They want the phonograph that's First with the Hits

TODAY'S popular young folks don't want to dance to the hackneyed tunes of last month. They want the newest—the latest—the best song hits.

Edison is always ten days to three months ahead with the popular music. The "Edison Bunch on Broadway" gets every new song, musical comedy and dance-hit the moment it breaks.

Tests of direct comparison have proved that the New Edison RE-CREATIONS these hits with Broadway's true pep and flavor, because there is no difference between the original music and the RE-CREATED MUSIC.

delivered to your Christmas tree for \$ (Fill in your own first payment)

It cost Mr. Edison three million dollars to make the New Edison the perfect instrument it is. You can have it in your home—delivered to your Christmas tree—for any amount you choose to pay as an initial deposit.

FARM GIRL IS NOW A MOVIE STAR

JEAN PAIGE

Jean Paige spent practically her entire life on her father's model farm in Paris, Illinois. She never dreamed of a motion picture career, but unconsciously was preparing herself for it, spending her after-school hours at horseback riding and other healthful and daring sports.

Then she went East to school, and through excellence in elocution was made an offer to appear on the stage. While she was considering it, she received an offer from the Vitaphone Company, an offer that she accepted. She was a type for many of the O. Henry stories, and being an ardent admirer of that gifted writer, interpreted her parts with great understanding.

She was then given featured parts in longer screen dramas, and finally came her big opportunity. The Vitaphone Company planned to produce a screen version of Anna Sewall's classic, "Black Beauty." It was a most unusual story. It required a most unusual heroine. Rejoice! Jean Paige as "Jessie Gordon." The sensation she created is a matter of screen history. "Black Beauty" with Jean Paige starred, led screen history into a new era. It proved that clean entertainment, after all, was what the public craved.

It was Jean Paige's meteoric success in this shorter-feature that caused her to be selected for the featured role of Vitaphone's "The Prodigious Judge," a screen adaptation of Vaughan Kester's novel, famed as a "best seller."
