Let every enfeebled woman know it! There's a medicine that'll cure her, and the proof's positive!

Here's the proof—if it doesn't do you good within reasonable time, report the fact to its makers and get your money back without a word—but you won't do it!

The remedy is Dr. Pierce's Favorite Prescription—and it has proved itself the right remedy in nearly every case of female weakness.

It is not a miracle. It won't cure everything—but it has done more to build-up tired, enfeebled and broken-down women than any other medicine known.

Where's the woman who's not ready for it? All that we've to do is to get the news to her. The medicine will do the rest.

Wanted—Women. First to know it. Second to use it. Third to be cured by it. The one comes of the other.

The seat of sick headache is not in the brain. Regulate the stomach and you cure it. Dr. Pierce's Pellets are the little regulators.

PRICKLY ASH BITTERS

One of the most important organs of the human body is the LIVER. When it fails to properly perform its functions the entire system becomes deranged. The BRAIN, KIDNEYS, STOMACH, BOWELS, all refuse to perform their work. DYSPEPSIA, CONSTIPATION, RHEUMATISM, KIDNEY DISEASE, etc., are the results, unless something is done to assist Nature in throwing off the impurities caused by the inaction of a TORPID LIVER. This assistance so necessary will be found in

Prickly Ash Bitters!

It acts directly on the LIVER, STOMACH and KIDNEYS, and by its mild and cathartic effect and general tonic qualities restores these organs to a sound, healthy condition, and cures all diseases arising from these causes. It PURIFIES THE BLOOD, tones up the system, and restores perfect health. If your druggist does not keep it ask him to order it for you. Send 2c stamp for copy of "THE HORSE TRAINER," published by us.

MISSOURI STATE NEWS.

THE other day Judge G. D. Burgess met H. L. Preston, one of the publishers of a Kansas City sensational paper, at Brookfield, and fired two shots at him, neither of which took effect. The shooting grew out of the publication of a scandalous article reflecting upon the character of Judge Burgess. The judge declared that he shot to kill. Judge Burgess was a candidate before the late Democratic convention for Associate Justice of the Supreme Court.

ABOUT six o'clock the other evening fire was discovered on the top floor of the retail dry goods establishment of Frank Bros., at St. Louis, and after hard work the building and stock were saved from total destruction. The damage to the stock was $200,000 and to the building, which is owned by the firm, $50,000. Fully covered by insurance. Other losses sustained by adjoining firms aggregated $6,000.

AL. GOODSPEED, the conductor of a yard crew of the Gulf road, recently fell under the cars at Joplin and was killed. He leaves a wife.

THE other night unknown parties entered the office of the Herald, the only paper published at Pacific City, pied the type and utterly destroyed the material in the office.

A FEW days since a saw-mill proprietor named George Wetteroth, committed suicide at his home near Kelso, Scott County. He placed a double-barreled shotgun to his head and pulled the trigger with his toe, tearing the top of his head away.

Two earthquake shocks lately stirred up the people of Cape Girardeau.

BURGLARS entered Walter Wilson's drug store at Dixon the other night and took about $400 worth of jewelry and watches. The thieves also raided several other establishments, including the post-office, but secured but little booty elsewhere.

IN the circuit court at Mexico the other day Mrs. Mary Lee Burchard got a judgment against John M. Dickey, of Texas, for breach of promise of marriage. Mrs. Burchard resides in Martinsburg and was betrothed to Dickey, but he married another lady on the day set for his marriage with the plaintiff.

THE Republican Congressional committee of the Third district has chosen P. S. Kinney, of Kidder, to supply the vacancy on the ticket, caused by the declination of William Gibson.

BIRDS and Huffman, the alleged Otterville train robbers recently had their preliminary examination at Boonville and were held to await the action of the grand jury. Circumstantial evidence was strong against them.

SOME excitement was caused at Kansas City the other day by the discovery that three graves had been robbed at one of the cemeteries, presumably by medical students.

THE principal of St. Joseph's high school recently suspended twenty-three pupils for violation of the rules. The superintendent upheld the principal and the parents took the part of the obstreperous children, and "there they were."

THE convention of Presiding Elders of the Methodist Episcopal Church of Missouri, Kansas, Iowa and Nebraska was recently in session at St. Joseph. This was the fourth convention held by the Presiding Elders of the four States named, and was more largely attended than any of its predecessors, there being over a hundred Elders and as many pastors present.

THE Grand Lodge Knights of Pythias, at its recent session in St. Louis, elected the following officers: Grand chancellor, Dr. Barrett, of Hannibal; vice-grand chancellor, D. Leadbetter, of Farmington; grand prelate, Rev. Dr. Glerlow, of St. Louis; grand banker, Adam Thies, of Hannibal; grand keeper of records and seals John H. Holmes, of St. Louis; grand master at arms, J. Stultz, of Webb City.

THE last State Legislature enacted a law providing for the taxation of all express companies doing business in the State over rented or leased lines, the tax being $2 on every $100 received or charged for carrying freight within the State. The law provides for an annual report from the companies to the State Auditor for each year's business. The Pacific Express Company refused to comply with the law, and Auditor Seibert brought suit to test it. In the United States Circuit Court at Kansas City the other day Judges Phillips and Caldwell decided against the company and declared the law valid.

THE court at Mexico has declared that the Local Option law has not been properly adopted in Audrian County and is, therefore, not in force.

A CARPENTER named Emil Weiterman committed suicide at St. Joseph the other day by jumping into the river. Family and financial troubles were the cause.

THE other morning a freight train on the St. Louis & San Francisco road, made up of empties and loaded cars, was wrecked near Conway. Eighteen cars were completely demolished and eight or ten damaged more or less. While clearing away the debris the men were horrified at finding a dead body in the midst of the wreck, which proved to be that of a tramp. He was mashed to an unrecognizable condition. There were no papers about his person to lead to his identification.

Two negro boys aged fourteen and nine years got into a quarrel at one of the colored schools of St. Louis the other day when the older boy in a fit of rage drew a knife and stabbed the younger boy in the side inflicting a dangerous and perhaps fatal wound.

MILITARY MATTERS.

ITALY is at last beginning to economize in her military and naval expenditures. She promises to spend $6,000,000 less the coming year on her army and navy.

THE form of the new German armored vessel Siegfried is very peculiar, giving her the appearance of a gigantic fish, yet she is said to have made sixteen knots.

THE military authorities at St. Petersburg have decreed that in future foreigners shall not be allowed to serve in the army unless they are willing to become Russian citizens.

THE German fleet is already so important that it stands at 139 vessels in a French estimate of effective naval forces, which gives only 161 to France. Italy comes before it with 152 vessels, Russia before Italy with 185 and England before all of them with 383.

GREAT disappointment is expressed in naval circles at the remarkable loss of speed exhibited by our ocean cruisers. The Baltimore averaged only seven knots an hour on her visit to Sweden, and on a run from Hawaii to the Pacific coast the Charleston barely made eight knots.

A scientist says if we were to visit the moon we should find the days and nights a fortnight in length, and if we "survived the scorching during the day we should certainly be frozen to death during the ensuing night." That settles it. We shall not visit the moon. The climate is entirely different from any of the forty-seven varieties we sometimes experience here during twenty-four hours, and it wouldn't agree with us.

PECULIAR INFATUATION.

Different Methods of Following the Injunction "Love One Another."

Do men ever fall in love with each other? Women do. Not long ago a young woman in New Jersey was married to a youthful laborer on her father's farm. Sometime afterward it was discovered that the husband was a female; the young wife refused, however, though earnestly entreated by her friends, to give up her chosen consort. The strangest part of the discovery was the fact that the bride knew her husband was a woman before she was led to the altar.

If men do not exhibit this strange infatuation for one of their own sex, they at least oftentimes give evidence of the fact that they love one another. There are many instances on record where one man has given his life for another. There are many more instances where men have given life to another.

It is a proud possession—the knowledge that one has saved a precious human life. Meriden, Conn., is the home of such a happy man. John H. Preston, of that city, July 11th, 1890, writes: "Five years ago I was taken very sick, I had several of the best doctors, and one and all called it a complication of diseases. I was sick four years, taking prescriptions prescribed by these same doctors, and I truthfully state I never expected to get any better. At this time, I commenced to have the most terrible pains in my back. One day an old friend of mine, Mr. R. T. Cook of the firm of Curtis & Cook, advised me to try Warner's Safe Cure, as he had been troubled the same way and it had effected a cure for him. I bought six bottles, took the medicine as directed and am to-day a well man. I am sure no one ever had a worse case of kidney and liver trouble than I had. Before this I was always against proprietary medicines but not now, oh, no."

Friendship expresses itself in very peculiar ways sometimes; but the true friend is the friend in need.

GRACE—"What air was that you were playing last night?" Laura—"A millionaire, and I landed him."—N. Y. Herald.

How to Gain in Flesh.

It is not what one eats that makes one fat, but the food that is properly digested and assimilated that increases the flesh. The food that lies and ferments in the stomach or passes undigested into the viscera, does the system much harm, as they say, it makes a man thin to carry so much effete matter around with him. In order that there be a full and thorough digestion and assimilation of food, the stomach, the liver and the kidneys must be kept in the finest condition. These great organs of life frequently need the aid of various herbal juices. It is to them what oil is to machinery. It enables them to do their work with less friction. It is this friction that wears out mechanical machinery as well as the machinery of life. Now science has discovered the herbs that naturally aid the movements of the stomach, liver, kidneys and bowels. They are contained in that efficacious remedy known as Dr. Bull's Sarsaparilla. If you are in a state of general ill health give it a trial and see how much better you will feel.

$100 Reward. $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer $100 for any case that it fails to cure. Send for list of testimonials. F. J. CHENEY & Co., Toledo, O.

THE poet is an idyl fellow, and that's probably why the public stanza verse to being ode by him.—Binghamton Ledger.

A Strong Foundation

In health has the constitution fortified and built up with Hostetter's Stomach Bitters. The entire physical structure nourished and sustained through the agency of assured digestion and assimilation, regularity of the bowels and liver restored, the nerves invigorated, nightly repose sound and health yielding—these are among the results of its use. Malaria, rheumatism, kidney complaint, are annihilated by it.

FIRST BURGLAR—"Good Lord! let's run; here comes some one!" Second Burglar—"O! come on; it's only a policeman."—Hoosier.

A GREAT mistake perhaps was made when Dr. Sherman named his great remedy Prickly Ash BITTERS; but it is presumed that at that time all remedies for the blood, etc., were called Bitters. Had he called it Prickly Ash "Regulator," "Curative," or almost anything but *Bitters*, it undoubtedly would have superseded all other preparations of similar character. The name Bitters is misleading; it is purely a medicine, and cannot be used as a beverage.

NO, QUERCUS, it does not necessarily require a tug-of-war to tow a warship into a harbor.—Binghamton Republican.

QUININE will often stop the chills for a brief period, but Shallenberger's Antidote for Malaria removes the malarious poison from the system and *cures* you. A single dose will sometimes do it. Sold by Druggists.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.
