KETTLE-CURLEW DRUMMER’S MINES and TOWNSITE and THE SUSQUEHANNA PLACER GOLD MINES

KETTLE-CURLEW INVESTMENT PLAN.

Investments in the Kettle-Curlew Drummer’s mines, Curlew townsite, Railway, etc., are in the form of “mining investments contracts.” These are paid in lots of two, three, four, five, six, seven, eight, nine and ten cents each, full paid and non-assessable. These shares are selling at one cent now, but will be raised and sold in a few days at the discretion of the company. Later, they will be still higher. The money invested in them is paid to W. E. Rich-

SUSQUEHANNA INVESTMENT PLAN.

Investments in this rich placer gold mine, located on Hughes Creek, Lorch county, Idaho, are in the form of four mortgages, each bearing certificates secured by deed. In other words, our company bought the mine, 150 acres, outright, and obtained a clear title, in fee simple. The absent is this mine the equivalent of four mortgages, each with a deed. We have bought the mine and its 4-acre, hydraulic plant at W. E. Richemond, Trustees, in trust for the certificate holders, and the deed has been duly recorded with the register of deeds of Lorch county, Idaho. These certificates are sold at $8.90, 10.00, and 15.00 cents, full paid, non-assessable and without liability. There are still some at 5 cents, but we will very soon go to the 8-cent issue. The success of this new proposition has been phenomenal. The certificates sold under 5 cents and it is a good bargain. We have a few of the 5-cent certificates and these are worth over $500,000,000, at 2.500,000 ounces of gold at $100 per ounce. The company will pay to the certificate holders every month the interest on the principal on interest. It will be paid in cash at this rate. The company’s payment will not exceed $200,000 per month. It is to be paid in cash and will be fully 100 per cent on the total investment proposed, even beyond the whole of the $250,000,000 certificates. The company has a perfect right to change the rate of interest at any time and the change will be made at the discretion of the company. The company will pay every month the interest on the principal on interest. It will be paid in cash at this rate. The company’s payment will not exceed $200,000 per month. It is to be paid in cash and will be fully 100 per cent on the total investment proposed, even beyond the whole of the $250,000,000 certificates. The company has a perfect right to change the rate of interest at any time and the change will be made at the discretion of the company.

The Susquehanna Placer Gold Mine of Idaho.

This mine contains 130 acres of Gold placer ground that will average 50,000 cubic yards a year, or 5,000,000 cubic yards in 5 years. They are sold at 10 cents a share, or $5.00 per acre. The company is now paying the interest on the principal on interest. It will be paid in cash at this rate. The company’s payment will not exceed $200,000 per month. It is to be paid in cash and will be fully 100 per cent on the total investment proposed, even beyond the whole of the $250,000,000 certificates. The company has a perfect right to change the rate of interest at any time and the change will be made at the discretion of the company.
