BAKING POWDER

the Most Economical

Greater in leavening strength, a spoon-raises more dough, or goes further. Working uniformly and perfectly, it makes the bread and cake always light and beautiful, and there is never a waste of good flour, sugar, butter and eggs. While it actually costs less to make a batch of biscuit with the Price Baking powder than with the so-called cheap powders, there is the additional advantage of better and more healthful food.

NOTE.—Alum powders should not be used, no matter how cheap they are. They induce dyspepsia, liver complaint and kidney trouble.

Saturday night, December 7, the wife of John Wealott, a girl.

Monday morning, December 8, the wife of Lewis Eckle, a boy.

Cliff B. Goodwin arrived from small Tuesday morning to visit family of her father, Tilton Davis.

Transfer company keeps a call book in Mammoth livery stable, and on at Grand Central hotel. Leave orders at place. 10-27-17

William P. Bradshaw returned home at Edwardville, Ill., a visit with the family of Judge E. Burden.

Family use in numberless ways Snow Liniment is a useful and safe remedy. Price, 25 and 50 cents. For sale by Crenshaw & Young.

Dr. Manly and daughter, Miss went to Kansas City Monday morning to visit Judge John F. and family.

to the wife of J. Allen Bell, a daughter, who has been named Annie Margaret. The lady was born Tuesday morning.

SALE—I have for sale a good day's business, about two thousand cash. For full particulars call on F. Walker, agent, Lexington, Mo. 4-27

Osley Clark and wife, who came from Lexington to attend the funeral of Mr. Clark's mother, Mrs. Nancy returned to their home in Lexington City Monday.

Some take refuge to the small intestine where they easily multiply. White's Vermifuge will destroy these parasites. The verdict of the people tells how well it has succeeded. Price, 25 cents. For sale by Crenshaw & Young.

Considerable rain fell at Lexington Saturday, preceded by a heavy snow that fell a few hours previous. While not nearly enough to do any great amount of work, yet what did come was most beneficially received.

Charles Geyer, wife and little daughter, Agnes, came in Monday morning. Mr. Geyer is a member of the industrial company of Geyer & Co., and he and his family came in their special car. Geyer & West had a most successful season.

BEET SUGAR INDUSTRY OF COLORADO STATE.

Mr. C. L. Seagraves, passenger agent of the Santa Fe, has returned from the sugar-beet district of Colorado, and completed arrangements to locate a great many families near Holly. Mr. Seagraves said:

"The leaders of the various delegations are expert agriculturists, and have visited and carefully investigated all sections of the United States, and pronounced the Arkansas Valley the most promising of any section visited, on account of the superb climate, rich soil, and the most perfect irrigation system in the world, backed by a reservoir supply with sufficient water to irrigate all the lands for two years without a drop of rain,—thus insuring the farmers against failure of crops."

Mr. Seagraves advises that the farmers in the valley are very prosperous, and as that section will be densely populated and brought up to a high standard of cultivation, it will in five or six years become the richest and most prosperous community in the country.

He says:

"The American Beet Sugar Company of Rocky Ford, with their million-dollar sugar factory, have done a great deal to make the farmers in that district prosperous and very materially enhance the value of their lands."

"Sugar beets are a very profitable crop for the farmer, and the only drawback is the laborious work in the thinning season, which lasts about two weeks. This feature, however, is being overcome by labor brought into the valley from New Mexico, who con-

as for instance, corn may be worth 75 cents a bushel at planting-time, and when harvested may be worth only 15 cents. This is likewise true of all small grain, as the prices are largely controlled by the gamblers on the board of trade.

"The Arkansas Valley of Colorado is considered the ideal sugar-beet country, as they grow more tons to the acre and contain a larger percentage of sugar than beets grown anywhere in the world. The Rocky Ford factory is now rearranging some of its machinery, the beets being so rich they will not submit to the usual methods employed at the other factories."

"Cantaloupes are also a very profitable crop, and many growers estimate they will pay \$100 an acre, net. I saw two and one-half acres near Rocky Ford that yielded the grower one thousand dollars. This was on rented land, of which the owner received one-third of the crop. This may be an exceptional case, but it proves what intensive farming will do."

"Alfalfa and small grains do well, and are profitable crops to grow. Vegetables of all kinds, poultry and dairy products command good prices, and a ready market in Denver, Colorado Springs, Pueblo and the mining camps."

Beet culture will never be overdone, for the reason that we are now paying out \$125,000,000 a year for foreign sugar, while the consumption doubles about every ten years.

"Germany, with an area about equal to the state of California, has already

Good Things for Christmas Gifts

Look over this list and see if you cannot find what you want. Buy while you have a fine stock to select from. Don't wait until stocks are all broken up and then cry because you cannot get what you wish.

W. G. McCAUSLAND

The Store of The Town

We didn't invent this phrase, but we are proud to accept and adopt it, because it is true of this store. We carry the best grade of goods in the market and we invite you to come in and see what we have to offer. We are getting even more than we thought was our share of the young men's business. Style does it—that's what attracts young men and there is hardly a man of any age so set upon gloom that he doesn't want that touch of style, whether in cloth or in cut, that makes people say to him, "How you, look!"

New winter suits and overcoats at \$5.00, \$7.50, \$10.00, \$15.00 and \$20.00. Boy's and children's suits and overcoats from \$1.00 to the very best. If we get your trade we'll hold it.

H. SINAUER, The Popular Clothier.

tract to thin beets at so much per acre.

"In the vicinity of Rocky Ford, where the land has been cultivated extensively, it is possible under only fair conditions to raise twenty tons of beets to the acre, while thrifty and industrious farmers grow from twenty-five to thirty tons to the acre, and in some instances as high as thirty-five tons."

"The price of beets is determined according to their sugar content, the average being about \$5 per ton. The cost of growing beets, including all labor, seed, as well as harvesting the crop in the fall, is about \$35 per acre, leaving the farmer \$75 or more profit an acre for his crop."

"The sugar factory will give the farmer a five or ten-year contract for his beets, agreeing to pay \$1 for beets containing 15 per cent sugar or less, and 33 1/2 cents for every 1 per cent of sugar content over 15 per cent. The beets last year averaged over 17 per cent, making the price almost \$5 per ton."

"The safest crop a farmer can grow; the one that has less enemies and can withstand more hardships, is the sugar beet. It is not influenced by speculation, such as corn, wheat, oats, etc. The farmer makes his contract in the fall as to the number of acres he will plant, so that he knows if he plants ten acres of beets and under only fair conditions he will raise 20 tons to the acre, which will net him above all expenses about \$75 per acre. Thus he knows months in advance what his crop will be worth the next year."

"This is not true of any other crop:

Back From Cattle Show.

T. C. Sawyer has returned from the big cattle show at Chicago and says it was a great spectacle to witness. Mr. Sawyer made some splendid sales, showing the wisdom of breeding Hereford cattle. He sold a ten months old calf for \$505; a two-year-old heifer for \$405, and a yearling heifer for \$180, making an average of \$363. The yearling that brought \$180 was sold on the first day before interest had begun to warm up. If her sale had been postponed until the second day she would have brought more money. However, the average was a splendid one.

Mr. Waddell had sold up to the time Mr. Sawyer left Chicago one cow at \$500, one at \$425 and a bull at \$130.

Warren county. The wedding was a brilliant social event. The mother of the bride, Mrs. Earle, nee Burns, formerly resided near Lexington, and the family have many friends in Lafayette county.

Burglars Jailed.

Two white men were lodged in jail here Sunday night for burglarizing the general merchandise store of William Leiser, at Corder, Saturday morning. They were noticed disposing of the goods at any price they could get in the vicinity of Aullville Saturday afternoon and Sunday morning. The citizens became suspicious and arrested them and the goods found in their possession were shown to be a part of those stolen from Mr. Leiser's store.

The Christmas Dinner.

In spite of the fact that the word dyspepsia means literally bad cook, it will not be fair for many to lay the blame on the cook if they begin the Christmas dinner with little appetite and end it with dizziness or nausea. It may not be fair for a man to do that—let us hope so for the sake of the cook! The disease dyspepsia indicates a bad stomach, that is a weak stomach, rather than a bad cook, and for a weak stomach there is nothing else equal to Hood's Sarsaparilla. It gives the stomach vigor and tone, cures dyspepsia, creates appetite, and makes eating the pleasure it should be.

Died at Higginsville.

John R. Warren, of Higginsville, an uncle to Mrs. Clarence Vivion and Miss Lavinia Warren, a teacher at the Baptist college, died at 6 o'clock last Friday afternoon, after a long illness. Mr. Warren was about 76 years of age. The funeral took place at 2 o'clock Sunday afternoon. Interment at the Old Republic graveyard, two miles south of Higginsville.

Clarence Kenney, wife and little son, Wilmot, went to Kansas City Monday afternoon to visit Mrs. H. B. Kenney.
