

T. B. R. HATCH, Editor.

BATON ROUGE, THURSDAY, DECEMBER 21, 1866.

Our Agents in New Orleans.
Messrs. Gardner & Co., Newspaper Advertising Agents, No. 6, Commercial Place, New Orleans, are the duly authorized Agents in that city for the Gazette and Comet.

IMPORTANT ORDER.—Our readers are referred to an important order emanating from the head of the Freedmen's Bureau in this State, relating to contracts between employers and freedmen, which we publish to-day.

Our friend, H. J. HYAMS, Esq., J. P., of West Baton Rouge, informed us yesterday that the levee work in his parish was now fairly inaugurated, and bids fair to make sure and rapid progress. We hope they may soon have better weather for the work than has prevailed lately. The weather has been perfectly execrable.

PLANK ROAD SUBSCRIPTION.—The name of Mr. E. R. BECKWITH was accidentally omitted in the list, as published by us of subscriptions to the Plank Road. We regret the inadvertence, and unsolicited, make the proper amends, by stating that Mr. BECKWITH subscribed twenty-five dollars.

We have never known in this city, says the Louisville Journal, a liberally-advertising individual or firm, that did not succeed in business. Surely that fact speaks loud enough to be heard by all unplugged ears.

Judge Dickson, in the United States Court, in Ohio stated that a Government detective, while on his way across the Ohio River to make the arrest of counterfeiters, he himself was carrying a basketful of counterfeit money on his arm for distribution.

Some of the men heretofore called "detectives," are now known as "detected." They have always been "the suspected."

CHEAP COAL.—At a Government sale of boats, lumber, brass, iron and coal at Cairo, recently, 439,026 bushels of coal were sold in lots at prices ranging from 23 to 27 cents per bushel.

The history of Mexico shows that during the last forty years Mexico has had thirty-seven different forms of government, thirty-two of which were "Republics," and seventy-five Presidents! Its revolutions during that time have amounted to over two hundred. Many years since a Mexican protectorate was urged upon the United States Senate by Gen. Houston, upon the ground that the Mexican people otherwise would fall a prey to some European power. The project was condemned and abandoned. But, perhaps in view of the past and present, it would have been well.

The Galiganis, widely known for many years past, as proprietors and publishers of the famous Galiganis Messenger, has founded an English hospital at Paris, and, being completed, it has been placed in charge of the English ambassador at Paris. It is under the direction of an English Sister of Charity, and two English surgeons, who give gratuitous attendance. Its locality is on the new Boulevard de Bineau, and it contains beds for twenty-five patients.

Louisiana has elected for admission into Congress two gentlemen who are closely related to high officers connected with the Federal Government, Mr. Randall Hunt, who, having married a daughter of Judge McLean, of Ohio, is brother-in-law to Chief Justice Chase, and ex-Governor Wickliffe, who occupies the same relation to Judge Advocate General Holt. Mr. Hunt will start in a few days for Washington, and we understand he entertains strong hopes of ultimate admission to his seat in the United States Senate.—N. O. Bee, 15th inst.

NOT NATURALIZED.—An Irishman being in church where the collection apparatus resembled election boxes, on its being handed to him, whispered in the carrier's ear that he was not naturalized, and could not vote!

TIMELY ORDER.—We are glad to see it stated from Washington, that Gen. GRANT has issued an order to commanders of posts where powder is stored, to take precautions for its preservation. At this point, and also as we learn from our exchanges, at Cairo, New Orleans and other places, the deposit of powder is so immense as to excite fearful apprehensions, lest by some accident or other an explosion of that material might occur which would involve the most terrible and wholesale destruction of life and property. We think it would be right and proper for the civil and military authorities to remonstrate with the Government as early as possible, against the concentration at any one point or in any one magazine, of such overwhelming quantities of the article, and to earnestly request, that measures be speedily taken to remove the great and imminent risk incurred from the foregoing cause, by lessening the quantities of powder stored to a maximum consistent with public safety and security.

TELEGRAPHIC SUMMARY.

The N. O. Times of Monday sums up the telegraphic news which appears in its columns of that date, as follows: A convention is to be held at Washington on the 21st against negro suffrage. Mr. Davis has received the sacrament at Fortress Monroe. Perugia to unite with Chili against Spain. Gen Howard's report is said to be delayed because his statement that the withdrawal of the military control would endanger the freedmen. Indiana has ratified the amendment. Commodore Craven has been censured and restored to duty. The prospect for the admission of Southern Representatives has not improved. Cotton closed in New York on Saturday at 50 cents. Captain Semmes, of the Alabama, was arrested at Mobile on Friday, and sent to Washington. The steamer Peerless, from Cincinnati to New Orleans, was burned near Mound City. Hon. Thomas Corwin, was stricken with paralysis on Friday night at a social party at Ohio Congressmen. His condition is dangerous. Gen. John Eaton has resigned his position in the Freedmen's Bureau, to establish a newspaper at Memphis, Tennessee. Reverdy Johnson will make powerful argument against the test oath in the Supreme Court next Friday. The Paris Patrie contains an official denial of the story of a rupture between France and the United States.

THE POST OFFICE.—The long looked for and much desired accommodation has at last arrived. Mr. Farrelly has received his appointment, and has already entered upon his duties as Post-master, in a regular business way. He is having his office fitted up in a neat style, and we feel assured that he will be amply equal to the emergency.—Bayou Sara Ledger, 15th inst.

A HARD HIT.—A gentleman recently returned from the South called on the President, and told him that at Richmond there were in a single school two or three hundred white children as poor and ignorant as any black, to be found in the whole of the South, and urged that they needed the aid of the philanthropic everywhere. President Johnson replied that he was very glad one Northern man had discovered there were any white people at the South.

A THOUSAND YEARS OLD.—In the year 1852, Russia celebrated throughout the vast expanse of her empire the completion of the thousandth year of her national existence. It was kept with all the solemnity due to the important event. The Russian empire was founded in 852, in which year the Russians, or Rossians, probably of Scandinavian origin, made their first appearance on the shores of the Bosphorus.

THE ORIGIN OF WATERFALLS.—The New York Observer publishes a letter written more than thirty years ago by Rev. Dr. Judson, on the vanity of heathen women, in which he cites as a proof of their heathenish customs that the Karen women wore fancifully-constructed bags, inclosing the hair, and suspended from the back part of the head. The origin of "waterfalls" is now explained.

A Finland newspaper mentions a stone in the northern part of Finland which serves the inhabitants instead of a barometer. This stone, which they call Ilmekiuur, turns black, or blackish gray, when it is going to rain, but on the approach of fine weather it is covered with white spots.

Imposters are traveling through the country soliciting financial aid for the "freedmen," which aid is a general thing, spent by the solicitors in gambling and other fashionable amusements.

How to economise in sending telegrams—write epigrams.

LOUISIANA LEGISLATURE.

SENATE—Saturday, Dec. 16.—An act was passed to punish any person or persons who shall encourage or excite revolution or revolt in the State. Also, the House bill to suspend the collection of State taxes in certain cases—20 years to 7 years. An act to create a Homestead was made the order of the day for Monday. Various bills were reported by committees, and others presented were referred. HOUSE.—The Senate bill to organize the State Militia was reported on favorably. The Senate bills regulating labor contracts were concurred in, ad seriatim. The resolution that the Assembly should adjourn sine die on Tuesday was reconsidered. SENATE—Monday, Dec. 18.—Mr. Hough's Homestead Bill was adopted. The bill to amend 680 and 681 of the Code of Practice was laid on the table, and a substitute bill, (No. 23) was, after a lengthy discussion, lost. The bill to amend was afterwards reconsidered and passed. A bill relating to the protection of alluvial lands from overflow, was passed. A bill authorizing the Governor to issue State bonds to the amount of one million dollars for building levees was passed. HOUSE.—Resolutions referring to the incarceration of Jefferson Davis, and invoking the clemency of the National Executive in his behalf, were read and referred to a special committee. Mr. Aliverson presented a joint resolution instructing the joint committee for the selection of a location for the State House, before determining upon a site, to visit Baton Rouge and report at the regular session of the cost of restoring the State House at that place to its original condition. The resolution was rejected, yeas 25, nays 44. The Senate bill changing the time for the meeting of the General Assembly to the fourth instead of the first Monday in January was concurred in. Mr. Tucker asked leave to call up a bill previously introduced to suspend the sales of property under execution. Mr. Tucker exhorted the House to consider this measure as indispensably necessary to save a great number of the original and most respectable population of the State from ruin and penury. Debts contracted before the war were now being pressed against them, and they were without means, except their lands, which would not bring a tenth of what they were worth in the war. On motion of Mr. McEnery, the bill was made the order of the day for the following day, at 1 o'clock.

REVOLTING EXHIBITION.—For the last few days large crowds have been seen assembled in a corner of the court house square, staring with stupid wonderment at one of the most repulsive exhibitions ever shown to the public. In a small covered wagon, drawn by two dogs, sits a maimed soldier, or a man in soldier's attire, a woman and a little girl. The group sitting there stretch out their eager hands on every side, for a time, gathering in the five cent pieces that are thrust upon them on every side.

When they have got sufficient to reward them for exhibiting, the woman deliberately unhooks her dress in front and there the wonder-seekers see coiled up in her bosom a rattlesnake, about four feet in length. As soon as it is exposed the reptile shoots out its head, darting it rapidly to and fro, and slowly uncoils itself, as the woman taking it from its warm nest, holds it for inspection, while the man narrates how every third day she suckles it as she would a child. She then slowly rolls up again around her head and return it to its former quarters. This exhibition is of itself sufficiently disgusting, but it is followed by another still more so. The man, removing his hat from his head, passes his fingers through his hair and draws from its nest among the shaggy locks a spotted toad, black and yellow, which he permits to crawl around his neck and over his face. The man boasts that there is no show in America equal to this extraordinary exhibition. He might boast with truth that there is not one to be seen equally disgusting.—Chicago Times.

The vacant judgeship in Maine is going a begging. Several applications have been made for it though, and the following is a copy of one of them: "To His excellency Governor of Maine sir: Being the Regnason of Judge Dava's I would solicit the Poynt By so doin you will Con fer a everlasting on your Friend. Your Trewly."

Beauty and wit will die; learning will vanish, and all the acts of life be forgotten. But virtue and piety will remain forever. They are the foundations of honor and esteem.

On the 10th instant, in this town, Mrs. FRANCES BALLEW, consort of Thos. Ballew, aged 82 years, died. The deceased was a native of Powhatan county, Virginia, and a sister to the late James M. Elam, of Baton Rouge, to which place she came in 1881, thence to this parish. The many qualities of mind and heart that she possessed, made her a true sister of charity in her dispensations of benevolence. She leaves a large family and many friends to cherish her memory.—Bayou Sara Ledger, 16th.

The death of this most estimable lady has created a void in her home and wide extended circle of friends, which can never be replaced. We knew her well, and can truly bear testimony to the many endearing traits and virtues she possessed, which sanctified her character to the wise and humane purposes of life and made clear and resplendent her pathway to a heavenly bourne of rest beyond the grave. Blessed be the memory of the pious, kind and gentle Mrs. BALLEW.

At the family residence in New Orleans, on Sunday, the 17th instant, Mrs. HENRIETTE CHIFFIN, widow of the late G. A. Chiffin, and for many years a resident of Baton Rouge.
