

"Say It With FLOWERS"

Chrysanthemum Season

is here, and our stock of these flowers is larger than ever. A number of varieties are in full bloom.

The CARNATIONS

are coming fine now, good flowers and long stems. We have an extra nice lot of large FERNS, just right for the house this winter. Now is the time to

Plant Bulbs for Spring

Flowers. We have just received a large shipment of Hyacinths, Tulips and Narcissus.

in humans. You know the charge is often made that farmers think more of their cattle than they think of people. While I don't think this is at all true, it is up to us to show by acts that it is not true.

There is great interest in tuberculosis among cattle, and properly so, but there should be even greater interest in tuberculosis among people. The farmers of the county should help in the fight against the white plague, since the statistics show that the farmers suffer almost as much from this disease as the people in the cities, in spite of the natural advantages of pure air and out-of-door life.

What can the farmers do? They can do this as a beginning:— They can help along the big Christmas Red Cross Seal Sale that is being put on through Michigan by the Michigan Anti-Tuberculosis Association. The State Association is trying to sell 15,000,000 one cent seals that are to be used on the reverse side of holiday letters during December. In this way the State Association is trying to collect 15,000,000 pennies with which to fight tuberculosis in all the 83 counties of the State during 1920, Van Buren County included.

If the sale is to be a success, every person will have to do his share. The State Association has it figured out that it will mean buying five Christmas Seals for every man, woman and child in the state. But since there are a lot of babies and indigent persons who can't buy, it is perhaps better to figure on each person buying ten or fifteen cents worth or as much as possible to make up for those who can't buy.

Have you got fifteen cents worth of interest in fighting tuberculosis here and throughout Michigan? If so, help the Seal Sale along. It will be held from December 1st, to December 10th.

FARM BUREAU NOTES

The War on Human Tuberculosis

The following is relative to the fight on human tuberculosis which is being waged by the Michigan Anti-Tuberculosis Association. This material explaining what farmers and, for that matter, all persons can do

to help the good work along, has just been received at this office from Elizabeth L. Parker, Executive Secretary, Michigan Anti-Tuberculosis Association.

What is Van Buren County going to do about tuberculosis? I don't mean, now, tuberculosis in cows, but

Lay a bet on rolling 'em with

PRINCE ALBERT
the national joy smoke

ROLLING your own cigarettes with Prince Albert is just about as joy'us a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

Awaiting your say-so, you'll find tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and—that classy, practical pound crystal glass humidor with sponge moistener top that keeps Prince Albert in such perfect condition!
