NUMBER 5.

AN OFFICE HERE.

The Postal Telegraph and Cable Co. Considering the Placing of an Operator Here.

Mr. W. A. Logan, representing the Postal Telegraph and Cable Co., with headquarters at Dallas, was here last week with the purpose of putting in an office in this city. He considered the matter favorably and made provisional arrangements for an office, should it be definitely decided to put an operator here.

Several years ago the Postal Company had an office in Lafayette, but discontinued it because it didn't pay. Establishing the present office is contemplated for two reasons: Because the increased business of Lafayette justifies the expectation of

a better patronage than in the past, and because of the increase in their through wires an office at this point will prove of advantage. With the completion of two new wires which is expected in the next two weeks, the Postal will have seven wires from Houston to New Orleans and five from this point to Alexandria connecting with New Orleans. Offices are to be opened also in Opelousas and Alexandria.

House Burned.

The home of Sigismund Bernard at Pin Hook was burned Saturday night. Very little was saved. The fire is supposed to have been caused by the explosion of a lamp. Upon retiring a lamp was left burning. Some time during the night Mr. Bernard awoke to find the house in flames.

SHORT ITEMS.

Little Pickups That Help to Tell the News of the Week.

Little Clayton Reams Beadle, who was so seriously burned about three months ago by the overturning of a pot of boiling water, has recovered. The little fellow had a hard time, and a long siege, of it but he is now up, and we are sure that everybody will rejoice with him that the time of trial is over.

The Woman's Club will in a few days reorganize. The first meeting will be held Saturday, October 6 at four o'clock with Mrs. Blake as hostess.

Hon. E. P. Curtis, grand senior conductor of the Order of Railway Conductors, was present at a special meeting of the local lodge Sunday and spoke upon subjects of importance to the order.

Dr. G. R. DeLaureal was in town one day last week with his handsome new automobile. One enthusiastic admirer among the younger generation said, "It's a peach," as it rolled by without noise and as pretty as a picture.

Removed Bulletin Frame from Post Office.

Someone removed from the post-office the frame in which the weather bulletins are posted daily. Postmaster Domengeaux states the he is not disposed to look at the matter as a joke and intends to prosecute the party if found. The walls of the post-office are not to be defaced or written on nor is anything attached to them to be removed under penalty of the law. Mr. Domengeaux also wishes to notify those young people who frequent the office at mail time and indulge in loud talking and boisterous conduct, that they must hereafter behave more orderly as it will not be tolerated any longer.

MOUTON SISTERS.

ANSE LA BUTTE.

Intermittent Gusher Brought in Friday by Heywoods. Yields 150 Barrels Daily.

Friday Heywood Bros. brought in a gusher at Anse La Butte which is yielding one hundred and fifty barrels a day. The stream of oil is not constant, but gushes intermittently. The well was put down and completed in ten days. The oil is of fine quality and pure, not mixed with water. This makes the fourth producer for the Heywoods. There are three other producing wells in the field, two belonging to the Lake Oil Co. and one to the Louisiana Oil Co.
