LET'S GO GANG—WHERE! TO PINE EDEN

Ten Days of Real Sport—Swimming Fishin' n' Everthin'

A call for men is being sounded by Secretary Odgers and Chas. R. Richards, camp director. Boys who like manly sport and parents who want their boys to enjoy an inspiring and instructive camp vacation should heed the summons. Reveille at 6:45, morning dip at 7, swim, cats, athletics, campfire program, "tattoo," and final "taps" at 9:30 embraces part of the beginning, end and in-between of the ten days vacation program of the Iron county boys summer camp which will open on the shores of Stager lake within a few weeks.

Mobilization will be in two sections, the first session of the camp from August 1 to 10 will be for boys from 12 to 15. The second period from Aug. 15th to 25th for the fellows over 15.

Never before, boys and parents, has Iron county boys' camps faced a greater year. Last year boys revelled in the sport of it all; the fishing, hunting, swimming, games, and the military atmosphere. Tender white skins changed into a rugged brown, and apathetic appetites into insatiable hunger, soft muscles hardened into tendons that refused to ache; inert dispositions, lost their reticence and unconsciously exploded amid the revelry of it all. But all the gayety, fun and sport of a year ago will be there and more too. That much has been assured by the new camp director. He will be glad to confer with either parents or boys relative to the details of the camp plan. The camp is all set and rarin' to go.

Applications should be mailed to the county Y. M. C. A. office, at Crystal Falls, Michigan, box 854, before July 25th. A deposit of \$1 must be made with each filed application. The balance of the \$5 camp fee should be paid upon arrival at camp. For further information write the above address.

SAGOLA TEMPORARY SUSPENSION

Breaking of Belt Operating the Band Saw Shut Down the Plant Two Days

There was an enforced idleness of two days at the mill of the Northern Saw Mill Co. this week due to the breaking of the big belt that operates the band saw.

A new belt was ordered immediately from Marinette and it took but a few moments to put it on and get going when the belt arrived. The mill is in operation steadily and the supply of logs is sufficient to keep going without any stops. A very large cut of lumber is being piled up in the mill yards.

SCHOOL ELECTION
The annual election for the township school district of Sagola township was held last Monday and a large vote was present at the polls from Sagola. The polling place is at Channing so that all the automobiles in the village were pressed into service to convey the voters from Sagola to the place of meeting.

The ballot contained the names of two candidates from Sagola and one from Randville, but there was some opposition to the regularly selected nominees which didn't amount to much, as the Channing people recognized that the south end of the township should be represented on the board.

The candidates from this end were John Clark, C. J. Hunting and T. J. Dewish.

FLORENCE WON GAME
The game of base ball played last Sunday between the Sagola team and the Florence base ballists was won by the fellows from Wisconsin by a score of 7 to 4.

It was a well played game from start to finish with Carey and Marsh pitching for the locals. The two teams were well matched which made a good game of it from start to finish. The attendance was very good, many of the Channing people coming down to see the game as there was no game in Channing that day.

It was the first game in which the new grand stand was used and that feature proved to be very popular with the patrons of the game.

CHANNING CAUSE OF DEATH UNKNOWN

Coroner's Jury in the McNamara Case Unable to Determine Who Was Responsible for Death

The coroner's jury in the case of John McNamara, whose death was told about in last week's issue, met at Iron Mountain last week Thursday. After listening to the witnesses brought before the jury, the body decided that it couldn't tell who was responsible for McNamara's death and they returned a verdict to that effect. It is understood that the jury has not been fully discharged and that it will be called to meet again if any new developments arise that tend to show who was responsible for the man's death.

The principal witnesses before the jury were Drs. Hayes of this village and Crowell of Iron Mountain. Dr. Crowell performed the autopsy. He testified that several ribs and the left arm were fractured and the liver crushed, the latter injury alone being sufficient to cause death.

The young men from Felsh who were suspected of being connected in some way with the man's death, were not present at the jury hearing, and so far as the members of the jury could learn, they were not wanted at the coroner's inquiry.

The talk about the suspicious attaching to these men has died down considerably and if there is any direct connecting testimony, the people of Channing know nothing of it.

A LIVELY SCHOOL ELECTION
Channing is the headquarters for Sagola township schools and the election for members of the board of education last week brought out a larger number of votes than was expected.

It was tacitly agreed by those conversant with school affairs that the south end of the township, Sagola and Randville, were entitled to the members to be elected and with the end in view of distributing the representation equitably Messrs C. J. Hunting and John Clark of Sagola and F. J. Dewish of Randville were nominated for the positions and their names printed upon the ballot.

Opposition sprung up in various quarters to the regularly nominated candidates, the electors registering their choice by writing the names on the ballot. Many ballots with the names so written in were spoiled and had to be rejected.

The result of the vote is as follows:
Trustee for Two Years:
C. J. Hunting 64
John Clark 65
William Shay 7
S. W. Wilard 7
John McCole 35
William Foak 6
F. W. Hinkley 1

LITTLE ORE MOVING

Channing Yards Are The Slackest in Their History This Year

The putting on of two spot jobs at Crystal Falls this week has caused just a little interest in ore circles about Channing where the dullness is the greatest of any summer in the history of the place.

The two jobs are at the Carpenter mine where the shovel was started up on Monday and will continue loading until a quantity, understood to be 20,000 tons will be loaded up. There are faint hopes that other loading jobs will be started at Crystal Falls and Iron River but the officials here have no information as to any new ones.

During the week the mine buildings at the Bates mine at Iron River burned, causing a suspension of operations there for a time and that accident will cut off a possibly supply of ore for a time.

A total of about 80 cars of ore per day is being handled through the Channing yards, which is a mere bagatelle of what is usually handled in the ore season, when fully 1,000 cars per day are sent forward. All of the ore on the St. Paul system comes to the Channing yards, no matter where the traffic originates.

Onions the Oldest.

Onions have caused more tears for more years than any other subject in the world; they have been swept over since before the pyramids were built. There are hieroglyphic tears on ancient obelisks of the land of the Pharaohs showing that the Egyptian slaves had them for lunch. In point of antiquity the onion is the oldest and most aristocratic of vegetables.
