Daily Kennebec Journal.

THE COMING OF THE SILENT GUEST.

BY HOWARD GLYNDON.

Lo! England sends him back to us!
With sealed eyes and folded palms,
He drifts across the wintry sea,
Which chants to him its thousand psalms.

We proudly name and claim him ours,
We take him, England, from thy breast;
We open wide our doors to him,
Who cometh home a silent guest.

We lent him thee to teach thy sons
The lessons of the Open Hand—
Lest famished lips should bless them less,
Than him—the stranger in their land.

We lent him living, unto thee,
To be a solace to thy pain,
But now we want his noble dust,
To consecrate it ours again.

England! we take him from thine arms!
We thank thee for thy reverent care!
If thou and we were ever friends,
We should be so beside his bier.

His memory should be a spell
To banish spleen and bitterness.
Have kindlier thoughts of us, for he
Was tender unto thy distress!

As we have kindlier thoughts of thee,
Because of honor due to him—
For while we weep, we turn to see
That English eyes with tears are dim!

The Galena Gazette of the 20th says: "The big bones taken out of the mines on the Hon. Henry Green's ground, in the village of Elizabeth, furnish a subject for the investigation of the geologist. The shaft has reached a depth of 153 feet. Bones were first struck 90 feet below the surface, and were met with, of various sizes and shapes, all the way from this point to the bottom—a distance of 63 feet. One hundred and fifty-three feet below the surface, an immense tooth was found imbedded between some layers of flint. The skull of a smaller animal was also found, with all the teeth in their sockets, except the front ones, and in quite a perfect state of preservation. What renders this case one of peculiar interest is the fact that all these bones were found far below the first layers of rocks. They were met with among various kinds of deposits, in rock, lead, mineral, and earth. That these bones are of great antiquity, there is no doubt, as the ground where they were found is quite close, and has no opening to the surface; hence their existence cannot be accounted for on the theory that they crept in there and died. All the layers of rock and earth above them have evidently been deposited since the death of the animals. One or two eminent geologists from a distance have sent to secure specimens, and have been supplied. Some very good mineral was raised from this shaft, but it finally gave out, and the mines have been abandoned. Doubtless other interesting discoveries would have been made if the work had continued.

Opinions of the Press.

The KENNEBEC JOURNAL has been enlarged and is now one of the handsomest papers in the United States.—*Portland Press.*

The KENNEBEC JOURNAL comes to us this week enlarged, and with new type, giving it a very nice appearance, and an extra amount of good reading matter.—*Simon, in Lewiston Journal.*

The KENNEBEC JOURNAL comes to us much enlarged and improved. New type, clear paper, and a determination to keep up with the times will ensure to the patrons of the JOURNAL a first-class newspaper. We are pleased to notice these evidences of prosperity on the part of our neighbors of the Journal and wish them abundant success.—*Bangor Whig and Courier.*

The KENNEBEC JOURNAL comes to us this week dressed in new type throughout and greatly enlarged (nine columns to a page), and is now, we believe, the largest paper in the State, with one exception. The JOURNAL is most ably conducted by Messrs. Sprague, Owen & Nash, and deserves the liberal support of the party whose principles it advocates. To its genial publishers we wish the richest success.—*Kennebec Reporter.*

The KENNEBEC JOURNAL was enlarged this week to nine columns, and is now the largest folio sheet in Maine. It is said that the proprietors will issue a permanent Daily henceforth, beginning with the legislative session.—*Boston Advertiser.*

The KENNEBEC JOURNAL of Augusta, will be enlarged, this week, and made the largest paper in the state.—*Springfield Republican.*

The KENNEBEC JOURNAL has spread itself to the size of the Boston Advertiser, and is otherwise improved, so that it is now the largest and perhaps the handsomest paper in the state.—*Waterville Mail.*

The KENNEBEC JOURNAL of last week appeared in an enlarged form, printed on new type and upon a new press.—*Bangor Jeffersonian.*

The KENNEBEC JOURNAL, always neatly printed and ably conducted, comes to us enlarged and if possible neater looking than ever before. It is now the largest weekly printed in Maine.—*Machias Union.*

The KENNEBEC JOURNAL comes to us this week in a new dress, and considerably enlarged, indicating a prosperous condition financially, and which is well deserved.—*Aroostook Pioneer.*

The KENNEBEC JOURNAL comes to us much enlarged, and dressed in a spick and span new suit. Augusta is bound to grow, and the JOURNAL proprietors evidently mean to be up to the times.—*Portland Transcript.*

The KENNEBEC JOURNAL has been greatly enlarged, and is now we believe, the largest paper in the State. The publishers have recently added one of Campbell's best newspaper presses to their already very complete establishment, and are prepared to answer all calls that may be made upon their typographic resources. It takes no backward steps though in its issue it casts "A Glance Backward" to its first number, comparing that with the present.—*Gardiner Journal.*

The KENNEBEC JOURNAL, one of the best weekly papers in New England, comes to us enlarged this week. We are glad to see such proof of its prosperity.—*Boston Transcript.*

The KENNEBEC JOURNAL comes to us this week in an enlarged form and new dress. It makes a splendid appearance, and is worthy of an extensive circulation.—*Biddeford Journal.*

The KENNEBEC JOURNAL has been enlarged, and is now the largest paper in the State. The publishers have had a mammoth Campbell press built specially for it, and with a new dress of type it is a very handsome sheet. The publishers should receive a liberal support to compensate for the heavy outlay which they make.—*Rockland Free Press.*

The KENNEBEC JOURNAL comes to us in a new dress, and much enlarged, which are evidences of prosperity. The proprietors of the State paper are energetic business men, and deserve much credit for this last improvement in their valuable journal, and we wish them large success, financially, and otherwise.—*Farmington Chronicle.*

The KENNEBEC JOURNAL has been enlarged and very much improved. New type, new press, new determination to make a first-class State paper. The JOURNAL never looked so prosperous and well-to-do, and we are more than pleased at these evidences of prosperity.—*Ellsworth American.*

The KENNEBEC JOURNAL has been considerably enlarged, dressed in a fine new suit, from head to foot, and makes a fine appearance.—*Calais Advertiser.*

The KENNEBEC JOURNAL comes to us enlarged and in a new suit of type. The JOURNAL is well conducted, readable, industrious in news, and pretty much all that a newspaper should be, except in its politics.—*Republican Journal.*

The KENNEBEC JOURNAL has been enlarged, and is printed with new type and a new press. It is one of the largest and best weekly papers in the State.—*Eastport Sentinel.*

THE KENNEBEC JOURNAL. This valuable State paper has recently been enlarged, with an entirely new dress. It is printed on one of Campbell's presses—and is one of the largest if not the largest papers in the State. The JOURNAL is now a thirty-six column paper—and the publishers must have been at great expense in making such improvements without any extra charge for the paper.—*Piscataquis Observer.*

NEWSPAPORIAL. The KENNEBEC JOURNAL, which was large enough before, has been enlarged and is now the largest in the State. It is printed on new type and is a handsome as well as a well edited paper.—*Progressive Age.*

THE SCIENCE OF LIFE, or SELF-PRESERVATION.

A Medical Treatise on the Cause and Cure of EXHAUSTED VITALITY, PREMATURE DECLINE IN MAN, NERVOUS AND PHYSICAL DEBILITY, HYPOCHONDRIA, and all other diseases arising from the ERRORS OF YOUTH, or the INDISCRETIONS or EXCESSES of mature years. This is indeed a book for every man. Price only One Dollar. 285 pages, bound in cloth. DR. A. H. HAYES, Author.

A Book for Every Woman.

Entitled SEXUAL PHYSIOLOGY OF WOMAN AND HER DISEASES; or, WOMAN TREATED OF PHYSIOLOGICALLY AND PATHOLOGICALLY, from INFANCY TO OLD AGE, with elegant ILLUSTRATIVE ENGRAVINGS.

These are, beyond all comparison, the most extraordinary works on Physiology ever published. There is nothing whatever that the MARRIED or SINGLE of EITHER SEX can either require or wish to know, but what is fully explained, and many matters of the most important and interesting character are introduced, to which no *allusion* even can be found in any other works in our language. All the NEW DISCOVERIES of the author, whose experience is of an uninterrupted magnitude—such as probably never before fell to the lot of any man—are given in full. No person should be without these valuable books. They are utterly unlike any others ever published.

VALUABLE BOOKS. We have received the valuable medical works of Dr. Albert H. Hayes. These books are of actual merit, and should find a place in every intelligent family. They are not the cheap order of abominable trash, published by irresponsible parties, and purchased to gratify coarse tastes, but are written by a responsible professional gentleman of eminence, as a source of instruction on vital matters, concerning which lamentable ignorance exists. The important subjects presented are treated with delicacy, ability and care, and, as an appendix, many useful prescriptions for prevailing complaints are added.—*Coos Republican, Lancaster, N. H., Sep. 7, 1869.*

DR. HAYES is one of the most learned and popular physicians of the day, and is entitled to the gratitude of our race for these invaluable productions. It seems to be his aim to induce men and women to avoid the cause of those diseases to which they are subject, and he tells them just how and when to do it.—*Farmington Chronicle, Farmington, Me., Sept. 2, 1869.*

These are truly scientific and popular works by Dr. Hayes, one of the most learned and popular physicians of of the day.—*The Medical and Surgical Journal, July, 1869.*

Price of SCIENCE OF LIFE, $1.00. PHYSIOLOGY OF WOMAN AND HER DISEASES, $2.00. In Turkey morocco, full gilt, $5.00. Postage paid.

Standard Periodicals for 1870.

Republished by the Leonard Scott Publishing Co., New York.

Indispensable to all desirous of being well informed on the great subjects of the day.

1. The Edinburgh Review.

This is the oldest of the series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.

2. The London Quarterly Review,

which commences its 128th volume with the January number, was set on foot as a rival to the EDINBURGH. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.

3. The Westminster Review

has just closed its 92d volume. In point of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.

4. The North British Review,

now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formalism of schools and parties, it appeals to a wider range of sympathies and a higher integrity of conviction.

5. Blackwood's Edinburgh Magazine

was commenced 52 years ago. Equaling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches with which it enliven its pages.

Consumption.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS for Diseases of the Liver, or to act as a gentle Purgative.

All of these three medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These medicines are conscientiously offered to the public as the only safe, certain and reliable remedies for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been proved by the thousands of cures it has made through a period of more than thirty-five years, in all of which time its reputation has constantly increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of this medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck himself was cured in precisely such circumstances, and many others have been equally fortunate by judiciously making a timely use of Dr. Schenck's remedies.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts, that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physician, they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased, and to some extent destroyed, a cure may be effected by Dr. Schenck's med

Also, in Scrofulous diseases these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores, and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption, it is of the utmost importance to give vigor and a health tone to the system. Hence it is necessary to strengthenthe appetite of the patient and improve the digestion. Proper nourishment is required, together with such mean as will make the food easily digestible. The articles most suitable for the diet of consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most highly nutritious articles are to be preferred; but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Sea Weed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated, and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of the Pulmonic Syrup will complete the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These pills cure the most obstinate costiveness, sick headache, piles, bilious affections, and all otherdisease which arise from a torpid or obstructed condition of the liver. One box of these pills will prove the efficacy of the medicine.

In Consumption, the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs were almost entirely destroyed, and all symptoms, according to the judgment of physicians, indicated speedy death. The lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North Sixth Street, Philadelphia, Pa.

The aim of the Proprietors of the

NEW YORK EVENING POST

is to furnish

A Good Newspaper,

and the following figures will show their intention to supply it

AT A LOW PRICE.

Club Rates For Weekly

The above rates are as low as those of any first-class newspaper published.

The social and political principles which the New York EVENING POST has so long and faithfully supported, it will continue in the future to advocate. What these principles are, our readers well know; they may be summed up in few words: National Unity, State Independence, and Individual Freedom and Equality of Rights. The perpetuity and supremacy of the Union, as the guaranty of our national strength and glory; the Independence of the States, in all their local affairs, as the guaranty against an oppressive and dangerous centralization: the Freedom and Equality of the Individual, without regard to birth or accident, as the rightful end of all government, and the surest means of social development, personal happiness and national progress.

These principles the EVENING POST will support and recommend to the people, without regard to party associations. We shall never support any party in its departures from them, and shall endeavor, so far as our influence extends, to cause them to be recognized by men of all parties.

Club Rates for Semi-Weekly.

Single Copy one year	**$4 70**
Two Copies " "	**7 00**
Five Copies or over, for each copy	**3 00**

As a newspaper, the EVENING POST, edited by WM. CULLEN BRYANT, assisted by an able corps of writers, will be conducted with the same care which has marked it hitherto, to exclude from all its columns, those devoted to advertisements as well as its reading columns, everything which would offend against morality and correct taste. It shall be the care of its proprietors to see that all its departments are conducted with the utmost ability which a liberal expenditure of money and unflagging industry can command. Its editorial discussions will be unpartisan, and devoted to the elucidation and advancement of sound principles; its literary criticisms shall be impartial, and as able as we can make them; its foreign correspondence, which has been greatly improved during the past year, will during the present year be more varied and interesting than ever before; its home correspondence also, and especially that from such central points of interest as Washington and Albany, will be full and accurate.

Its financial and commercial reports, which have made the paper a necessity to business men in all parts of the country, shall be made with the same vigilance, accuracy and impartiality which now characterize them. Its agricultural, shipping, market and other reports shall be as trustworthy and complete as industry and the expenditure of money can make them.

In short, we mean our journal to be so conducted that it shall be read with interest and benefit by all the members of the family; and as it is one of

THE OLDEST!

it shall also be one of the best newspapers published in America.
