Thousands of farmers from all parts of the state are expected to attend the Farmers Union meeting at the Woodland Auditorium, Lexington, Saturday, September 9, to celebrate the twentieth anniversary of the organization.

Campbell Cantrell, Congressional representative, and Milo D. Campbell, of the Milk Producers Association of Michigan.

E. L. Harrison, of Lexington, State president, will preside over the meeting that is expected to be attended by several thousand farmers.

With a street parade starting at Gratz Park at 9:30 o'clock, headed by the Mayslick Boys' Band, the visiting Farmers' Union members and the members of the Fayette County Farmers' Union will march to the auditorium for the meeting scheduled to begin at 10:30 o'clock.

National President Barrett, who is also chairman of the national board of farm organizations, will deliver an address on the history and development of the Farmers' Union.

The address of welcome will be delivered by Dr. W. A. Fortune, pastor of the Central Christian church.

The meeting is expected to be one of the biggest ever held in Kentucky by farmers.

LICKING RIVER TO BE DAMMED FOR ELECTRICITY

Proposition Would Make River Navigable for 150 Miles Above Falmouth—Great Electric Plan Proposed.

A Falmouth news dispatch says: Options have been recorded in the office of the county clerk here, it was learned today, on 25 acres of land on the farm of Mrs. Doela Logan on the north side of the Licking River and 117 acres from W. E. Blasingame on the south side at a point three miles above Falmouth, where it is proposed, according to published reports, to construct a hydro-electric dam costing \$7,000,000 to furnish light and power for Kentucky towns and cities within a radius of several hundred miles, and probably for Cincinnati.

The bed of the river is solid rock at this point and the hills on either side are of stone. A dam such as the one proposed would, it was said, cover low land along the river for 50 miles upstream and this land would have to be purchased. Much of the Louisville and Nashville tracks would be submerged, together with valuable farm territory.

This property cost is included in the \$7,000,000 estimate. The dam should make the river navigable for 150 miles above it.

Cities which could be served by the locking hydro-electric plant are Falmouth, Mt. Olivet, Brooksville, Augusta, Williamstown, Owenton, Georgetown, Paris, Carlisle, Flemingsburg, Maysville, and, as the service is extended, Covington, Newport, and northern Kentucky cities and almost all of the cities of the Blue Grass and the edge of the mountains.

NEW METHODIST PASTOR IS NATIVE MASONIAN.

Rev. J. R. Savage, the new pastor of the First M. E. Church, South, is no stranger in Maysville as he is a native of Mason county and spent much of his life in this county.

Because of the absence from the city of Attorney A. D. Cole, all of the cases in Circuit Court in which he was interested, have been postponed and will not likely be tried until the next term of court. Mr. Cole is interested in many cases scheduled for trial this term and this will cut the term of court short considerably.

LARGE IRON LINK FOUND OVER C. & O. RAIL

Fast West Bound Passenger Train Might Have Been Wrecked Had Not Pedestrian Discovered Link.

What is thought by some might have been an attempt to wreck west bound C. & O. train No. 5 Thursday morning was frustrated by a well known East End man quite a bit before time for the train to run when he removed a large iron "open ring" which had been fitted over one of the rails on the west bound main line.

The gentleman who removed the obstruction was walking down the railroad track and when between Houston avenue and Union street, he noticed the heavy iron ring carefully fitted over the rail. It would certainly have derailed the train had it not been removed.

It might have been placed on the rail with a deliberate purpose to wreck the fast train or it might have dropped onto the rail from a passing freight train. It was, however, fitted directly over the rail.

NOTICE.

Bids will be received by the Board of Education of the City of Maysville until Friday, September 15th, for the building of retaining wall, curb and gutter and the grading of lot at the First District School building.

Specifications on file at the office of Engineer Horace B. Clark, West Second street.

The board reserves the right to reject any or all bids. 7Sept3t J. C. SIMONS, Chairman of Buildings and Grounds Committee.

FALMOUTH FAIR APPRECIATES CO-OPERATION OF OUR BAND

Band Management Boosting Falmouth Fair and Officers and Directors Appreciate Method of Boosting.

The following letter is self-explanatory and expresses the feeling of all fair managements when our Kentucky Cardinals are slated for the feature music:

Falmouth, Ky., Sept. 4, 1922. Mr. J. Barbour Russell, Maysville, Ky. Dear Sir: I received your letter and am today writing the fireworks company, ordering fireworks as per your suggestion.

I am enclosing you copy of ad we are running in all local news papers adjoining. Have been running similar one in our local paper weekly. The last week we will run full page.

I have submitted your letters to our directors and they are more than pleased with your liberal patronage of our fair and interest shown us. We believe if we had had your band last year we would have done much better as we like your way of advertising. I am frank to say that we have never had anyone outside of our immediate company in this or any other county to take as much interest in our Fair as you have.

We have made an extensive advertising campaign and if the weather is good we will have the crowd. Yours very truly, A. H. BARKER, Sec.

Miss Irene Dickson left Wednesday for a visit with Mr. and Mrs. A. P. French, Amherst, Mass. Later in the month Miss Dickson will enter Prince's school in Boston.

Scores of local hunters were out Friday and Saturday, those being the first days when doves could be hunted legally. They report a large number of birds in this section this year.

SECRECY THROWN AROUND ATTEMPT AT STRIKE PEACE

Announcements Made at Chicago and Washington Indicate That a New Movement For Peace in Strike Has Been Started.

Chicago, Sept. 7.—The Policy Committee of the striking shopen was called to meet here Monday to "ratify certain agreements tentatively made with eastern railroads," a union leader declared here today.

Union officials here refused to be quoted. "We cannot talk. The gigantic undertaking we are conducting might be wrecked by premature publicity," John Scott, secretary of the shopen's organization declared.

Several members of the Executive Committee were in session here today formulating plans for Monday's meeting.

Washington, Sept. 7.—William H. Johnston, one of the leaders of the 400,000 striking railroad shopen, admitted today there was "substance" to reports of renewed peace negotiations between strikers and rail executives.

Discussions were undertaken to be scheduled for today between strike leaders or their representatives and a group of conciliatory executives.

Johnston's statements closely followed announcements in Chicago that the policy committee of the shopen unions had been called to meet there Monday.
