DOMINICAN CRUISER ROUTED BY FORTS

Presidente Arrives at Cape Haytien, Hayti, After Attempt at Bombardment.

HAYTIANS BECOME ANXIOUS.

Fear That Exiles Will Succeed in Carrying Out Plans for Invasion of Country—Business at Standstill.

Cape Haytien, Hayti, April 27.—The Dominican Government cruiser Presidente has arrived here.

She reports that while on her way from Puerto Plata to this port she stopped at Monte Cristi, on the north coast of Santo Domingo, and fired several shells at the forts, which are held by revolutionists. The latter replied and obliged the cruiser to cease the bombardment.

The Presidente further reported that a lively engagement took place recently at Guayacan, with the result that the Government forces lost many men.

General Jiminez is expected to return to Santo Domingo soon with war munitions. This prospect is causing the Dominican ... to its declaring Monte Cristi to be blockaded.

General Salnave, a Haytian refugee, has been notified to leave Dominican territory immediately. Under the auspices of General Jiminez, it is asserted, General Salnave was preparing an expedition, the object of which, it is said, was the overthrow of the Haytian Government.

It is reported that an agreement has been entered into by the Haytian exiles now in Santo Domingo and at the Island of St. Thomas to make a joint effort to re-enter Hayti. Trouble is imminent. People are talking of the return to this country of Generals Salnave, Fouchard and Lecomte, all former candidates for the presidency of the Haytian Republic.

Business is at a standstill as a result of the exorbitant premium on gold, which is 360 per cent. The Haytian Government is adopting precautionary measures.

Nelson Chesman & Co.'s new Publicity building, at Nos. 1127 and 1129 Pine street, was ready for occupancy on April 15, and is now the permanent home of the main office of this old, reliable and popular advertising agency.

The handsome structure is absolutely fireproof and is probably the finest and best appointed agency building in the country. Its erection is a fitting climax to a successful business career of thirty years. This is the only agency in the

HERBERT DURAND,
Manager of the compiling and designing departments of Nelson Chesman & Co.

West owning absolutely its own building as well as the ground on which it stands. With the ample and needed room and additional facilities it affords, Nelson Chesman & Co. are as well equipped as any agency in existence to plan and execute every detail of a successful advertising campaign, including, in addition to their unsurpassed newspaper and magazine service, the preparation and illustration of advertising copy and the designing, writing, illustrating and printing of pamphlets, booklets, catalogues, mailing cards and every other accessory used by modern advertisers to supplement newspaper publicity.

Herbert Durand, one of the best-known advertising writers in the West, has been engaged as manager of the compiling and designing departments. Mr. Durand has had a long and exceptionally thorough training in this field. After leaving college he was for a number of years on the editorial staffs of such newspapers as the Louisville Commercial, Louisville Courier-Journal and St. Louis Globe-Democrat, leaving the latter journal to become general advertising agent of the Wabash Railroad, in charge of the printing and advertising of the system. His work for the Wabash attracted wide and favorable comment. He originated the Wabash flag, one of the first of the railroad trade-marks, and made "The Banner Route" known all over the land. From the Wabash he went to Hot Springs, Ark., as advertising manager for that resort, and during his two and one-half years of systematic work the number of visitors increased 150 per cent. He returned to St. Louis to become manager of the advertising department of the Buxton & Skinner Stationery Company, in which position he has planned and printed the business literature of many of the largest commercial houses and trust companies of St. Louis.

He is thoroughly familiar with all branches of newspaper work and commercial printing and is an expert writer and designer of clean-cut, convincing advertisements.

He is also highly expert in designing and writing attractive booklets, catalogues and pamphlets, possessing the faculty of transforming dry business details into readable and interesting narratives. Associated with him is a corps of skilled artists, and the department is provided with a completely equipped printing plant, in which the type and other material are entirely new and of the latest design.

Nelson Chesman & Co. have an enviable and exceptional reputation for integrity, financial standing, rare judgment and practical experience. Their offices at St. Louis, Chicago and New York enjoy a large and constantly increasing patronage from leading advertisers of the United States.

BOTH SIDES PREPARING FOR THREATENED STRIKE.

Gompers Addresses Teamsters and Owners Arrange for Meeting to Hear Reports.

It is believed, from present indications, that the threatened strike of the teamsters in sympathy with the carriage drivers' strike will be inaugurated May 1. It is stated that neither the Teamsters' Union nor the Team Owners' Association seems inclined to yield.

Samuel Gompers, president of the American Federation of Labor, and Frank Morrison, secretary of that organization, who came here from Washington to confer with the local teamsters, addressed a mass meeting of laboring men at Concordia Hall last night.

Local leaders also addressed the meeting and the general sentiment expressed was that the strike would be the proper course to take if difficulties were not adjusted by May 1.

No official action was taken at the meeting.

The team owners' associations will meet to-night to discuss ways and means of meeting the emergency. It is expected that not less than 10,000 teams will be represented at this meeting.

The report of the committee of seven appointed Tuesday to perfect a plan of organization will be heard, and active steps will be taken toward filling the places of those who may strike with nonunion men.

MAINE GUNNER DOES WONDERFUL SHOOTING.

Battleship Marksman Makes Nine Hits in One Minute, Astonishing All Experts.

REPUBLIC SPECIAL.

Washington, April 27.—News from the record-breaking target practice at Pensacola by the battleships Maine and Texas was contained in unofficial dispatches received in Washington to-day. Wonderful new records for 6-inch guns were established by both vessels.

The Maine, with a battery of sixteen 6-inch guns, averaged five hits per gun per minute, and the Texas averaged 4.17 hits per gun per minute. One gun pointer on the Maine made nine shots, and nine hits in one minute. This record is regarded with both gratification and astonishment at the Navy Department, as it is the highest point of excellence that has as yet been attained in the navy under similar conditions and circumstances.

One Shoots Himself, the Other Drinks Acid.

Two suicides were reported to the police last night. Lewis Oppenheimer of No. 3213 Laclede avenue shot himself in the left breast. John Johnson of No. 718 North Eighteenth street swallowed carbolic acid. The bodies are at the morgue.

Oppenheimer, who was 53 years old, was a traveling salesman employed by Henry Sonneborn & Co. of No. 704 Washington avenue. After requesting Mrs. Margaret Leland, with whom he roomed, to close the blinds, he shot himself in the left breast. He died before a physician arrived. Oppenheimer became ill several days ago, and it is said that he had lost heavily at the races recently.

Johnson, who was 35 years old, roomed at the Alexander House, No. 718 North Eighteenth street. When he did not appear for supper last night an investigation was made. The door of his room was forced and he was found dying. An empty carbolic acid bottle was found by his side. Johnson died on the way to the City Hospital.

BEGGAR'S INVENTION MAY BRING HIM GREAT WEALTH.

Alexander McKenzie of New York Finds Aid in Perfecting Third-Rail Device for Elevated Tracks.

New York, April 27.—Members of the Charity Society here express the belief that Alexander McKenzie, a professional beggar, who was once an electrical engineer, has invented a successful device for the protection of the third rail on elevated tracks and will receive the prize of $100,000 offered by the Interborough Company for that achievement.

So sanguine are the members of the society of the success of McKenzie's invention that the matter has been placed in the hands of a patent solicitor, and a practical test of the device will be made as soon as the patent is perfected in Washington.

On the police records McKenzie is classified with the harmless mendicants, usually cripples, who sit silently in the street or wherever crowds are passing and hold out their hats or a tin box with mute appeal for aid.

For several years McKenzie has been a conspicuous figure on the platforms of the elevated stations. He has but one leg, and always sat on the floor with his crutches lying in his lap and his hat stretched out for coins.

For weeks at a time he would be seen every afternoon during the rush hours at the stations along the Sixth avenue line, and then someone would enter a complaint and he would be arrested and sent to the island.

There he was always a welcome prisoner, for his mechanical genius found great opportunity about the shops and buildings. During his various periods of confinement he perfected the models for protecting the third rail, and, distrustful of every person who attempted to examine them, finally called on the charity organization for help. The officials at once took charge of the matter. They say McKenzie was almost starved when he finally asked for aid.
