

Editorials and Selected Items.

—There was a good harvest of Sweet Corn in this section—most of which was canned.

—Gov. Perham contemplates a trip to New Sweden, Aroostook County, this week.

—Paris Hill Lodge of Good Templars has adjourned over to Friday evening, Sept. 29th.

—Rev. Mr. Ford, who has been detained at Cambridge, by sickness, a few weeks, is expected to return during the week.

—Miss Percie Andrews, one of our accomplished teachers, left last Tuesday for Godfrey, Illinois, to teach in the Seminary at that place.

—Subscribers residing in another State, in arrears, who have had bills sent them, and have not paid, need not be surprised if they do not receive the paper hereafter.

—The Court Temperance meeting will be held on Wednesday evening, as usual. Speakers from different sections of the County will be present. The public are invited.

—The Horse Trot which was advertised for Saturday last, at South Paris, was postponed to Thursday next, 21st, at 1 o'clock.

—W. Hammons, Esq., of Anoka, Minn., son of D. Hammons, Esq., of Bethel, has started a small paper called the "Anoka Local Journal," to advertise Real Estate business.

—Mr. Geo. F. Stevens sends some fine black cherries, the product of a tree in his father's back yard which grew from stones thrown out of the window nineteen or twenty years ago.

—Hon. N. G. Hiebhorn, one of "Perce's" interviewing subjects, turned up missing at the polls Monday, giving place to a Democratic Representative.

—The Camp Meeting at Fryeburg was a great success; the attendance was very large from the immediate region around, while very many went from Portland and further East.

—Wm. H. Porter, of West Paris, raised thirty barrels of nice cucumbers, this season, on half an acre. He makes nice pickles, as the bottle he sent us proves.

—Hebron Academy, A. C. Horrick, Principal, commenced with sixty-five scholars and on the 12th it numbered eighty, representing thirty different towns.

—George F. Beede, of Frenotant, N. H., has onions enough on less than an acre of land to buy a thousand bushels of corn.

—Mr. N. Morse, of North Paris, has had good success in raising onions, a sample of which he presents to us. He got three for seed, from Norway, two seasons ago, raised about nine or ten bushels this year. He will supply seed to those who desire. He demonstrates that good onions can be raised here as well as in Connecticut.

—Dr. Champlin, in Zion's Advocate, says one young lady has already declared her intention to apply for examination for the regular course at Colby University, and others are expected. The terms of admission, &c., are precisely the same as for gentlemen. Young ladies will be expected to board and room in private families and simply to attend the required exercises at the colleges.

—One of the most amusing incidents of election day heretofore, was the cutting of Mr. Petham's name by several temperance republicans, assigning as the reason that the Governor is not sufficient. We believe this objection has not been urged against him very generally during the canvass.—Bridgton News.

—Mr. C. T. Mellen, of our village, got some of the "Turban" squash seeds last season, and raised some nice squashes. It is said that they excel the Hubbards, which we propose testing. Thanks for the specimen he presents, and for some large and very nice tomatoes.

—We learn that the new Lodge of Old Fellows at Lovell, increased its membership fifty per cent. at its last meeting.—D. D. G. M. Gleason was present and assisted in the work, together with other members of Camberland Lodge, says the Bridgton News.

—One would hardly guess, from the appearance of the last Oxford Register, that an Election day had recently occurred in town. Its leader sought to transfer the public mind from this immediate locality to a distant island called San Domingo, whose affairs seemed to trouble the editor.

—Mrs. Manchester, the celebrated Clairvoyant Physician has just closed a very successful visit in Bridgton, and is to spend ten days at Beal's Hotel in Norway. The afflicted in that vicinity will do well to consult her.

—Deacon A. Edwards, of this town has raised a stalk of corn that beats Mr. Hammond's. It measures twelve feet and six inches in height, and over six inches in circumference at the base. This stalk grew in the corn-field, receiving no different cultivation from the rest, yet it towered three feet above any of its neighbors.

—Forest Lake Lodge, I. O. of G. T., will open their new hall at Centre Hartford, by a public Lovee, on which occasion there will be addresses, declamations, tableaux, and Lucias' full band of negro minstrels. They will have a good time. It occurs Wednesday evening, Sept. 27th.

—Mrs. MANCHESTER, the celebrated Clairvoyant Physician has just closed a very successful visit in Bridgton, and is to spend ten days at Beal's Hotel in Norway. The afflicted in that vicinity will do well to consult her.

Furniture Manufacture.

Messrs. Maxin, Hathaway & Davis have at their manufactory on the Hill, about a dozen pine chamber sets nearly ready for the brush, which will soon be put upon them. These sets will retail at from \$28 to \$35, according to finish. They hope to be able ere long to commence the manufacture of hard wood sets. Parties in this county desiring chamber furniture may find it to their interest to call upon these gentlemen. They have some fine looking machinery of the Gear patent. In addition to the manufacture above mentioned, they do job work, such as repairing furniture, manufacturing door and blinds, &c. Give them a call, and thus encourage home industry. We have gone to some expense to get gentlemen to locate manufactories of different kinds on the Hill, let us see to it that they are sustained at least in so far as they are able to furnish what we personally need.—Oxford Register.

—The track of the Maine Central extension has been laid as far as New Gloucester and it is thought it will be joined to the old track at Danville Junction next week. We shall bid good bye to the Grand Trunk, below Danville Junction, in a short time.

—A correspondent says: "You will frequently see in the fall tomatoes picked and placed in the sun in the window, and other places to ripen. This is a mistake. If they are placed in some dark place they will ripen much nicer. I put mine in the lower part of my cupboard."

—The third trial of George Vanderpool, for murdering his partner, Mr. Field, formerly of Lewiston, Me., and in banking business at Manistee, Mich., three years ago, closed Wednesday at Hastings, Mich., by acquittal of the prisoner. In the first trial he was found guilty, and on the second the jury disagreed. The trial has lasted over a month.

The Cause and Cure of Consumption.

The primary cause of Consumption is derangement of the digestive system. This derangement produces deficient nutrition and assimilation. It is a process which by the gradual decay of the body, persons with digestion impaired, having the slightest predisposition to pulmonary disease, or if they take cold, or are exposed to the consumption of the Lungs in some of its forms, and hold their breath, or are exposed to any cause of Consumption without first restoring a good digestion and healthy assimilation. The most valuable remedy ever discovered. It is alkaline, and it will neutralize all acids of excess of food, and it will cleanse the stomach, and restore the liver to a healthy action. For this purpose, the most valuable medicine is Schenck's Mucilage Pills. These Pills cleanse the stomach, and bowels of all diseased mucus and slime which is clogging these organs so that they cannot perform their function, and then restore up and restore the liver to a healthy action. For this purpose, the most valuable medicine is Schenck's Mucilage Pills. These Pills cleanse the stomach, and bowels of all diseased mucus and slime which is clogging these organs so that they cannot perform their function, and then restore up and restore the liver to a healthy action.

—The stomach, bowels and liver are thus cleansed by the use of Schenck's Mucilage Pills, but there remains in the stomach an excess of acid, the organ is torpid, and the appetite is poor. The liver is torpid, and the bile is weak, and requires strength and support. It is in a condition like that of Schenck's Mucilage Pills. These Pills cleanse the stomach, and bowels of all diseased mucus and slime which is clogging these organs so that they cannot perform their function, and then restore up and restore the liver to a healthy action.

These Pills cleanse the stomach, and bowels of all diseased mucus and slime which is clogging these organs so that they cannot perform their function, and then restore up and restore the liver to a healthy action.

—The stomach, bowels and liver are thus cleansed by the use of Schenck's Mucilage Pills, but there remains in the stomach an excess of acid, the organ is torpid, and the appetite is poor. The liver is torpid, and the bile is weak, and requires strength and support. It is in a condition like that of Schenck's Mucilage Pills. These Pills cleanse the stomach, and bowels of all diseased mucus and slime which is clogging these organs so that they cannot perform their function, and then restore up and restore the liver to a healthy action.
