### TESTED and PROVEN.

There is a Heap os Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Yale readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Jephtha Tucker, Handy street, Lmly City, Mich., says:—"My kidneys troubled me ever since I was in the army. My back ached terribly at times and I often felt like giving up. If I caught the least cold it would settle in my kidneys and at such times the secretions would be highly colored, scalding in passage and too frequent in action, especially at night, greatly disturbing my rest. I procured Doan's Kidney Pills and before I had taken all of one box I was cured. Our little girl also had a kidney weakness, and the use of this remedy wonderfully benefited her." (From statement made Aug. 15, 1901.)

#### PERMANENTLY CURED.

On October 17, 1906, Mr. Tucker said:—"Doan's Kidney Pills cured me five years ago and I have had no occasion to use them or any other kidney remedy since. I feel it my duty to re-indorse them."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—DOAN'S—and take no other.

#### POLITICS AND BUSINESS

If we had the power to make all business men obey our commands we would say to them: "Wake up and go into politics!"

Does that shock you business men a little bit? Don't let it. Just listen open-mindedly for a moment. You are not being invited to destruction. You are invited to self-preservation. You have had lessons enough in the past two or three years, the Lord knows, to direct you into the right road but it is doubtful if you have yet quite learned to apply them.

You business men have fallen into the habit of thinking politics as something apart from and foreign to yourselves, your business and your interests in the community—as something a little off-color. You vote once in a while when the newspapers tell you some "grave moral question" or some "important national issue" is at stake, but you seldom take more than a languid interest even then most of the time you turn up your noses at politics as at something unclean, boast your ignorance of it and snugly regard yourselves as superior persons just because you have "nothing to do with politics."

Practically all the evils that afflict the business world today are traceable to your mistake. If politics is unclean, you are to blame for letting it become unclean. If it harasses and oppresses business, you are to blame for letting it do so.

You are denounced directly in some quarters for the business men have corrupted politicians for selfish ends. That is not true of you and it is not fair to you, as a class. Your fault has been the fault of neglect. Evil consequences have followed as naturally as weeds spring up in the neglected garden.

Politics should be as close to you business men, in the mass, as your several business interests are to you individually. It touches practically every phase of your interests, severally and collectively, yet you ignore it. That is bad business.

You would not think of filling an exposed warehouse with valuable and inflammable goods and then canceling the fire insurance. That is precisely what you do when you ignore politics.—American Business Man.

They tell me that Jeff Brown would like awfully well to be state senator from this district, but is afraid of being defeated and doesn't know whether or not to enter the race. Jeff would like to convince the people that he is not tied up to the postmaster outfit and finds it hard to do this. He believes, it is said, that without the handicap of the postmaster's support he could be sure of the nomination and election.—Port Huron Herald.

The American Protective Tariff League is early in the field with a document entitled "The Vital Issue Before the American People." This is a reproduction of the great speech of Hon. Joseph W. Fordney, M. C., of Michigan, a member of the Ways and Means Committee of Congress. One copy will be forwarded free to any person sending a postal card request asking for document No. 93. Address W. F. Wakeman, Secretary, 339 Broadway, New York.

Judge Eugene F. Law has earned a reputation as a circuit judge second to none in this state. Should Judge Law become a candidate for the supreme court bench, the announcement will be received by members of the bar all over the state with a feeling of satisfaction. While the city of Port Huron, should Judge Law's candidacy prove successful would lose a highly esteemed citizen, it would be a source of great pleasure and satisfaction to his fellow citizens to see him elevated to this high and honorable position.—Port Huron Herald.

"I have used Dr. King's New Life Pills for several years, and find them just exactly right," says Mr. A. A. Felton, of Harrisville, N. Y. New Life Pills relieve without the least discomfort. Best remedy for constipation, biliousness and malaria. 25c. at Pollock & Hennessy's drug store.

### AN IMPOSING STRUCTURE.

On Monday, July 6, the St. Clair County Savings Bank will formally open its new home in Port Huron and all are extended a cordial invitation to be present on this occasion. The new bank stands as a monument to modern architecture and neither pains nor expense has been spared to make it one of the most safe and up-to-date institutions in Michigan.

With this end in view the bank contains every convenience known to mechanical skill and its architectural de-

sign in further enhanced by one of the most beautiful interior finishes ever given a building of any kind in Port Huron or the state of Michigan. When it is known that this bank houses millions in money every safeguard known must be employed to protect it. The building is therefore equipped with a burglar alarm vault and woe to the man who tampers with it after the working hours are over.

Should some unwelcome guest try his hand at the modernized methods of banking an alarm will immediately be sent all over the central portion of the city via a gong which is placed on top of the structure. This gong when it is in operation clangs with a deafening peal so that the soundest of sleepers will be awakened with a suddenness that will startle them.

The interior of the bank is a wealth of beautiful iron and steel net work with mahogany desks, tiled floor, beautiful decorative mosaic work all uniting in perfect harmony and tone. There is a special department for women who can cut the bank any time and write letters, talk over any situation or prepare their toilet.

When in Port Huron all are urged to visit the bank and inspect it and the hand of welcome will always be extended to visitors.

#### HORSE RACES AT DETROIT.

Michigan and Canadian horses promise to cut a material figure in this year's harness racing, starting with the grand circuit inaugural at Detroit, July 27 to 31. Scott McLane, of Coldwater, is getting on famously with his pair of campaigners. The trotter, Octoo, 2:07 1/2, has been a mile at the fair grounds in 2:10 1/2, which makes him formidable in the \$3,000 stake at Detroit, as well as in the other early closing events in which he is named.

Auto, 2:07 1/2, the pacing full brother to Octoo, has been a mile in 2:10 and the last quarter at a two-minute gait, showing a return of the form which characterized his career in 1906.

The Canadian development pacer, The Liar, 2:14 1/2, now being raced by Frank Cares, paced a mile in 2:08 1/2, the last quarter at the rate of 2:01. He is in the \$3,000 Chamber of Commerce stake at Detroit and all the rest of slow pacing classics.

The Eel, a gray pacer owned in Canada and driven by Dan McEwen, is coming along splendidly and is to be considered on his mile in 2:35 last year. All of the Michigan horses at the fair grounds in Detroit are showing unexpected speed, and it is expected that they will give good accounts of themselves in the best of company.
