

# ARE YOU COMING To the Fall Festival Next Week.

## There Are Thousands That Are.

Topeka expects to see such a crowd as has never been within her limits before. There are numerous places of interest to visit while you are here.

## YOU CAN.....

Spend a short time profitably at Moeser's Ice Plant and probably learn something new.

### Have You

Ever watched the process of manufacturing ice? If you haven't, that is no wonder, there are thousands of others.

### While You

Are in the city we extend that opportunity to you--our plant will be open to the public during the week, and you can have a cake of ice frozen while you wait.

# TO THE CITIZENS OF TOPEKA

## A WORD

### The Cold Storage

Department of our concern is no small affair. In the past year we have erected, in addition to our former large plant, a building covering 4,000 square feet.

### You May

Need to be put on ice, or you may have something you want kept at a certain temperature all the time.

### Come Out

And see how it's done. We will have some one show you through.

YOU DIDN'T KNOW that during all that hot weather this summer we were keeping cool, and that we are prepared to store any amount that you may want kept cool for any period you wish.

## COME OUT AND SEE US!

Or Ring us up, Telephone 240, and let us tell you about it.

# The Moeser Ice Manufacturing and Cold Storage Co.,

SOUTHEAST CORNER SECOND AND POLK STREET.
