"Financial problems are nuts and clover for demagogues."—J. A. GARFIELD.

H. S. GIVLER, Prop.

TWENTY-SECOND YEAR.

WA-KEENEY, KAN., MARCH 10, 1900.

NUMBER 1

Campbell's Soil Culture.

(Continued from last week.) WHEN SHOULD THE WORK BE DONE? Plow early as possible, whether it be spring or fall. Fall plowing is preferable, and should be done as soon as possible after the crop is removed. The packer should follow as close to the plow as possible. The packer leaves the ground firm at the bottom and loose at the top. This is as it should be. But an ordinary shower will dissolve and settle down this surface mulch and make it firm. This must not be allowed to remain firm, or the moisture will soon all escape by evaporation. Especially is this true if the weather after the shower be hot or dry; therefore, after every rain, no matter how light the rain may be, go over your plowed ground with a harrow to restore the soil mulch, or dust blanket. A fine spring-tooth harrow is the best, as it leaves the mulch loose and more perfect. One or two cultivations should be given fall plowing before it freezes up, whether it rains or not. The moisture thus saved in the fall is a reserve to be drawn upon next season, and moisture is money to the western farmer. Never neglect to cultivate after every rain. Remember that three important conditions must exist to obtain the best possible results: First—Good depth of plowing, to increase the moisture reservoir. Second—A thoroughly firmed and well-firmed subsurface, to form a perfect root-bed; much depends upon this. Third—A constant and perfect soil mulch, to prevent the evaporation of moisture. TREATMENT DURING THE GROWING SEASON. The following instructions for cultivation during the growing season applied to the cultivation of all crops, small grain, corn and potatoes. Go over the ground with the surface cultivator once in from four to seven days. Immediately after every rain lose no time in stirring the dust blanket with the surface cultivator. Of course, in case of a very heavy rain, cultivation must be delayed until it is no longer muddy, but delay no longer, for it is immediately after a heavy rain that evaporation is the most rapid. By careful test as high as one quart of water to the square foot has been known to leave the soil in one day following a heavy rain. Let the cultivator teeth run to the same depth throughout the season. Two inches is the proper depth. When the weather is very hot, or when hot winds blow, cultivate as often as possible; every three or four days is none too often. Never use the cultivator with long-pointed shovels. Stop cultivating wheat when the blossom appear. Oats should be cultivated until well headed, unless they cover the ground so as to prevent, corn, potatoes, and vegetable during their entire period of growth, and all crops with judgment, bearing in mind the purpose of the cultivation—to retain moisture by stopping evaporation. Do not disturb the roots when they have once formed. You will do this if you cultivate deeper at the subsequent cultivation than you did the first time over. Get the right depth, and keep it. The destruction of the roots is nearly as serious as the loss of moisture, in a sense the same, for it lessens the supply of moisture to the plant, and there are certain times (at the forming of the head or filling of the kernel) that a slight check in plant food would very materially decrease the yield. Keep the dust mulch perfect. Don't let the crust form on the surface. Don't let the crust remain if it does form. Don't let the dust mulch get settled down. Keep it loose. Keep the cultivators going.

TWENTY-ONE YEARS OLD.

This is the 21st anniversary of the WORLD. This paper is the oldest in western Kansas, and has changed hands a number of times. The WORLD has had its sunny days, also its cloudy ones. It was here in the early days of Wa-Keeneey and it bids fair to be here 21 years more. After a newspaper passes its 20th milestone nothing less than a western Kansas cyclone can wipe it out. The winds of adversity have swept over the WORLD, Populism, Imperialism and Bossism, but she still stands pat-grounded, firm and deep in good Republican soil. The WORLD tries to work for the best interests of the people in general, giving all the news both local and current. In the last four years the WORLD may have been rotating a little slow, but some time when a fall equinox strikes these parts, the WORLD expects to swing back to its old orbit and rotate as it once used to do. The WORLD offers greeting to all its patrons and thanks them for their patronage in the past, and hopes they will continue their support in the future that the WORLD may still be rotating for the next quarter of a century to come.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottle free at Jones & Gibson's. Sold by dealers in all civilized countries. 12

The Republicans of Wa-Keeneey township will meet at the Probate Judge's office on Saturday, March 10, 1900, for the purpose of electing 12 delegates and 12 alternates to the county convention to be held March 17, 1900. H. S. GIVLER, Committeeman.

Report of Teachers' Meeting.

Teachers' meeting convened at the office of the county superintendent, March 3. The attendance was good—twenty-one teachers responding to roll call, with a description of some device they had found useful in the school room. Miss Myra Reynolds presented the topic of "Current Events" in a manner that showed careful reading during the past month. Miss Elsie S. Taylor presented an interesting paper on "How to Make Geography Interesting." The topic "School Apparatus, Its Use and Abuse," was discussed by the whole school. Mrs. J. F. Gunckel presented a paper on "Lost Time in the School Room," and Miss Lyde Drummond reviewed several chapters of "Taylor's Study of the Child." Then followed the history lesson. A number of visitors were present, among them Rev. Lee of Manhattan, who gave us some interesting chapters from his school-teaching days. Time of next meeting and program announced later. JESSIE F. TAYLOR, Secretary.

Examinations for Common School

Diplomas will be held March 17 and 31, in Districts 2, 3, 8, 11, 18, 19, 20, 29, 31, 38, 40 and 47. Possibly only the first day's work will be done in Districts 18 and 47. Pupils may go to the most convenient place. The April examination will be held in Districts 1, 2, 3 and 11. Those who wish from any other district may write on any subjects whether they have written in March or not. Credits will be allowed on all grades above the required average. The grading will be done by nine teachers and reviewed by county examining board. Pupils should place subject, examination number, and page on every sheet, write no names, nor places, write only on one side of paper. The teacher in charge will preserve list of names and numbers. HUDSON HARLAN, County Supt.

No assessment in the A. O. U. W. this month.

FOR SALE—My English Shire stallion, Prince Albert is a blood bay of fine style and action, and gentle as a dog. He is 8 years old, stands 16 1/2 hands high and weighs 1700 lbs. Easy terms. Address JOHN LANDGRAF, Hill City or Wa-Keeneey.

The dance last Saturday night seemed to be quite a success in more ways than one. Young men that lose their self respect and the respect of the young ladies that they escort to dances to the extent that they get boozed and end up in a general carousal no longer deserve the respect of decent society.

Are you looking about for the best Buckwheat flour that money will buy? If you are you need not seek any further. Come in and order what you want. Grown by one of your fellow citizens on his own farm back in Pennsylvania and shipped direct to this place. This Buckwheat is absolutely pure. For sale by C. C. BERRON.

Communion service will be observed at the Presbyterian church Sabbath morning in connection with the morning service.

FOR SALE—One of the best 320 acre farms in Trego county. For terms apply to George Baker, Wa-Keeneey, Kan. Can give possession at any time.

We were in error last week in stating that J. F. Gunckel had purchased the house occupied by his brother. The Methodists have purchased it for a parsonage.

Joe Richardson was up from Riverside Thursday and paid us an appreciated call. He reports the arrival of a nice valentine at Jim Orr's home last month, and that Jim met with an accident Wednesday. A large rock slipped out of Arch Hays' hands landing on his big toe, smashing it.

Sam Riley, the blackest Republican in the county, called Wednesday and had this black Republican sheet sent to a cousin in Indiana. Sam served four years in the late war and lost a leg just at the end of the war. He served under "Pap" Thomas and was in every engagement with the famous general.

Attorney Sanm came up from Hays Sunday night and attended court Tuesday. Mr. Sanm's practice is so large that he has taken a partner a Mr. Bryant, a young college graduate from Denver, and a brother of A. J. Bryant well known here. Mr. Sanm will spend a couple of days each week in Wa-Keeneey looking after the interests of his clients.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail.

Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.
