap was all the best and won all the way from Grand Sothem. Tolliek chased the whole route, but could not get up. El Teyo, a 3 to 1 shot, but Corriggan, who was the best, but was cut off and only managed to get the place. The last race was won by McManis. The crowd at Oakland was only fair and the play the same.

WAR OVER COLLINS. Boston's Third Baseman Fighting With American League.

Boston, March 4.—Director Billings of the Boston National League club returned from Buffalo this morning, whence he had gone to secure the signature of Jimmy Collins to a National league contract.

"I am satisfied Collins is not tied up with the American League," said Billings.

EGZEMA'S ITCH IS TORTURE. Recema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off, leaving the skin hard, dry and fissured.

It is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes or other external applications do any real good, as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER. For three years I had Tetters on my face and neck. It was so bad that I could not see the people I had to see. I had tried all kinds of medicine, but it did not do any good. I was almost blind from the pain.

It was three years ago, and I had never seen any sign of my old trouble. —Mrs. L. A. Jackson, late McCrear St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.

It cures Tetters, Erysipelas, Footrot, Salt Rheum and all skin diseases due to a poisonous condition of the blood. Send for our book and we will send you our medicine free.

Positive Proof From Topeka Can't be Brushed Lightly Aside.

The reader is forced to acknowledge that convincing proof in his own city is preeminently ahead of endorsements from anywhere else in our republic.

Read this: Mr. N. H. Wolff, of 117 North Kansas avenue, merchant tailor, 428 Kansas avenue, says: "I suffered from backache for over a year. It started with a tired feeling across the loins and finally became a constant aching. I had a very severe attack in 1899, and thought sometimes my back would break. I could not rest in any one position and there was a kidney weakness, the secretions being highly colored and irregular. I went to Rowley & Snow's drug store and procured a box. They relieved me of the kidney weakness and the pain in my back disappeared. There has since been no return of the trouble."

Clarke was selected to establish a team in Baltimore. It is believed that the failure of the National league to back up the American association caused Clarke's defection.

Clarke's engagement to Washington is taken to mean that the Players' association will pay no attention to the pledge made by "Chief" Zimmer that the players would stand by the National league if their demands were granted. Clarke is treasurer of the Players' Protective association. While he is not supposed to be yet at liberty to sign a contract and may not have done so, it is assumed that he has pledged himself to Washington. It is not believed that Boston will make any effort to hold Clarke unless the Collins affair stirs up a general engagement with the American league.

KEELER SIGNS A CONTRACT. Brooklyn's Star One of the First to Come to Club's Terms.

New York, March 4.—Willie Keeler of the Brooklyn baseball club is the first member of either of the local teams to sign the new league contract for the season of 1911. Keeler is a member of the Players' Protective association, and in spite of flattering offers would not sign until the players' embargo had been raised. President Ebbets announced today that he had secured Keeler's signature to a contract. It is thought Willie, like other National league stars, has been tempted by the American league club owners. As he announced at the league meeting that he would not sign until the Brooklyn club's contract suited him in every way, it is probable that Keeler is to receive an ample increase in salary.

The conductor, despite protests, put her on the Burlington train, which was obliged to wait in the station until a late morning train returned to Galesburg. She then made a bold attempt to get on the Burlington train, which was just about to leave, but was pulled back. A dray just then passing was stopped and she was placed aboard. Each prisoner denied at first that they knew anything about the letter, but the chief of police pressed them until they confessed. They said that a man named Lavocchia, who was called "Mocvevito" with the object of embarking there for Genoa, had planned to put dynamite beneath the Quirinal and explode the palace. Naval Governor of Tutuila Will Try to Reform a Depraved Savage. Washington, March 4.—Commander Tilden, the naval governor of Tutuila, reports to the navy department under date of Auckland February 1, that as a sign of humanity, he had added a sailor to the crew on the U. S. S. Albatross. He gives an interesting narrative of how he came to give succor and shelter to the stranger. "I have the honor," says Commander Tilden, "to report that I have in board the Albatross for protection a Solomon island native who was found in the woods of Tutuila where he had been a fugitive for more than 15 years. The man is a savage, is very black and does not speak any language which any one on board the Albatross can understand. "Through an interpreter at Apia I learned from him that he was brought from the Solomon islands to work on the German plantation in Upolu long time ago. He was badly treated and that he got with his two companions ran away and got over to the Tutuila on a raft. They decided to leave the island and remained on the island. The two companions are dead. The statement of the manager of the German plantation is that these men ran away over 12 years ago and that he does not want this man returned. "The Samoan natives assert that this man has killed some of their people, but I hardly believe this, although he may have done so when he was hard pushed by them. At any rate the Samoans were trying to kill him and I took him on board ship to save his life. His people are cannibals and he does not wish to return home for fear that after his long absence he has been forgotten and will be killed and eaten. He is very industrious and useful on board ship, doing willingly all kinds of manual work. I have issued a ration to him and recommended that he be allowed to remain on some vessel of the navy until he can take care of himself."

SWEAT SHOPS MUST GO. Bishop Potter to Make Appeal For the Poor of New York. New York, March 4.—The executive committee of the Brotherhood of Tailors decided today to ask Bishop Potter, President Samuel Gompers of the American Federation of Labor, Prof. Felix Adler, Henry White, general secretary of the United Brotherhood of Carpenters and Joiners of America, and other prominent citizens, to head a movement of two hundred thousand that side men, women and children for the abolition of the sweating system.

It was decided to call a big mass meeting to be addressed by leading citizens of all classes at which the legislature will be asked to adopt amendments to the factory inspection law which will bring about the complete abolition of the sweating system in this city.

The members of the committee were instructed by the officers of the brotherhood last night to call a convention of delegates for the purpose of taking similar action for the abolition of the sweating system in Philadelphia, Chicago, Boston, Baltimore, Rochester, Cincinnati, Syracuse, St. Louis and Utica.

A meeting of the garment workers' trade council will be held today to take further action in the movement started by the brotherhood tailors. The council has jurisdiction over forty thousand clothing workers in Greater New York.

"The greatest movement for the abolition of the sweating system ever known in this country is now being started," said Henry Wachsman, leader of the brotherhood of tailors. "The United Garment Workers of America have decided to back us up in this movement. It will receive powerful starting impetus in this city and then spread all over the country in all large clothing centers where strong organizations of clothing workers exist."

"Through this movement we shall be able to avoid a recurrence of 10,000 clothing workers in this city, which would cause great suffering and misery among two hundred thousand East side men, women and children."
