.....For You

GROWING, POPULAR SCHOOL

Stands For
SUCCESS

THE LARGE INCREASE in attendance this year over last makes it necessary for us to secure more room. We have leased the balance of the rooms on this floor, formerly occupied by the Masons, and will occupy them about Nov. 10. This will give us the entire third floor of the big Kiewel Block—nearly 7,000 square feet of floor space. This is the second time, within two years, we have been obliged to enlarge our quarters.

SOME REASONS WHY

every young man and woman should secure a business education. This is a business age and no matter what trade or calling you may follow, a good training in commercial branches is a necessity.

A business education offers young people quicker, surer and more permanent returns than any other line of work for the time and money invested.

The opportunities for promotion, and increased salary to good bookkeepers and stenographers are very much greater than in any other line of work.

If you wish to get out of the rut you are now in; if you want to take advantage of the many opportunities which require a business training, write us and learn what you can do by taking a course in the Little Falls Business College.

Many young people come in every fall and take a six or seven months' course and then go out to a position in the spring. You can do the same if you start now. The opportunity is yours, will you improve it?

We believe in getting results, and that is what you want. When you attend the Little Falls Business College you are sure of getting what you came for. If you can't get it we don't want you to stay.

Our method of paying tuition by the month has proven very satisfactory and is more business like and fair to all.

When You Take Your Business Course Take it at the

Write To-day For Particulars

THE STEADY GROWTH

of the Little Falls Business College is due to the fact that we give the students what they come for—a thorough training in the commercial branches; the best equipment to work with; and every inducement offered for hard, earnest and enthusiastic work.

The fact that our graduates have no difficulty in securing positions and holding them has been the best advertisement this school could have.

Our course of study is not a wide one. We specialize on a few subjects instead of scattering over many. This is a commercial school and our aim is to teach the commercial branches in a thorough manner. The results have been very satisfactory.

Our typewriter equipment consists of eighteen standard typewriters, equipped with blank key board for touch typing. The Little Falls Business College has more machines than any three schools in northern Minnesota, with but a single exception. In our commercial department we have a fully equipped bank that would do credit to any banking institution. We have lately ordered seventy-five individual commercial desks to take care of the large increase in attendance.

When you attend a business college attend the best. Investigate. Visit the school, if possible. Meet the instructors. Size up the equipment. Talk with those that are attending. Ask outside about the standing of the institution. It is too important a step to leave to chance. Observe the old motto, "Be sure you are right then go ahead," and take your course in the Little Falls Business College.

Whether you are going to take your business course this year or next let us hear from you. Do not be afraid to write us for full particulars, or, better yet, call at the office and see what we are doing for others. We can do the same for you.

Many Unnecessary Fatalities

Appendicitis Known Among the Ancients and Treated It as Such

The Modern Surgeon's Hobby "The Knife"

Appendicitis which is thought to be of modern origin, is as old as the human family. This disease was known among the ancients and many systems of treatment were in practice. There are many cases of appendicitis where operations are absolutely necessary and as well where operations are unnecessary.

With appendicitis are complicated many other diseases such as bowel, liver, stomach troubles, kidney troubles, poor circulation, bad blood, weakness of the heart, female troubles, and a variety of similar troubles which more or less influence the primary cause of appendicitis. The surgeon's knife in these instances fails to bring about the required results. They fail to bring health to the patient and fail to remove the cause. Such operations leave the patient in a worse condition than they were in the first place.

A medical doctor is of prime importance, one who is familiar with constitutional chronic conditions of the patients and one who has had sufficient experience in the treatment and cure of appendicitis, typhalitis and bowel obstruction.

Every large city has its specialists in these particular classes of diseases; even in many of the smaller towns throughout the country, medical doctors are sufficiently well versed in these diseases to give an opinion. Inasmuch as different people in different climates require different treatment, the expertness of the physician is of the most importance.

Thousands of cases are being annually cured by Dr. Rea, and even cases that have been operated upon and where they have been in a worse condition than before the operation.

Dr. Rea's cures speak for themselves. He is a man simply prepared to combat with the different complications in all phases of these diseases. His medical training has been of such character to warrant his sufficient confidence in himself to assure his patients whether or not it is best to

have an operation or resort to milder methods.

Dr. Rea as a specialist, treats and cures all chronic, nervous surgical diseases, diseases of deep-seated, lingering and of long standing, such as heart disease, bad blood, tubercular diseases, cancer, tumor, varicocele, rupture. It is said by his friends that he has the ability to diagnose the disease of any patients without even asking a question. This being so, he is not liable to doctor a patient for the wrong ailment.

We herewith take the liberty to publish the names of a few of the many cures he has made.

Mrs. George Kasauke, St. Cloud, Minn., cured of cancer of the womb.

John Fechte's child, Brainerd, Minn., cured of blindness.

Mrs. John Gmeiner, Long Prairie, Minn., cured of chronic ulcerated sore legs.

Mrs. Geo. Jacobson, St. Cloud, cured of stomach and liver troubles.

Ole Satrom, Colgate, N. D., cured of fistula and piles by the hyperdermic Injection Method.

Mrs. J. Schoonover, child, Skybo, Minn., cured of partial paralysis, loss of flesh, and general debility.

Miss Sweden, Bird Island, Minn., cured of early consumption and bronchial catarrh.

R. R. Gray, Sheldon, N. D., cured of deafness.

Mrs. N. W. Larson, Wilmar, Minn., cured of bronchial catarrh that had almost gone into consumption.

R. C. Dues, Sharon, N. D., cured of chronic rheumatism.

Mrs. O. Heen, Meckinock, N. D., cured of chronic eczema which had spread all over her body.

Mrs. G. F. Nordin, Wilmar, Minn., cured of eczema and bad blood.

J. A. Carlson, Kirkhoven, Minn., cured of chronic rheumatism, could hardly walk and had lost all hopes.

Hugh Frazer, 1523 E. Superior St., Duluth, Minn., cured of neuralgia and rheumatism.

Mrs. Herbert Watt, Duluth, Minn., cured of female troubles, and liver and stomach troubles.

Hans Homelvig, Fargo, N. D., cured of varicocele by Injection Method.

Mrs. Albert Tesman, Excelsior, Minn., cured of chronic eczema.

Mr. Albert Tesman, Excelsior, Minn., cured of ulcerated leg (big leg).

Louis Sicking, Watertown, S. D., cured of consumption and stomach troubles.

Miss Anne Gieving, McIntosh

Minn., cured of early consumption.

C. J. Wendt, Duluth, Minn., cured of chronic eczema all over the body.

Of two years standing.

William Reid, Little Falls, Minn., cured of cancer of the hip in one treatment.

H. P. Jackson, Morris, Minn., cured of long standing piles. Cured it without operation.

L. S. Dreasler, Ellison, N. D., cured of fistula of the rectum.

Quickly cured of this most terrible disease.

Mrs. Martin Downs, Wilmar, Minn., cured completely of partial blindness.

Gregor Johnson, Harwick, Minn., cured of ulcerated sore leg. Thought he was crippled for life.

Ole Larson, Wild Rice, N. D., cured of a disease of the stomach.

Mike Ritman, Littleville, N. D., cured of external piles.

That Dr. Rea's wonderful cures are sufficient reasons to prove that he is one of the greatest specialists of modern times.

Barleigh Mitton, former publisher Journal Observer, Redfield, S. D.

Special to the Herald:

The many patients of Dr. Rea will be glad to know that he has arranged his next regular professional visit and will visit the towns stated here below. One day only, returning every four weeks. This coming of Dr. Rea will enable his many patients to consult this eminent specialist close to their homes.

Consultations to those interested \$1.00.

St. Cloud, Grand Central hotel, Monday, Nov. 4th, from noon until 8 p. m.

Little Falls, Buckman hotel, Tuesday, Nov. 5th, from 9 a. m. until 4 p. m.

Brainerd, Ransford hotel, Wednesday, Nov. 6th, from 9 a. m. until 2 p. m.

Bemidji, Markham hotel, Thursday, Nov. 7th, from 9 a. m. until 3 p. m.

Fosston, Commercial hotel, Friday, Nov. 8th, from 9 a. m. until 4 p. m.

Detroit, Minnesota hotel, Saturday, Nov. 9th, from 9 a. m. until 4 p. m.

Long Prairie, Reichert hotel, Monday, Nov. 11th, from noon until 8 p. m.

Bank Centre, Palmer hotel, Tuesday, Nov. 12th, from 12:30 until 8 p. m.

Alexandria, Arlington hotel, Wednesday, Nov. 13th, from 9 a. m. until 4 p. m.

BRAINERD WON AGAIN

Football Game Last Saturday Proved to be a Good One

The Brainerd high school football team came down from that city Saturday afternoon and in a good snappy game defeated the local high by a score of 5 to 0. The game started at four o'clock and proceeded so far into the darkness as to warrant artificial light, were any to be had, for the last ten minutes of the game. The first half was started by the locals kicking off, the ball coming to a stop on Brainerd's ten-yard line. Brainerd was unable to make the necessary gains and the ball went to the locals. Two drop kicks for goal were tried by the locals in this half, the first was a failure but the last many who were there claimed passed over the goal and that the referee was in the wrong when he did not allow it. This was the local's best half and the ball was kept on Brainerd territory most of the time.

In the second half our boys seemed to weaken and although they contested the game hotly Brainerd kept gaining on them steadily. Much counting took place in this half, and Brainerd showed great ability on short place-kicks. The forward pass was worked on our boys several times successfully. Twice Brainerd crowded our boys for a touch-down, but each time our boys got hold of the ball and with long distant punts extricated themselves from impending defeat. A third time the Brainerd boys worked the ball near the local's goal. This time they retained hold of the ball and with a last effort they forced the ball over for a touch-down. A try at kicking failed and the game ended 5 to 0 in favor of Brainerd.

LAST DRIVE OF THE SEASON FINISHED

The large crew which had charge of the drive containing 30,000,000 feet of logs which were started from this city several weeks ago, were laid off Saturday night, this season's work having been completed. In this, the last drive of the season, the river was entirely cleared of logs the whole distance of the drive, and the drive itself has been taken to a point a little below the Royalton bridge. For the past several years the Royalton bridge has come near being destroyed by the ice and log jams when the ice began to break up each spring. Now a good deal of the danger has been eliminated by the taking of the drive below the bridge, and therefore the bridge will have only the ice to contend with.

A large number of the logs of the drive which were started from this city several weeks ago, were laid off Saturday night, this season's work having been completed. In this, the last drive of the season, the river was entirely cleared of logs the whole distance of the drive, and the drive itself has been taken to a point a little below the Royalton bridge. For the past several years the Royalton bridge has come near being destroyed by the ice and log jams when the ice began to break up each spring. Now a good deal of the danger has been eliminated by the taking of the drive below the bridge, and therefore the bridge will have only the ice to contend with.

IT IS SAID THAT

When a house is being painted, pails of water should be placed in the rooms. A handful of hay plunged into the water helps to get rid of the smell. For a wholesome table beverage there is nothing quite so good as golden grain belt beer. It is brewed from the best of nature's products in a better way than other beers and should be served daily with meals to insure perfect health. Order of your nearest dealer or be supplied by E. S. Tanner, Little Falls.

A large number of laborers, who have been employed on the grading of the "Soo" extension near Pierz under Contractor Nelson, left Saturday for Minneapolis. From there most of them will go to the woods. Mr. Nelson has completed his present grading contract, and will soon take up another contract further on.

Little Edith Stangel of St. Cloud, who has been very ill with diphtheria, is much improved.

The Elks lodge will start the winter season dances, which proved so successful last winter, tonight and the Elks and their ladies are invited to enjoy these lives at these dances.

LONG PRAIRIE WILL USE THEIR PRESENT LIGHTING PLANT.

At a meeting of the village council of Long Prairie last week the electric lighting question was taken up in its different phases and thoroughly discussed. One phase of the question was to get the necessary current transmitted from the local plant to that place, and T. C. Gordon of this city appeared before the council with a proposition which his company would make in this regard. He stated that as some succeeding council might decide to drop the line some time after it had been completed, the construction of the line, which would cost in the neighborhood of \$25,000, would not be undertaken by his company, and he also stated that the present amount of electricity used by that village would not be sufficient to warrant the building of the line by the village. As the building of the line by the village was entirely out of the question at present it was decided to continue running their present plant until such a time when the machinery would become useless and new machinery needed. At that time the Water Power company's proposition will be considered by the village.

LAST DRIVE OF THE SEASON FINISHED

The large crew which had charge of the drive containing 30,000,000 feet of logs which were started from this city several weeks ago, were laid off Saturday night, this season's work having been completed. Now a good deal of the danger has been eliminated by the taking of the drive below the bridge, and therefore the bridge will have only the ice to contend with.

WORK BEGUN ON ANOTHER BOWLUS BANK.

St. Cloud Times, 26: Contractor Henry Steckling left this noon for Bowlus, on the Soo, where on Monday he will start a crew of masons at work on a building for the Farmers' State Bank of Bowlus, recently organized. H. J. Schwarz and A. A. Barton, of Royalton, both of whom are interested in the new bank, awarded the contract for the building to Mr. Steckling yesterday. The structure is to be 25 feet, and of brick. It is to be rushed to completion and made ready for occupancy inside of six weeks.

The Farmers' State Bank capitalized at \$10,000. A. A. Barton is to be its cashier.

A SOCIAL TIME AT THE BUSINESS COLLEGE.

On Friday evening, Oct. 25, an informal reception was given by the students of the Little Falls Business College. A most enjoyable musical program was rendered in which the following numbers were given:

Piano Duet.....
The Misses Moeglein and Merrill
Vocal Solo..... M. M. Merrill
Reading..... Chas. Rose
Piano Solo..... Melvin Birch

Short talks were given by several of the students.

After the program the floor was cleared and all enjoyed a pleasant dance.

The party broke up about midnight.

ORDER FOR ALIMONY FILED.

In the matter of that divorce action entitled Larson vs. Larson in which the wife of a well known Morrison county farmer residing near Little Falls, sues her husband for an absolute separation, charging cruel and inhuman treatment, Judge Taylor Thursday last week on motion of Attorney D. Cameron, of Little Falls, counsel for plaintiff, made an order upon defendant to pay his wife temporary alimony of \$8 a month and suit money in the sum of \$75. Attorney A. P. Blanchard appeared for the defendant.

Mrs. Larson and her five minor children, ranging in ages from 18 down to 4 years, are now residing with her parents in Steels county. The divorce action comes on for trial at the next term of district court.

Adolph Chaffee of Dent visited relatives here and at Pierz.

John Larson of Morrill went to the local hospital last Friday to take treatment.

Report of school in district 46 for month ending Oct. 25:

Pupils enrolled 44
Days taught 20
Average attendance 12
Those neither absent nor tardy are Ida Wuellner, Louisa Wuellner and Loretta Kipley.
—Cora Raymond, teacher.

Report of school in district No. 12 for month ending October 25:

Days taught 20
Pupils enrolled 26
Average attendance 18
Those perfect in attendance: Sam Laiture, Olympia Laiture, Mettie Eckerson, Dewey Eckerson, Lissie Swanson and John Swanson. Absent two days or less: Nellie Harlander and Olive Meyers.

Report of school in district No. 127 for the month ending Oct. 25:

Days taught 20
Pupils enrolled 18
Average attendance 10
Those neither absent nor tardy: Hannah, Alma and Knute Nelson, Frieda and Grace Nordahl, Hans and Hulda Krambeck and Hilda Johnson. Those on the roll of honor: Hans Krambeck, Frieda Nordahl, Alma Nelson and Olga Kastner.
—Ursula Pearson, teacher.
