The House made good progress with the Legislative, Executive and Judicial Appropriation bill, but it is doubtful whether it will be completed before Tuesday. One of the most important provisions of the bill is the increase of the pension office force by nearly one thousand additional clerks, the object being to settle the arrearage claims during the next four years. The prospect of the reduction of taxation to any considerable extent during the next two or three years is not promising, for the pension payments would aggregate in four years \$450,000,000.

Elegance of Home.

I never saw a garment too fine for man or maid; there never was a chair too good for a cobbler or a cooper, or a king to sit in it; never a house too fine to shelter the human head. These elements about us, the glorious sky, the imperial sun, are not too good for the human race. Elegance fits man. But do we not value these tools for the housekeeping a little more than they are worth, and sometimes mortgage a house for the mahogany we would bring into it? I had rather eat my dinner off the head of a barrel, or dress after the fashion of John the Baptist in the wilderness, or sit on a block all my life, than consume all myself before I got to a house, and take so much pains with the outside when the inside was as hollow as an empty nut.

W. L. CARTER. An invitation to consider the Egyptian question has been received by the Austrian government.

ONE EXPERIENCE FROM MANY. I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hop Bitters long may they prosper, for they have made mother well and us happy."—The Mother.

At one time when memory had failed him a visitor happened to mention Dr. Furness, of Philadelphia. Perfectly Amazed.

In the San Francisco Evening Bulletin, we observe that Mr. Rosenthal, of the well-known printing firm, Rosenthal & Roesch, 538 California street, that city, said to one of their reporters: "We all know of St. Jacob's Oil, and are perfectly amazed at the suddenness of the relief it affords. TONY PASTOR IN TROUBLE.

Tony Pastor, of New York, who is now with his family in the city of London, is recognized as the leading character vocalist and variety performer of the United States. The writer of this article met Mr. Pastor recently, and found him as genial in private as he is charming before the public. During our conversation he related to me his physical ailments, and he replied that it was excellent. He had occasionally severe pains, either the result of rheumatic attacks or colds, but any complaints of this character never troubled him long, as he had found out a remedy for all such annoyances everywhere. At a St. Louis theatre recently he performed the play in progress, one of the lady performers met with a painful mishap, which quite disabled her. The lady of the piece, equal to the emergency, called out to one of the ushers to "bring a bottle of St. Jacob's Oil quickly." The thundering applause throughout the entire house which promptly followed the entire incident are a true index of the unexampled popularity the Great German Remedy enjoys everywhere.
