INVESTMENT CONTRACTS

For the benefit of those who either do not have the time or the opportunity to investigate as to values, or who are non-residents, we make investments in St. Paul real estate large or small amounts, under our "Investment Contract System," whereby the party investing is guaranteed his (or her) money back at 6 percent interest and a share of the profits. All purchases are taken in the name of the party furnishing the money. We are the property owners, and charge no tax on sales and assessments, and sell the property and divide profits.

In other words, we provide a knowledge of the market and time against the capital furnished. When your money is paid to you and interest at 6 percent, the profits thereafter are divided equally, send for copies of our "Investment Contracts," or call and see us while you are in the city.
